TRANSFORMING MIRROR INSTALLATIONS

A REVOLUTIONARY STEP WITH TEK BOND'S FIX MIRROR ADHESIVE SOLUTION

SAINT-GOBAIN: REDEFINING SUSTAINABLE LIVING

As a global leader in sustainable habitat solutions, Saint-Gobain continues to innovate by designing, manufacturing, and distributing materials that enhance our daily lives. From the spaces we inhabit to the vehicles we travel in, Saint-Gobain's products are integral to comfort, safety, and efficiency. One of its groundbreaking ventures is the Adhesives & Sealants Business, a part of the High-Performance Solutions sector, which introduced Tekbond to the Indian market in 2019.

Tekbond's entry marked a pivotal moment, offering a range of high-quality adhesives and sealants tailored for both retail and industrial sectors. With its newest innovation, Fix Mirror, Tekbond is set to transform how mirrors are installed, combining ease, safety, and superior performance.

CHALLENGES IN MIRROR INSTALLATIONS: THE NEED FOR INNOVATION

Mirrors are a critical design element for architects and interior designers, enhancing the beauty, functionality, and perceived space within a structure. However, traditional mirror installation methods, involving drilling, heavy tools, and potential damage to substrates, can be time-consuming and messy, especially for consultants and fabricators working on tight timelines.

This is where Tekbond's Fix Mirror comes in. It offers a purpose-built solution for safe, stain-free, and durable installations that aligns with modern construction practices. With Fix Mirror, seamless perfection is achievable, saving time and enhancing aesthetics.

WHY CHOOSE FIX MIRROR?

Fix Mirror is not just an adhesive; it's a solution designed with professionals in mind. From architects envisioning striking interiors to fabricators tasked with execution, this product meets the demands of efficiency and excellence. Here are its standout features:

Solvent and Isocyanate-Free Formula

- Fix Mirror's composition is free of harmful chemicals, ensuring safety for both users and the environment—a critical consideration for sustainable projects.

Superior Adhesion

- Engineered for strength, this adhesive delivers a robust bond across diverse materials, including lacquered glass, walls, ceramics, metals, wood, and MDF boards—a versatile choice for complex installations.

Quick Curing and Drying

- Its curing time of 24 hours (for 2.5mm thickness) and fast drying time of 6 minutes enable fabricators and contractors to meet tight deadlines with ease.

Versatile Surface Compatibility

- Rigorously tested for silver mirrors, plain glass, and lacquered glass, Fix Mirror is a reliable option for a wide range of applications, ensuring flawless integration with design elements.

Non-Corrosive and Neutral Curing Properties

- Neutral curing prevents mirror de-silvering, resists yellowing, and safeguards metal substrates, making it ideal for high-end installations in luxury spaces.

Extended Shelf Life

- A shelf life of up to one year offers flexibility and convenience for stocking and future use.

KEY FEATURES AND BENEFITS

Technical Excellence

- UV Resistance:** Fix Mirror maintains bonding strength and mirror clarity, even under prolonged sunlight exposure—perfect for spaces with abundant natural light.
- VOC-Free Formula:** Contributes to better indoor air quality, supporting green building certifications and environmentally conscious projects.

INSTRUCTIONS FOR USE

Using a smooth piece of cloth clean the painted side of the mirror/ Lacquered glass.

Apply double-sided tapes as spacers on the four corners of the substrates

Apply 6 to 8 mm wide silicone beads horizontally to the substrates using the enclosed V-Shaped nozzle at room temperature.

Maintain a 10cm gap between each silicone bead. Apply silicone along the length of the mirror.

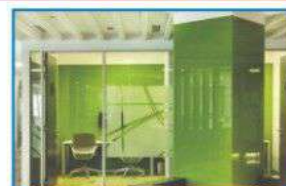

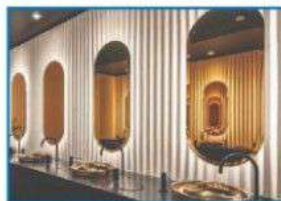

After installation, the glass will need to be supported using masking tape / clamp for 3 hours until the silicone cures completely.

FIX MIRROR: ONE SOLUTION, ANY GLASS, ANY SURFACE!

Mirror Mounting

For durability of mirrors, rely on Fix Mirror to do the job.

Lacquered Glass Mounting

Fix Mirror ensures a stronger bond between lacquered glass and mounting substrate.

Easy to use | Safe | Innovative

The Tekbond Advantage

Fix Mirror embodies Tekbond's commitment to excellence, safety, and innovation. Its cutting-edge formula and high-performance capabilities set a new standard in mirror adhesives, tailored for professionals aiming for perfection.

With attributes like UV resistance, non-corrosive properties, and a solvent-free composition, Fix Mirror is a reliable choice for projects that demand precision and durability. Its user-friendly application ensures consistent, professional outcomes.

ReynoArch Zinc Composite Panels: A Fusion of Aesthetics and Durability

ReynoArch Zinc Composite Panels (ZCPs) are an advanced cladding solution that blend the natural elegance of zinc with the practical benefits of composite construction. Manufactured by ReynoArch, a brand under Reynobond India, these panels prioritise quality, longevity, and visual sophistication.

WHAT ARE ZINC COMPOSITE PANELS?

Like Aluminium Composite Panels (ACPs), ZCPs comprise a zinc top sheet (paired with a zinc or aluminium back sheet) bonded to a thermoplastic core, typically mineral-filled for enhanced fire resistance.

KEY FEATURES AND BENEFITS

Exceptional Durability: Zinc resists corrosion and rust, making it perfect for exterior cladding. ReynoArch ZCPs can reportedly last decades - even up to 100 years - while enduring UV exposure, rain, and temperature fluctuations.

Self-Healing Patina: Over time, zinc develops a protective zinc carbonate layer, or patina, which heals minor scratches and eliminates the need for frequent maintenance.

Timeless Aesthetics: Zinc's natural, evolving matte tones bring a refined charm. ReynoArch offers finishes such as Charcoal Zinc, Ash Zinc, and Natural Zinc to suit diverse architectural palettes.

Sustainable Material: Zinc is 100% recyclable, non-toxic, and lead-free. ReynoArch ZCPs contribute to reducing carbon footprints, making them ideal for green building practices.

Lightweight and Flexible: Despite being robust, these panels are lightweight and easy to install. Their flexibility allows for creative shapes and architectural designs.

Fire Resistance: Though zinc is not inherently fireproof, ReynoArch

provides panels with fire-retardant mineral cores (FR B1 grade), enhancing fire safety.

Sound Insulation: ZCPs offer good acoustic performance, improving indoor comfort.

Versatile Usage: Suitable for both interiors and exteriors, ReynoArch ZCPs are widely used across a range of applications.

TYPICAL APPLICATIONS

Facades & Wall Cladding: Adds modern elegance and long-term protection

Roofing & Soffits: For durability with minimal maintenance

Canopies, Citadels, and Rain Defences: Utilise zinc's corrosion resistance

Interior Applications: Partitions, false ceilings, POS displays, and signage

High-End Spaces: Airports, auditoriums, museums, and corporate offices.

SPECIFICATIONS

Panel Thickness: 4mm

Skin Thickness: Top zinc 0.5mm; bottom zinc/aluminium 0.5mm

Core: Fire-retardant, mineral-filled (FR-B1)

Standard Size: 1000mm x 2440mm (custom sizes available)

Weight: Approx. 8.45 kg/m²

Finishes: Natural Zinc, Charcoal Zinc, Ash Zinc, Charcoal Zinc, and more

ReynoArch ZCPs exemplify the balance of modern design, eco-conscious construction, and long-term performance.

The best heating system in its class

Manufacturing capacity to temper glass up to 16'x8'

Most typically, flat tempering end product quality challenges are caused by an inefficient heating system in which heating and convection control is limited. This challenge is known all too well in super Low-E production, but it is also valid in clear and low-iron glass production. Ineffective control of convection causes glass bending in the heating stage, which in turn, causes an optical defect in the centre of the glass.

In the RC200™, the convection system is a unique combination of individual and evenly spaced convection nozzles for uniform glass heating. This Tamglass Vortex™ convection system provides the best control of glass heating in its class.

“What's especially important for us in tempering of architectural glass panels is the capability of the furnace to minimize iridescence and assure spotless quality well above current standards.”

EFFORTS TO INCREASE PRICES AGAIN CONTINUE DESPITE DEMAND REMAINING ALMOST UNCHANGED DURING THE FIRST QUARTER (APRIL-JUNE 2025) OF FY 2025-26

During the first quarter (April-June, 2025) of the current financial year 2025-26, the

demand for clear and tinted float glass, reflective glass, lacquered glass, and mirror remained steady in the domestic market and the efforts to continuously increase the prices of domestically manufactured float glass still continued. Despite the demand in the automobile glass industry and construction industry remaining almost steady during April-June, 2025, the trend of price fluctuations continued in the last quarter as well. In April-June, 2025, except for the month of April, manufacturer companies again attempted to increase the prices of clear float glass by four rupees per mm per square meter in May and June, respectively. Overall, in the last two months, manufacturer companies have increased the prices by eight rupees per mm per square meter.

We try our best to explain to our knowledgeable readers through every issue of this magazine, according to market sources, the main reason behind the ongoing trend of continuous fluctuations in the prices of domestically manufactured float glass. There may be three main reasons for the price increase in this quarter: first, the imported float glass itself; second, the cold repairing closure since April 2025 of the 700 tons per day capacity float glass plant of M/s Asahi India Glass Ltd located in Roorkee (Uttarakhand); and third, the maximum production of the newly established 800 tons per day

capacity float glass plant located in Bhilwara (Rajasthan), is being utilized for making automotive glass. According to sources, the import of clear float glass in April-May 2025 was recorded at around 42,000 and 45,000 tons, respectively.

It is known that India's GDP growth (Gross Domestic Product) is increasing at the fastest pace compared to many countries of the world, including America and China. It is also known that according to government figures, India's GDP growth is expected to remain between 6.2 to 6.5 in 2025-26, which is much higher than the economies of the world's major countries, and no other country can match India's growth rate.

It is known that India has officially surpassed Japan to become the world's fourth-largest economy. The CEO of NITI Aayog, B. V. R. Subramanyam, provided this information through a press conference on 24 May. Referring to the figures of the International Monetary Fund, i.e., IMF, Mr. Subramanyam stated, "We are the fourth-largest economy," and we have become a four trillion dollar economy. Today, India has become a bigger economy than Japan. Now only America, China, and Germany are ahead of India. The CEO of NITI Aayog also stated that if we stick to our planning and thoughtful approach, then, in the next 2-3 years, India will become the world's third-largest economy.

It is known that when India's GDP is increasing at such a rapid pace, then a manifold increase in India's flat glass industry-trade is also certain. It is a fact that the price increase of eight rupees

per mm per square meter by the manufacturing companies during the last two months will remain successful for how long and whether the prices will continue to increase in the same manner in the future or will return back to its place.

Along with the price increase, there should also be stability in it so that there is no fear or apprehension of prices falling in the market. With the increase in prices and the arrival of stability, the profit margin of companies not only increases, but it also proves beneficial for trade and the national economy. According to our information, except for the above-mentioned product, there is hardly any other product in the country in which prices fluctuate so frequently. In the country, the prices of almost all products increase and remains stable, and even if they decrease, they decrease only slightly, but in glass, the prices increase and after a few days, the prices return back to from it started increasing.

At present, from the perspective of production cost, the Indian float glass industry is going through a very complex, intricate, and delicate phase of adverse conditions.

The heavy burden of production cost is continuously increasing at a rapid pace on the indigenous glass industry because there has been an unexpectedly significant increase in the prices of natural gas, transportation, electricity, water, labor, wages, and raw materials such as – soda ash, silica sand, feldspar, dolomite, and quartz powder used in glass melting. The prices of glass are not able to increase in accordance with the increasing production cost.

Gold Plus at NDTV Emerging Business Conclave 2025 : A Journey of Vision, Values & Glass Leadership

In a landmark moment for the Indian glass industry, **Gold Plus Group** proudly participated in the **NDTV Emerging Business Conclave 2025**, held live on **April 28**. The event brought together India's most forward-thinking entrepreneurs, policymakers, and business visionaries to spotlight innovation, resilience, and the nation's evolving economic narrative.

Representing Gold Plus, **Mr. Suresh Tyagi, Vice Chairman & Whole-Time Director**, who shared a deeply inspiring and personal account of the company's beginnings. In his candid interview, Mr. Tyagi reflected on the humble roots of **Gold Plus**, founded

alongside his brother, and the remarkable journey of turning a shared vision into one of India's leading float and processed glass manufacturers.

"We started with belief, grit,

and a dream to build something truly Indian, truly world-class," Mr. Tyagi shared during the session.

Beyond the business story, Mr. Tyagi delved into two themes close to his heart: **sustainability** and

youth leadership.

He spoke passionately about **Gold Plus's commitment to environmentally responsible manufacturing**, including energy optimization, waste heat recovery, and 100% recyclable product innovation. Highlighting the company's eco-conscious philosophy, he reiterated that **green growth is not optional, it's essential**.

The conversation also took a forward-looking turn as Mr. Tyagi encouraged **young entrepreneurs and future leaders** to embrace challenges with courage and conviction. He emphasized the power of purpose, perseverance, and learning from setbacks, principles

that have defined the Gold Plus journey.

"To the young minds out there, don't wait for the perfect moment. Start now, stay grounded, and always build with integrity," he advised.

The session was more than a business dialogue; it was a celebration of Indian

entrepreneurship, family-led vision, and the values that continue to shape Gold Plus's leadership in the industry.

As a proud participant at the conclave, Gold Plus extends sincere thanks to **NDTV** for the platform and the opportunity to inspire and connect with India's emerging business community.

A CONVERSATION WITH MR. Y.P. SINGH, BUSINESS HEAD – OZONE BLU

MR. Y.P. SINGH, Business Head, Ozone Group

Q : What is Ozone Blu?

Y.P. Singh : In recent years, customer expectations have evolved dramatically—from simply receiving a packaged product to engaging in a complete, experience-driven journey. Today's customers seek more than just delivery; they expect a fully installed, ready-to-use solution that reflects convenience, confidence, and care.

Ozone Blu embodies this transformation. It's an experience-led franchise format that brings Ozone's extensive range of architectural solutions to life. Designed as an interactive space, Ozone Blu enables customers to engage with live installations, transforming browsing into a hands-on experience. This immersive environment empowers customers to make informed decisions with greater ease and assurance, redefining the way architectural products are discovered and chosen.

Q : How is it different from a traditional showroom?

Y.P. Singh : Traditional showrooms often limit the experience to catalogues or shelf displays. At Ozone Blu, everything is

touch-and-feel—partitions, doors, innovative fittings, all installed in real-life settings. This practical, immersive experience helps customers truly visualize solutions in their own spaces.

Q : What does the product portfolio look like?

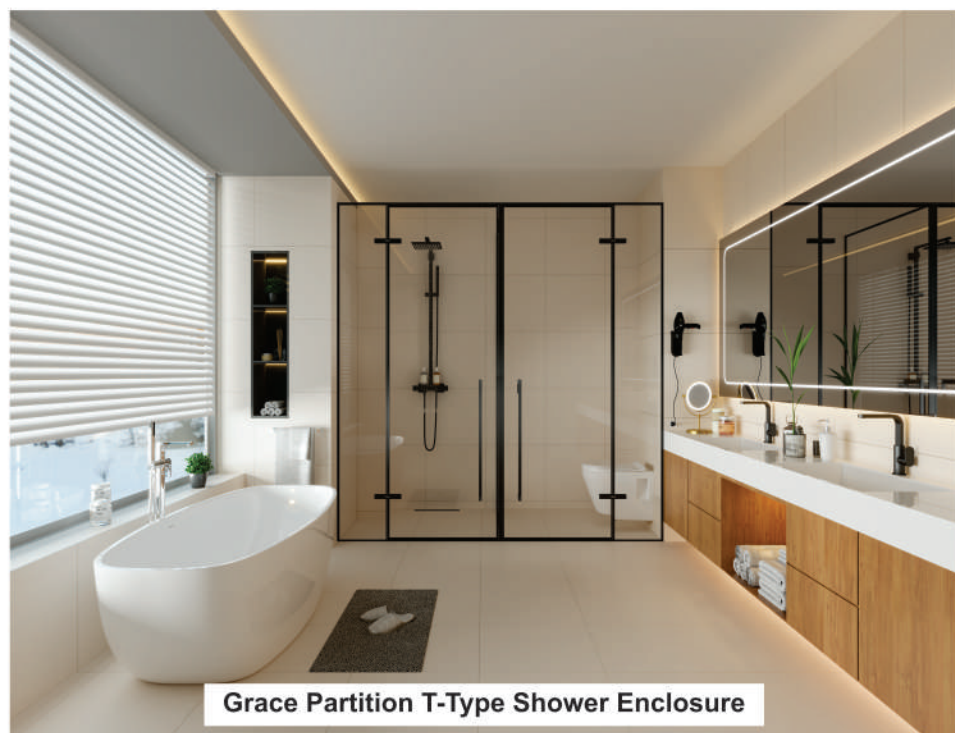

Y.P. Singh : Ozone Blu offers complete, end-to-end space solutions. From internal

partitions, kitchen fittings, and shower enclosures to doors and windows, smart locks, and railing systems—it's all under one roof. The range is curated to be not just stylish but functional and lasting, designed to meet both residential and commercial needs.

Q : Why should entrepreneurs consider partnering with Ozone Blu?

Slim Frame Synchronised Sliding System

Grace Partition T-Type Shower Enclosure

Clear Line Railing System

Y.P. Singh : It's a strong business opportunity backed by 25+ years of Ozone's industry trust. As a franchise partner, you gain access to a future-ready product portfolio, a proven model, and full support across design, operations, and marketing. You're not just opening a store - you're becoming a destination for smart living.

Q : What kind of support can dealers expect?

Y.P. Singh : From day one, we walk with our partners—right from showroom setup to team training and ongoing promotions. Our support includes branding assets, customer leads, product updates, and installation know-how. We ensure our partners are always equipped to deliver a great experience.

Q : And finally, what's your vision for Ozone Blu?

Y.P. Singh : We envision a strong Pan-India presence, where every Ozone Blu showroom becomes a go-to hub for thoughtful and dependable space solutions. It's about growing a network that makes design more accessible and everyday living more joyful - for customers and partners alike.

OMKARA GLASSES & APPLIANCES PRIVATE LIMITED COMMENCED PRODUCTION FROM THE IMPORTED TEMPERING GLASS LINE EQUIPPED WITH MODERN TECHNOLOGY

Dynamic and Farsighted Promoters of the Company Mr. Shashi Kumar Suneja, Mr. Nitin Sharma, Mr. Ashwani Sharma Mr. Mohit Suneja and Executive Editor of this Magazine Mr. Abhishek Sharma along with Mr. Rowland (Xinglass)

A newly established glass processing company - M/s Omkara Glasses and Appliances Pvt. Ltd., located in the National Capital Region, Greater Noida (Uttar Pradesh), has recently been established by the progressive promoters of M/s Orotuff Glass Pvt. Ltd., Greater Noida, Mr. Nitin Sharma and Mr. Ashwani Sharma (son of late Mr. Ombeer Sharma), and the visionary and deeply experienced promoters of M/s Glass N Glass, Moradabad, Mr. Shashi Kumar Suneja, Mohit Suneja and Mr. Sohit Suneja, while further expanding their business. Under this, a state-of-the-art advanced technology tempering line of size 4x12 feet has been imported from the China-based tempering furnace manufacturer, M/s Hangzhou Glass Technology Co. Ltd. (Xinglass), through which architectural tempered glass, for diversified purposes such as the use of glass in electrical appliances like freezers,

refrigerators, TV trolleys, washing machines, ovens, microwave, gas stoves, chimneys, solar glass, etc., along with all types of flat glass, clear and tinted float glass, reflective glass, low-E glass, etc., with thickness ranging from 2.8 mm to 12 mm, can be tempered / heat-strengthened.

It should be noted that although M/s Omkara Glasses and Appliances Pvt. Ltd. is certainly a new company, its parent processing companies, M/s Orotuff Glass Pvt. Ltd., Greater Noida, and Glass N Glass, Moradabad, have been fully established in the processing industry since 2011 and 2016, respectively.

It should be noted that prior to these above processing enterprises, M/s Om Glass Company, Noida, has been engaged in the glass business for the past 31 years (since 1994), and M/s Glass N Glass, Moradabad, has been engaged in the glass business for the past 24 years (since 2001)

(the ancestral glass business of Glass N Glass is even older, as their father, Mr. Sundar Lal Suneja, started his glass business in 1968 under the name Baba Glass Company).

The tempered glass produced by M/s Omkara Glasses and Appliances Pvt. Ltd. is being supplied to companies engaged in the manufacturing of 'home appliances' operating across the country, including the National Capital Region, and in addition, the above mentioned material is also being exported, as the company is receiving significant profit through exports as well. This is because the promoter company of this enterprise, M/s Glass N Glass, Moradabad, has been exporting high-quality designer glass to Egypt for a long time, and the 63-year-old proprietor of this firm, Mr. Shashi Kumar Suneja, who is a deeply experienced and visionary business entrepreneur, has set earlier and continues to

set new records in his glass business and in the field of value-added glass. All the directors of the company, Mr. Shashi Kumar Suneja, Mr. Nitin Sharma, Mr. Ashwani Sharma, Mr. Mohit Suneja and Mr. Sohit Suneja, are well-educated and deeply experienced businessmen and possess extensive experience in operating the glass processing industry.

Located in the National Capital Region, Noida (Gautam Buddha Nagar), the most prestigious and progressive trading and processing companies of North India, M/s Om Glass Company and M/s Orotuff Glass Pvt. Ltd., were founded by Mr. Ombeer Sharma (who passed away on 21 March 2025), who, along with trading in the glass business for 31 years, also consistently performed excellently in the processing industry for the past 14 years, progressing towards the top, and their parent company, M/s Om Glass Company, has also been setting new records in its wholesale glass business for almost 31 years. On one hand, Orotuff Glass Pvt. Ltd. was playing a significant role in meeting the increasing demand for safety glass in the markets of

North India as well as in projects, while on the other hand, M/s Om Glass Company was also expanding its wholesale glass business from time to time. Among other wholesale trading firms of the 'Om Glass Company' group, M/s OK Glass Company, located in Saharanpur, Western Uttar Pradesh, was established in 2020, followed by the second, M/s Sudha Glass Company, located in Varanasi, Eastern Uttar Pradesh, in 2021, and in 2023, another wholesale trading firm under the name Om Glass Company was established as the third firm in Delhi. In this way, Mr. Ombeer Sharma rapidly expanded his business, and all these processing and trading firms continued to touch new heights in their respective business areas and enterprises, progressing rapidly towards the top, and are currently being operated with full responsibility and dedication by Mr. Nitin Sharma and Mr. Ashwani Sharma, following the ideals and footsteps of Mr. Ombeer Sharma.

It should be noted that having started its wholesale glass business from the National Capital Region (NCR), M/s Om Glass Company is progressing towards the top

Progressive Promoter of the Company
Mr. Sohit Suneja

while waving its flag from Western Uttar Pradesh to Eastern Uttar Pradesh. It should also be noted that M/s OK Glass Company located in Saharanpur is being efficiently operated with full responsibility by Mr. Kuldeep Sharma, M/s Sudha Glass Company located in Varanasi by Mr. Devendra Nath Mishra, and the Delhi branch of Om Glass Company by Mr. Manoj Sharma and Mr. Abhishek Raghav.

PRODUCTION COMMENCED FROM THE IMPORTED, LATEST ADVANCED, HI-TECH LAMINATING AND INSULATING GLASS LINE BY MAYUR GLASS INDUSTRIES

A Group picture of Highly experienced dynamic & visionary founder Mr. Champalal Bhandari along with managing partners of the company Mr. Lalit Bhandari , Mr. Girish Bhandari & Mr. Rakesh Bhandari.

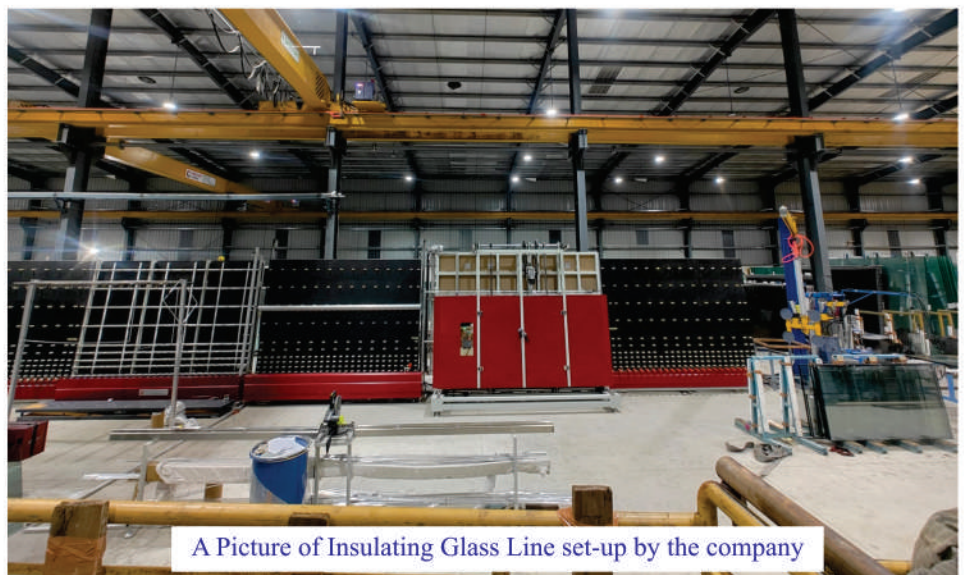

Among the country's oldest, prestigious, and most reputed trading firms are M/s Bhandari Glass Company, Hyderabad, and Mayur Glass House, Visakhapatnam, which are engaged in wholesale trading of domestic and imported glass. Last year, expanding their business significantly, they established a newly founded company named M/s Mayur Glass Industries. Under this, a state-of-the-art, advanced technology flat tempering furnace was imported from 'North Glass', China, which, since 26 April 2024, has been engaged in the production of all types of architectural tempered glass. Further expanding their business again within six months, in October 2024, the company imported a PVB laminating glass line from 'Sagartech' and in May 2025, an insulating glass line from 'Jinfand', both from China, and production is being carried out smoothly using these lines. From the PVB laminating glass line, the company is manufacturing world-class quality laminated safety glass under the brand

name 'Mayur Lam' for architectural purposes.

From this laminating glass line, laminated safety glass can be manufactured in thicknesses from 2.5 mm to 19 mm and up to maximum sizes of 2.4 x 4.2 meters in clear and tinted float glass, reflective glass, lacquered glass, etc. These can be used for doors/windows, furniture, kitchen and bathroom shelving, mirror/lacquered glass,

commercial glazing, overhead glazing, railings, glass skylights, glass aquariums, canopies, household furniture, and so on.

It is known that laminated safety glass made using the PVB (Poly Vinyl Butyral) process as per international quality specifications is undoubtedly considered a world-class superior-grade product, and its manufacturing requires expensive machinery and PVB film.

A Picture of Insulating Glass Line set-up by the company

Among the highly experienced, dynamic, and visionary managing partners of M/s Mayur Glass Industries are Mr. Lalit Bhandari, Mr. Girish Bhandari, Mr. Rakesh Bhandari, and Mr. Vikram Kumar Jain, all of whom are well-educated businessmen. Among them, Vikram Kumar Jain, through a telephone conversation with this magazine's executive editor Abhishek Sharma, shared detailed information about his company and stated that their company has established both a laminating and insulating glass line to complete their architectural range, so that they can offer the maximum range of architectural glass to their valued customers under one roof. It is known that the use of insulated glass in building structures, on one hand, blocks unwanted extreme heat inside buildings and, on the other hand, also helps control noise pollution. The country always faces a power crisis. The use of insulated glass in buildings can also significantly help reduce the national power crisis through energy savings. Due to the inherent features and utilities of insulated glass, there are vast possibilities for its use in the national market, and day by day, year by year, the demand for insulated glass is increasing remarkably. Considering these

Farsighted Managing Partner of the company Mr. Vikram Kumar Jain

possibilities, our company has also started the production of laminated glass and insulated glass along with tempered glass.

It is known that the excellent quality of processed value-added finished glass and glass products depends on the proven fact of how well the pre-processing tasks such as cutting, edging, holing/drilling, and washing of the glass and glass products have been done. All traders involved in flat glass and processing are well aware that glass never breaks from the middle — whenever it breaks, it will break from the

edges. Therefore, it is absolutely essential for the pre-processing machinery used for holing/drilling and washing of glass to be equipped with advanced technology. The quality of tempered glass depends on this. These pre-processing machines have been installed in the company since the beginning of production. These include one cutting line of size 10 x 20 from 'STRON', one washing machine from 'ZXM', three single edger machines from 'ZXM', and one straight-line bevelling machine from 'ZXM'.

A picture of PVB laminating glass line installed in the company.

A BRIEF INTRODUCTION OF THE COMPANY

For nearly five decades, M/s Bhandari Glass Company, a firm that has ruled the hearts of the southern India flat glass market, was founded by 76-year-old Mr. Champalal Bhandari, who began his glass business career on a small scale in 1975. Progressing continuously year after year, he has now reached the peak of success in the glass business sector, and at present, his business stature has grown so significantly that Bhandari Glass Company is proudly counted among the country's prestigious glass business firms. As an associate firm of

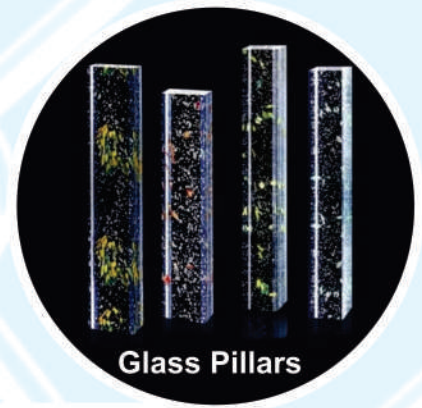

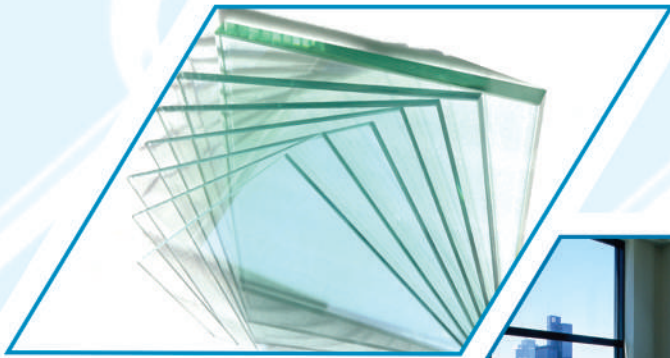

the above firm, M/s Mayur Glass House was established in 2008, whose partner is Mr. Vikram Kumar Jain (in relation, Champalal Jain is his maternal uncle-in-law). He started his business career with M/s Bhandari Glass Company in 2007. Over the past 17 years, M/s Mayur Glass House has rapidly progressed and secured a prominent position in the list of the country's flat glass importers. Other trading firms of this group include M/s Rider Glass Industries Private Limited, M/s Swastik Glass and Ply Lam, Kylo Industries Private

Limited, and M/s Navkar Sales. The responsibilities of these firms are being efficiently managed by the three sons of Mr. Champalal Bhandari - namely, Mr. Lalit Bhandari, Mr. Girish Bhandari, Mr. Rakesh Bhandari and Mr. Vikram Kumar Jain. All of these firms are performing significantly in their respective business fields. The main reason behind this success is the strong coordination among these four brothers. Besides being successful businessmen, they are also extremely hardworking and highly skilled in business conduct.

ALSTONE SILICONES PVT. LTD. | OZONE OVERSEAS PVT. LTD.

SHRI PARASNATH GLASS TUFF PRIVATE LIMITED STARTS PRODUCTION WITH ULTRA-MODERN HI-TECH PVB LAMINATING GLASS LINE

Progressive and Visionary Managing Director of the Company Mr. Prakash Chand Jain and his two young sons Mr. Rahul Jain and Mr. Ravi Jain

Located on Bhopal-Khurai Bypass Road, M/s Shri Parasnath Glass Tuff Private Limited is an associate company of the old, prestigious, and highly reputed trading firms of the 'Paras Laxmi Group' based in Sagar (Madhya Pradesh), namely M/s Paras Glass House, Laxmi Glass House, Laxmi Glass Traders, and Paras Laxmi Creation. Since February 2023, it has been engaged in the production of high-quality architectural toughened glass, insulated glass, and EVA fabric laminated glass. Expanding its business further, the company has established a PVB laminating glass line, through which PVB laminated safety glass has been manufacturing since January 1, 2025.

With this laminating glass line, laminated safety glass can be produced from 2.5 mm to 19 mm thickness and up to 8'x12' maximum sizes of all types of flat glass such as clear and tinted float glass, reflective glass, etc. It is used for doors and windows, household furniture, kitchen and

bathroom shelving, mirror or lacquered glass, commercial glazing, overhead glazing, glass skylights, glass aquariums, glass canopies, glass railings, and more.

The company's progressive and visionary managing director Mr. Prakash Chand Jain and his two young sons Mr. Rahul Jain and Mr. Ravi Jain, who are directors in the company, during a special and long conversation with the chief editor of this magazine Umesh Dutt Sharma and executive editor Abhishek Sharma during their visit to Sagar, stated that their company is playing an important role in fulfilling the increasing demand of PVB laminated safety glass in the construction industry of Sagar and Central India because before their company started production, the supply of PVB laminated safety glass was fulfilled from outside. Stating further, Mr. Jain added that although their company has been manufacturing tempered glass, insulated glass, and EVA laminated glass for the past two years, the rising demand for

PVB laminated safety glass in recent times attracted their attention, due to which they have established this plant as per the need of the hour. Along with this, another link has been added to the range of safety glass.

It is known that laminated safety glass manufactured using the PVB (Poly Vinyl Butyral) process according to international quality specifications is undoubtedly considered a world-class superior product, and for its manufacturing, expensive machinery and PVB film are required.

The excellent quality of glass and glass products depends on the proven fact of how well the pre-processing works like

cutting, edging, holing, drilling, washing, etc., of the glass and glass products have been done. Keeping this in mind, the company has installed pre-processing machinery from renowned companies, which includes the 10'x20' feet CNC cutting machine of Intermac, four edger of ZXM, washing machine of Juniya, and so on.

It is also known that a wave of new energy entered the company when Mr. Rahul Jain, the elder son of Mr. Prakash Chand Jain in 2013 and Mr. Ravi Jain in 2014, entered the glass business established and developed by their father. These two young directors, who are professionally

Chartered Accountant and MBA respectively, are operating the company efficiently under the guidance of their father. Rahul Jain is handling the factory and office operations successfully, while Ravi Jain is managing all project-related work efficiently. Both these young individuals work like calm and serious businessmen and are contributing significantly in taking the company to the top. The national flat glass industry has many hopes and expectations from such young people in the processed value-added finished trade.

A BRIEF INTRODUCTION OF 'PARAS LAXMI GROUP'

The newly established corporate company of 'Paras Laxmi Group', Shri Parasnath Glass Tuff Private Limited, is the brainchild of various progressive glass business firms—M/s Paras Glass House, Shri Laxmi Glass House, Laxmi Glass Traders, and Paras Lakshmi Creation—which, while achieving unprecedented business progress in their respective fields, are moving towards the top. These firms are engaged not only in wholesale and retail trade of flat glass and value-added glass but also in the business of digital printing, aluminium anodizing, and powder coating. The founder of 'Paras Laxmi Group' was the late wrestler Ramesh Kumar Jain, who has been the brother-in-law and business mentor of the present head

of Paras Laxmi Group, Shri Prakash Chand Jain. The late wrestler Shri Ramesh Kumar Jain was a struggling individual and was also a devoted soldier of the RSS.

It is known that Shri Prakash Chand Jain began his business career during his student life at the young age of only 15 in the year 1977, by joining his brother-in-law wrestler Shri Ramesh Kumar Jain (who passed away in 2006) in the work of photo framing. Later, the brother-in-law duo together established M/s Paras Glass House in 1984, and along with photo framing, over time, the trading of flat glass also began in this firm. Shri Jain, who is fully dedicated to the glass business, also pursued his education up to M.A. in Economics alongside his business.

Educated, hardworking, and extremely humble by nature, Shri Jain gave a new direction to his glass business and continuously advanced it on the path of progress. Through business expansion, he established a wholesale trading firm M/s Shri Laxmi Glass House in 1996, another wholesale trading firm M/s Laxmi Glass Traders in 2002, and in 2016, Paras Laxmi Creation. It is known that the founder of Paras Laxmi Group, wrestler Shri Ramesh Kumar Jain, had planted a small sapling in 1975, which has now grown into a vast banyan tree, under whose shade many employees are rendering their services and earning their livelihoods.

NEWLY ESTABLISHED COMPANY VARIETY TUFF GLASS COMMENCES PRODUCTION SOON FROM IMPORTED ULTRA-MODERN ADVANCED TECHNOLOGY TEMPERING AND INSULATING GLASS LINES

Visionary and vast experienced Managing Director of the firm Mr. Vardhman Lunia

The business capital of Madhya Pradesh and the country's cleanest city, 'Indore,' is home to the well-known, old, prestigious, most progressive, and highly reputed wholesale and retail flat glass business firm M/s Variety Glass Emporium, which is counted among the top firms. For more than the past five decades, the firm has been engaged in the trade of all types of flat glass — clear and tinted float glass, reflective glass, thicker glass, lacquered glass, imported glass (fluted glass, designer glass, mirror, architectural glass hardware), etc., and also, in accordance with the demands of the times, in the business and processing of a wide range of high-quality value-added glass and glass products like Diamond-like crystal clear beveled glass, Etched and color etched glass, Polished glass, Textured glass, Decorative designer glass, Decorative mirrors, LED mirrors, Glass-to-glass, fused glass, Aluminium / UPVC doors, windows and partitions, Structural glazing, Curtain walling (ACP) for interior and exterior decoration purposes for the past 56 years. The firm has made a major business expansion and established a new company called M/s Variety Tuff Glass in the Sanwer Industrial Area, Indore. Under this company, an advanced high-tech tempering line has been

imported from the China-based tempering furnace manufacturer company 'Jin Glass', and an insulating glass line has also been imported from 'Hanjiang', using which, high-quality tempered heat-strengthened glass will be manufactured for diversified purposes such as Interior and exteriors, architectural (structural glazing, curtain walling, frameless glass doors / windows / shop fronts, entrance assemblies, shower cubicles, skylights, canopies, glass furniture, etc.) and Refrigerators, Freezers, Electrical appliances.

Using the above-mentioned imported, advanced, high-tech flat tempering furnace set up by the company, various types of flat glass — clear and tinted float glass, reflective glass, low-E glass, patterned glass, etc. — are being tempered/heat-strengthened especially for purposes such as structural glass glazing, cladding, glass doors, and partitions, in thicknesses ranging from 4 mm to 19 mm, and sizes up to 9'x16'.

The 44-year-old visionary and deeply experienced Managing Director of M/s Variety Tuff Glass, Mr. Vardhman Lunia, and his 40-year-old wife Mrs. Megha Lunia, who hold degrees in M.Com and M.A. (Gold Medalist) respectively, in a conversation with this magazine's Chief Editor Mr. Umesh Dutt Sharma and

Executive Editor Abhishek Sharma during their visit to Indore, stated that their company has imported a very advanced forced convection tempering furnace from the China-based tempering furnace manufacturer company 'Jin Glass', through which all kinds of flat glass — clear and tinted float, high-performance reflective, low-E glass and patterned glass — can be tempered as per world-class quality standards. To maintain the excellent quality of tempered glass produced from this high-tech tempering furnace, the 'quality monitoring system' of this furnace is unmatched. Low-E glass can be tempered with excellent quality without any combustion or damage. Due to the uniform heating and cooling system and high-grade ceramic rollers used in this furnace, the flatness of the tempered glass remains intact, and the coating of reflective glass becomes even shinier. Further elaborating, it was also mentioned that their newly established company, M/s Variety Tuff Glass, will play an important role in meeting the growing demand for tempered glass in Indore and nearby regions. Mr. Lunia further mentioned that in recent years, along with the construction industry and the national glass economy, the demand for tempered glass has been rising day by day, even in medium-scale building projects beyond large projects. One major reason for this increase in demand for tempered glass is the rapid establishment of a large number of tempering plants in the country, which has created strong competition in the glass processing industry. As a result, the prices of tempered glass have comparatively decreased, and with lower prices, the demand has also increased. Since the difference between the prices of plain glass and value-added tempered glass has significantly reduced, consumers have started preferring tempered glass instead of plain glass — which is five times stronger and safer than

plain glass — leading to an unprecedented rise in the demand for tempered glass.

It is also known that a few years ago, the Government of India made the use of tempered glass mandatory in the building construction industry, but according to experts, even now, plain glass is still being used in large quantities instead of tempered glass. However, in recent years, awareness has also grown among the general public that, instead of plain glass in buildings, safe and strong tempered safety glass should be used more and more. As a result of this awareness among the general public, the demand for tempered glass has increased.

It is known that the use of insulated glass in building structures, on one hand, prevents unwanted extreme heat inside the building, and on the other hand, also

controls noise pollution. There is always a power crisis in the country. The use of insulated glass in buildings can help reduce the national electricity crisis significantly through energy savings. Due to these inherent features and utilities of insulated glass, there are vast possibilities for its use in the national market, and day by day, year by year, the demand for insulated glass is rising extraordinarily. In view of these possibilities, our company has also begun the production of insulated glass along with tempered glass.

It is known that the excellent quality of processed value-added finished glass and glass products depends on a proven fact — that the pre-processing work of glass and glass products such as cutting, edging, holing-drilling, washing, etc., has been

done with excellent quality as well. All traders connected with flat glass and processing know very well that glass never breaks from the center; whenever it breaks, it breaks from the edges. Similarly, for holing/drilling and washing of glass, it is very essential for the pre-processing machinery to be equipped with advanced technology. The quality of tempered glass depends on this, which has been established in the company since the commencement of production.

The company has the following pre-processing manufacturing facilities:

Cutting machine - Intermac 10x20

Double edger - Lifeng

Washing machine - Juniya

Polishing - ZXM

A BRIEF INTRODUCTION OF THE COMPANY

M/s Variety Glass Emporium was established about 56 years ago (1969) by Mr. Vardhman Lunia's uncle, Mr. Hukam Chand Lunia, and his father, Mr. Ravindra Kumar Lunia (who has now passed away), at Jawahar Marg, Indore, on a very small scale in the form of 2 mm sheet glass. They rapidly progressed and expanded their glass business from time to time, in which they established a new firm, M/s 'Vardhman Udyog', in 1980, under which, as per the demand of the time, they launched silver coated mirrors under the brand 'Mayur Mirror', and this brand of mirrors was sold on a large scale in the flat glass market of Madhya Pradesh, today's Chhattisgarh, and Rajasthan. At one time, there was a

tremendous demand for 'Mayur' brand mirrors because, from the perspective of quality, 'Mayur' brand mirrors stood true to their standards. Thereafter, expanding their business once again, in 1997, they established another new firm, M/s Akshay Toughened International, under which the manufacturing of toughened glass for automotive purposes was also started.

Mr. Vardhman Lunia entered the glass business established and developed by his uncle, Mr. Hukam Chand Lunia, and father, Mr. Ravindra Kumar Lunia, in 2002, and since then till today, Mr. Vardhman Lunia, who is fully dedicated to his business, has continuously been working to provide new direction and dimension to the business,

making full efforts to take this glass business towards the peak. He also established a glass bevelling machine in 2005 and an EVA/fabric laminated machine in 2020 with the objective of making the business simple and successful according to the demand.

M/s Variety Glass Emporium is currently working as a wholesale dealer and stockist in the materials of companies engaged in the manufacturing of float glass, such as Saint-Gobain India Pvt. Ltd., Asahi India Glass Ltd., Gujarat Guardian Ltd., Sisecam Flat Glass India Pvt. Ltd., and in architectural hardware, Ozone Overseas Ltd., Closma, Yale etc.

A group photograph of the newly elected members

Ambashakti Glass India Pvt. Ltd.

ON THE OCCASION OF THE 37TH ANNUAL GENERAL MEETING OF KUMAON GARHWAL CHAMBER OF COMMERCE AND INDUSTRY, THE NEW EXECUTIVE COMMITTEE FOR 2025-26 WAS FORMED

M/s Ambashakti Glass India Pvt. Ltd., situated at Rudrapur (Uttarakhand), which has been engaged for nearly nine years in world-class tempered, insulated, and laminated glass with state-of-the-art advanced technology manufacturing facilities, is progressing on the path of growth and the company has also expanded its business from time to time. The Managing Director of the above company, Mr. Sanjay Adlakha, participated in the 37th Annual General Meeting of Kumaon Garhwal Chamber of Commerce and Industry organized in Kashipur. On the occasion of the election of the new executive committee, all office bearers and members were elected in which the Managing Director of M/s Ambashakti Glass India Pvt. Ltd., Mr. Sanjay Adlakha, was also elected unopposed as a member in the new executive committee for 2025-26. On 28th June 2025, the Annual General Meeting of Kumaon Garhwal Chamber of Commerce and Industry was held at Chamber House, Kashipur. The program

was conducted by the Chamber's General Secretary Mr. R.K. Gupta. It is noteworthy that the tenure of the Chamber's executive committee is from 1st July to 30th June (one year).

The Chamber has held several meetings with the Uttarakhand Government, Power Corporation, Labour Department, Police Administration, Revenue Department, Pollution Control Board, and other government agencies. These included discussions on issues like methanol, GST, labour inspections, environmental compliance, and problems related to industries.

Webinars and seminars were organized on various topics like EPR / plastic waste management, water resource compliance, changes in GST, product quality standards, cyber security, energy efficiency, export promotion, and issues related to MSME.

An industry-academia dialogue was organized for communication between industry and academia, in which college

and industry representatives participated. Job fairs for youth, training programs, and Prime Minister Apprenticeship Fairs were organized, providing employment opportunities to the youth. Several programs were organized to promote the startup awareness seminar, innovation festival, and the ecosystem of entrepreneurship.

Several programs were organized to discuss the budget session, government schemes, policy suggestions, and industry-friendly policies. These included virtual and physical meetings with the Prime Minister, Finance Minister, and other senior officials. Meetings on CSR activities by industries and community programs were organized, and workshops on export promotion, MSME outreach, and the RAMP scheme were conducted, along with machine tools expos, automation exhibitions, and technology fairs, where the latest products and technologies of the industry were showcased.

BUSINESS EXPANSION BY M/S AGGARWAL GLASS INDUSTRIES THROUGH THE INSTALLATION OF A STATE-OF-THE-ART ADVANCED TECHNOLOGY HORIZONTAL TEMPERING LINE

The Young and Dynamic Promoters of the Company Mr. Varun Aggarwal and his wife Mrs. Chetna Aggarwal along with the Sub Editor of this Magazine Ramesh Chandra Sharma

M/s Aggarwal Glass House, counted among renowned, credible, and prestigious wholesale and retail glass trading firms of Ludhiana, Punjab, has been engaged for nearly 50 years in the business and processing of all types of flat glass – clear and tinted float glass, reflective glass, mirrors, patterned glass, laminated glass, toughened glass, and various types of value-added processed glass and glass products like diamond-like crystal clear beveled glass, etched / engraved glass, stained glass, innovative decorative designer glasses, figured mirrors, frameless glass doors, etc. This firm is not only among the most progressive glass trading firms in Ludhiana but also in all of Punjab. The firm has significantly expanded its business by establishing a new company - M/s Aggarwal Glass Industries, under which a state-of-the-art advanced technology flat tempering line has been installed from the renowned glass machinery manufacturer and supplier in the country, 'Bhambra International,' and since October 2024, under the brand 'VC TUFF,' high-quality tempered heat-strengthened glass is being produced for various purposes like exteriors and interiors

architectural structural glazing, curtain walling, frameless glass, doors / windows / shop fronts, glass furniture, etc.

All types of flat glass, clear and tinted float glass of 4 mm to 19 mm thickness in sizes up to 2000 x 3660 mm can be tempered/heat-strengthened through the state-of-the-art advanced technology flat tempering furnace established by the company, for special purposes such as structural glass glazing, cladding, glass doors, partitions, etc.

It should be noted that during the past six years, the demand for toughened glass in the country has been increasing rapidly, as currently, the prices of toughened glass are not much higher compared to raw glass, while toughened glass is four times safer than raw glass. If the Government of India makes the use of toughened / insulated / laminated glass mandatory in high-rise buildings, then in the near future, the demand for safety glass will further increase.

Mr. Varun Aggarwal, the young proprietor of M/s Aggarwal Glass Industries, who is an experienced and visionary businessman, during a formal

conversation with the sub editor of this magazine, Mr. Ramesh Chandra Sharma, during his Ludhiana visit, shared that his company has installed the tempering furnace, through which all types of flat glass, clear and tinted float glass, high-performance reflective glass, shower cubicles, and patterned glass, etc., can be tempered according to world-class quality standards. Continuing further, Mr. Varun Aggarwal also mentioned that their company is making a significant contribution in fulfilling the increasing demand for safety glass in Punjab and the neighboring bordering states. It should be noted that Mrs. Chetna Aggarwal is also giving her invaluable contribution to the progress of Aggarwal Glass Industries. Mrs. Chetna Aggarwal, wife of Mr. Varun Aggarwal, is not only well-educated but also very humble and courteous by nature.

It should also be noted that the excellent quality of processed value-added finished glass and glass products depends on the proven fact of how well the pre-processing tasks like glass cutting, edging, holing, drilling, and washing have been performed. All traders associated with glass

and processing know very well that glass never breaks from the middle, whenever it breaks, it will always break from the edges. Similarly, for glass holing / drilling / washing, it is extremely necessary to have advanced technology pre-processing machinery, as the quality of tempered glass depends on this. The above mentioned pre-processing machinery has been installed in the company since the commencement of production.

A Picture of Tempering Glass Line installed in the Company

A BRIEF INTRODUCTION OF THE COMPANY

Although Mr. Varun Aggarwal, the young and dynamic proprietor of M/s Aggarwal Glass Industries, has a little less experience in the glass business, his father, the founder and proprietor of Aggarwal Glass House, Mr. Naresh Aggarwal (now deceased) had been engaged in serving the

glass industry and trade for nearly 50 years, and achieved numerous accomplishments during his business tenure which many traders do not achieve even in their entire lifetime. Mr. Naresh Aggarwal was a courageous and diligent businessman. In the glass business, the Aggarwal family's

dominance still remains today, and while expanding the business established by his father, Mr. Varun Aggarwal has established M/s Aggarwal Glass Industries and has outshined his late father, Mr. Naresh Aggarwal's name.

BEAUTIFUL, LUXURIOUS & SPACIOUS VALUE ADDED GLASS SHOWROOM OF M/S M-FUSION GLASS INTERIORS WORTH VISITING

Experienced and visionary Founder Mrs. Meenakshi Gandhi, Mr. Mukesh Gandhi and his young son Mohak Gandhi, Mr. Monit Gandhi

The grand and spacious value-added glass showroom, filled with “aesthetic appeal” of M/s M-Fusion Glass Interiors based in Kanpur (U.P), is worth seeing, whose “splendor” is truly eye-catching. In this showroom, all types of value-added glass, decorative mirrors, designer mirrors, antique mirrors, colored mirrors, LED mirrors, 2D, 3D mirrors, S.S. mirror metal frame mirrors, artwork, ultra-clear mirrors, aluminum frame mirrors, decorative glass, decorative modern glass consoles, glass bricks, fabric glass, fluted glass, extra clear glass, patterned glass, etc., are displayed in such a way that their valued customers / architects can instantly like the products at first glance, which they require to use in the interior and exterior decor of their bungalows, hotels, commercial interiors, showrooms, etc.

It is also a fact

Among various types of building materials, glass is the only such amazing and unique material that, due to its inherent special characteristics like transparency, light transmission, cleanliness, and diamond-like dazzling shine,

simultaneously holds a unique combination of immense “utility” and “aesthetic sense” within itself. There is no alternative to

“glass.” It is so “clear” and transparent like “Ganga water” that even if a single hair is placed under a thick glass sheet, it will be clearly visible. In modern buildings or any type of vehicle, “utility” or “aesthetic sense” has become such an inevitable necessity, for which there is no alternative. Just as imagining the condition of the body without skin would leave you horrified, similarly, if glazing or layering of glass, which is considered the skin of modern buildings or vehicles, is not applied, they will remain naked and bare like primitive humans. “Skin” and “clothes” not only protect the body but also enhance its “aesthetic sense.” Similarly, no matter how expensive a building or vehicle is, unless it is covered with glass glazing or glass-like clothing, it will remain naked like a primitive human, and it will also not be protected from the environmental perspective as well. Therefore, glass has its own unmatched, amazing, miraculous

A Picture of Value Added Glass Showroom

world, in which M/s M-Fusion Glass Interiors, located in Kanpur, Uttar Pradesh, is also included as an artistic branded name, where under one roof, not only all types of flat glass, innovative decorative designer glass, but also various types of other value-added processed glass and glass products are always available, and along with that, the firm provides its valued customers with solutions to all kinds of problems from glazing concepts to installation.

M/s M-Fusion Glass Interiors, for the purpose of interior and exterior decoration, deals in high-quality, value-added artistic glass products such as diamond-like crystal clear beveled glass, polished glass, stained glass, thicker glass, aluminum, slim windows, UV printing, glass mirrors, LED mirrors, designer mirrors, fluted glass, curtain-walling, bend glass, textured glass, glass pillars, bullet-resistant glass, architectural fund glass, insulated glass, laminated glass, frameless glass furniture, architectural glass hardware (patch fittings), glass silicone, and all types of domestic and imported high-level glass

business.

The deeply experienced and visionary founder of M/s M-Fusion Glass Interior, Mrs. Meenakshi Gandhi, during a conversation with this magazine's Chief Editor Mr. Umesh Dutt Sharma and Executive Editor Abhishek Sharma during their Kanpur visit, shared that they have established this value-added glass showroom according to the need of the times. Similarly, some time ago, they also started the processing of aluminum and UPVC doors/windows/partitions, in which advanced, modern technology-equipped machines have been installed, which are engaged in the work of high-quality doors/windows

Mrs. Meenakshi Gandhi started her business career in 2004 in the field of glass designing from a very small level, as she had a personal interest in designing work from the very beginning. Over time, her designing business gradually grew, and due to her strong personal interest, within a short period, her work started gaining recognition, leading her designing business

to run swiftly on the path of progress. No matter how much is said about Mrs. Meenakshi Gandhi, it will still be less, because she has built this business entirely on her own strength. When any business is started without capital or with very minimal capital, one has to put in effort from head to toe, and we felt all these qualities in Mrs. Meenakshi Gandhi during our conversation. In the beginning, Mrs. Gandhi alone started this glass business, but at present, her husband Mr. Mukesh Gandhi is also working in this business, who was earlier associated with another profession. Also, their two young sons are also contributing now in the glass business established by Mrs. Meenakshi Gandhi. Her elder son, 29-year-old Architect Mohak Gandhi, who has completed his Bachelor of Architecture degree from Sharda University (Noida), and 28-year-old Mr. Monit Gandhi, who has completed his B.B.A. degree from Christ University (Bengaluru), are contributing immensely in taking their glass business towards the top.

GLASS NEWS

BUSINESS EXPANSION BY ANANDESHWAR GLASS HOUSE THROUGH THE INSTALLATION OF A DIGITAL PRINTING MACHINE

Managing Partner of the firm Mr. Ashish Bhargav and Mr. Rakshit Bhargav

Kanpur (Uttar Pradesh)'s traditional, prestigious, wholesale and retail flat glass trading firm, M/s Anandeshwar Glass House (formerly known as Babulal Bhargav and Sons), which has been engaged for the past 15 years in the Kanpur flat glass market in wholesale and retail glass business of all types of flat glass – clear and tinted float glass, reflective glass, mirror, thicker glass, figured glass, imported glass, fluted glass, designer glass, designer mirrors etc., in line with its high-level professional style, has further expanded its business by installing a state-of-the-art, advanced technology digital printing machine purchased from M/s True Color Solutions India Pvt. Ltd., New Delhi, through which, since March 2025, precise and exact digital printing of images is being done with complete accuracy on any flat

surface material of sizes up to 4' x 8', such as glass, acrylic, flexi glass, ceramic tiles, aluminium steel panels, foam board, MDF, PVC wood, KT board, WPC, etc.

Mr. Ashish Bhargav, the 40-year-old managing partner of M/s Anandeshwar Glass House, and his 32-year-old younger brother Mr. Rakshit Bhargav, are well-educated and such visionary, progressive-minded young entrepreneurs / businessmen who have expanded their business from time to time. During an informal meeting with this magazine's Chief Editor Mr. Umesh Dutt Sharma and Executive Editor Abhishek Sharma, who visited Kanpur, Mr. Ashish Bhargav shared that they have modernized and expanded their business according to the demands of the times. In 2015, as an associate firm, M/s Shiv Glass Hardware was established, which deals in

architectural glass hardware. Subsequently, in 2022, another associate firm, M/s Anjeneya Glass Works, was also established, under which the processing of all types of value-added glass is carried out. In this firm, automatic straight line bevelling, polishing, and frosting machines have been installed, which are engaged in processing high-quality, diamond-like crystal clear bevelled glass, polished glass, and premium-grade frosted glass.

It is noteworthy that currently, the above mentioned firms are making their significant contributions in fulfilling the increasing demand for digital printing, polished, bevelled glass, and frosted glass in Kanpur and the surrounding cities within their respective business areas.

A BRIEF INTRODUCTION OF THE FIRM

The glass business of M/s Anandeshwar Glass House is only 15 years old, but its parent firm, M/s Babulal Bhargav and Sons, was established around 101 years ago in 1924 by their great-

grandfather, Mr. Babulal Bhargav, and grandfather, Mr. Munnalal Bhargav (now deceased), on a very small scale with 2 mm sheet glass and photo framing. Over time, the firm also started dealing in all types of

flat glass – sheet / float glass. Thereafter, from 1985, Mr. Ashish Bhargav's father, Mr. Shiv Narayan Bhargav (who passed away in 2019), began assisting his father in the business, and he inherited all the business

qualities from his father, Mr. Babulal Bhargav, and after his father passed away, he independently operated the glass business for a long period.

It is noteworthy that the Chief Editor of this magazine, Mr. Umesh Dutt Sharma, still does not forget those old days when, four times a year, he would meet Mr. Shiv Narayan Bhargav at their old establishment, M/s Babulal Bhargava and Sons, located in Chowk, Kanpur, and upon arriving in Kanpur, the first meeting would be with them on the very first day, and this continued for a long time, and they kept advertising continuously in this magazine,

and the Chief Editor of this magazine mentions that on the first day itself, he would meet M/s Babulal Bhargav and Sons. For some time, this sequence of meetings between us and this firm was interrupted because the firm was relocated, and after a very long period, we have now been able to meet again. Both sons of Mr. Shiv Narayan Bhargav have gone a step ahead of their father in terms of qualities and are extremely courteous, and they have proven this saying, "Mango trees bear mangoes, not acacia." The four-generation-long thriving business of M/s Babulal Bhargav and Sons is flourishing well. As the fourth

generation, like their ancestors, Mr. Ashish Bhargav and Mr. Rakshit Bhargav are fully dedicated in taking their glass business towards the top. The domestic flat glass industry has many hopes and expectations from such young entrepreneurs.

M/s Anandeshwar Glass House is working as a wholesale dealer and stockist in the material of companies engaged in the field of flat glass manufacturing like Saint-Gobain India Pvt. Ltd., Asahi India Glass Ltd., Gold Plus Glass Industry Ltd., Gujarat Guardian Ltd., Gopal Glass Works Ltd., Sumangal Glass Industry Pvt. Ltd.

MAHABALI GLASSES PVT LTD ALSO COMMENCED GREENPLY MDF BUSINESS

Counted amongst few, well-established, and leading wholesale flat glass trading company of Gorakhpur (renowned in the name of the visionary, epoch-making saint Baba Guru Gorakhnath), Uttar Pradesh, are M/s Mahabali Glasses Pvt. Ltd. and Pragati Interior which have been engaged for nearly five and a half years in the wholesale and retail business of all types of imported and domestically manufactured flat clear and tinted float glass, reflective glass of various colored shades, architectural hardware, and safety glass (toughened, insulated, laminated glass). These firms have achieved unprecedented commercial progress during their very short business tenure, and they continue to move forward on the path of progress. Established in January 2020, the proprietors of M/s Pragati Interior and Mahabali Glasses Pvt. Ltd. are Mr. Ajeet Yadav and his father Mr. Ramashankar Yadav, respectively. Mr. Ajeet Yadav has long and vivid experience in the glass business and has recently expanded his business further by starting the trade of Greenply MDF boards.

After obtaining an MBA degree from United World School of Business, Gurugram (Haryana) in 2012, Mr. Yadav started his career with the country's second-largest float glass manufacturing company - Gold Plus Glass Industry in Delhi as a marketing executive and, working there for eight years, reached the post of ARM. During his tenure, he gained experience in the glass business. Mr. Ajeet Yadav considers this company his business guru and after receiving blessings from the company's directors, started his wholesale glass business in his hometown Gorakhpur, Uttar Pradesh in 2020.

In 2020, when he established his trading firm M/s Mahabali Glasses Pvt. Ltd., this young man had very limited capital, but with the strength of his extensive and intensive experience, he successfully established the business of his firm in a short pe riod of time, and currently, M/s Mahabali

Glasses Pvt. Ltd. is counted not only among Gorakhpur but also among the most progressive wholesale trading firms in Eastern Uttar Pradesh. This firm operates as an authorized wholesaler and stockist in the material of companies engaged in flat glass manufacturing in the country, such as Gold Plus Glass Industry Ltd., Asahi India Glass Ltd., Saint-Gobain India Pvt. Ltd., Gujarat Guardian Ltd., and Sumangal Glass Pvt. Ltd.

The founder of M/s Mahabali Glasses Pvt. Ltd., Mr. Ajeet Yadav, named the firm 'Mahabali' in the name of God, as in this world, apart from God, neither anyone is Mahabali (supremely powerful) nor can be, and the other firm, M/s Pragati Interior, named after his daughter 'Pragati' (considered as a form of Lakshmi), deals in flat glass retailing and architectural hardware.

Thus, in his described progressive business journey from 'ground to heights,' Mr. Ajeet Yadav is not only achieving 'business prestige' but, along with it, attaining 'social prestige,' and is presenting such an exemplary example that other courageous youths can also take inspiration and fill the colors of prosperity in their lives similar to Mr. Ajeet Yadav's life.

Mr. Ajeet Yadav's capable and intense discipline regarding his business progress has already been described in the initial paragraph of this report, but now, with his amiable and humble behavior, he is undertaking many social concerns, which can be understood through just one example

The Visionary and Experienced Director of the Company - Mr. Ajeet Yadav

instead of writing many details. Two years ago, the chief editor of this magazine, Mr. Umesh Datt Sharma, and the executive editor, Abhishek Sharma, visited his Gorakhpur establishment intending to meet Mr. Ajeet Yadav. When we asked a common shopkeeper for the address of his office, he said, I do not know about the office you are asking for, but I surely know the whereabouts of Mr. Ajeet Yadav, and even the local children here know where his office is, as many people often come to meet Mr. Ajeet Yadav in big vehicles. You can go a little further and ask any person/child for the address of his office. Thus, Mr. Ajeet Yadav, who possesses 'social prestige,' remains very active in social activities as he is in his business.

METAL STRUCTURE SOLUTIONS ESTABLISHED AN ELEGANT AND SPACIOUS SHOWROOM OF UPVC, ALUMINIUM SYSTEM SLIDING WINDOWS THAT EXUDE AESTHETIC APPEAL

The dynamic and visionary proprietor of the firm Mr. Amit Gupta and his wife Mrs. Pooja Gupta

Jabalpur (Madhya Pradesh), famous as the cultural capital and for its natural beauty, is home to the well-known and highly reputed UPVC doors and windows manufacturing firm, M/s Metal Structure Solutions (MSS Openings), which has been engaged in the production and processing of high-quality UPVC doors and windows since 2013. Expanding its business further, the firm established in 2024 a beautiful and spacious showroom for UPVC and aluminium system sliding windows filled with aesthetic appeal, which was formally inaugurated with rituals and prayers on 17 September, 2024. During a formal meeting with the chief editor of this magazine, Umesh Dutt Sharma, and executive editor, Abhishek Sharma, who were on a visit to Jabalpur, the 48-year-old dynamic and visionary proprietor of the firm, Mr. Amit Gupta and his wife Mrs. Pooja Gupta, shared that this showroom is proving to be extremely beneficial for them. He said that their goal is not only to create a display center but also to provide complete satisfaction to their valuable customers. Continuing further, he shared that in this showroom, the UPVC doors and windows,

aluminium system sliding windows, UPVC arch windows, and premium railing systems have been displayed in such a variety of colors and manner that valuable customers, architects, interior and exterior decorators can appreciate and like the products at first glance. One special feature of the doors and windows attractively displayed in this showroom is that they help in saving energy and also control sound pollution. The doors and windows displayed in this showroom are also of excellent quality from a high-technology perspective, which their valuable customers can innovatively and tastefully use to fulfill the growing demand for both residential and commercial spaces.

MSS Openings presents such state-of-the-art premium products using advanced technology and simultaneously focuses completely on quality consistency and customer satisfaction.

It is to be known that Amit Gupta, and

his wife Mrs. Pooja Gupta while presenting his views, also stated that in most European countries as well as in many developed countries like the United States and in several Asian nations, UPVC doors and windows have been widely used for the past 30 years. Prior to the use of UPVC doors and windows, these countries used glass and aluminium as a combination on a large scale in modern buildings for architectural purposes. But in the past 30 years, UPVC doors and windows have been considered a better alternative to aluminium in all developed countries. The proprietor of the firm, Mr. Amit Gupta, believes that there are strong possibilities for business in the production of UPVC doors and windows in the indigenous building construction industry, and its business future is very bright and full of immense potential. Mr. Amit Gupta conducts business like a mature entrepreneur, and with clean dealings, honesty, and interpersonal skills, he is

taking his business towards the top.

From ancient human civilization to modern buildings, the use of various types of building materials—wood, steel, aluminium, fiberglass, vinyl/PVC/UPVC, etc.—for making windows and doors has been evident as an essential need from time to time. In ancient times, wooden windows and doors were used extensively for a long period, but with the rising pressure of population, the demand for timber increased heavily, which led to indiscriminate cutting of trees, causing the forest area to shrink. Due to environmental concerns, governments began restricting

tree cutting. Thus, because of the scarcity of wood, the prices of wooden doors, windows, furniture, etc., increased significantly. As a result, alternatives like steel, aluminium, fiberglass, PVC, and UPVC began to gain popularity for windows and doors.

In Europe, America, and many countries of the world, anodized and coated aluminium doors and windows have been in use for quite some time as a substitute for wood. But just as the use of aluminium windows, partitions, and doors increased substantially over the past few decades as a substitute for wood, similarly in recent

times, the use of UPVC (Unplasticised Poly Vinyl Chloride) windows, partitions, and doors has also grown on a large scale.

In view of their growing popularity in India as well, many visionary entrepreneurs and businessmen in the country have also taken steps towards the manufacturing of UPVC windows and doors.

- The UPVC doors and windows of the "MSS Openings" brand have the following features
- Floors, walls, doors, windows, or furniture can suffer heavy damage when exposed to water, but "MSS Openings" brand UPVC doors and windows do not

allow water to enter in any way. They are completely waterproof.

- Doors and windows made of inferior material can break under strong wind pressure, but "MSS Openings" brand UPVC doors and windows are airtight.
- The UPVC material has a special property that it also acts as a self-lubricant.
- "MSS Openings" brand products are made of multi-chambers and so they are sound-proof.
- "MSS Openings" brand products are

completely air-tight. Substances are mixed in these products such that air, moisture, ozone, coal gas, acid, or alkalis have no effect on them, and they last for a long time.

- "MSS Openings" brand products are completely heat-resistant and do not allow hot or cold air from outside to enter inside.
- "MSS Openings" brand products are fireproof. In case of fire, they extinguish automatically.
- In air-conditioned buildings, "MSS

Openings" brand products, do not allow air or heat to go from inside to outside or from outside to inside. In this way, they save energy by 30 to 35 percent.

- "MSS Openings" brand products are used in place of wood, which helps in preventing deforestation. Therefore, they are also eco-friendly.
- "MSS Openings" brand products do not break easily and do not bend. They provide complete protection against thieves and burglars.

HITECH DOORS AND WINDOW SYSTEMS COMMENCES PRODUCTION OF UPVC DOORS, WINDOW FROM A STATE-OF-THE-ART ADVANCED TECHNOLOGY PLANT

Janab Siraj Hussain Kanchwala and Janab Taha Malvi

Ratlam, Madhya Pradesh's well-known, reputed, credible, and one of the prominent wholesale/retail glass trading firms, M/s Bharat Glass House, which since 1965 has been engaged in the trading and processing of all types of flat glass, value-added glass mirrors, decorative mirrors, LED mirrors, architectural toughened glass, insulated glass, laminated glass, and architectural glass hardware, has expanded its business and, in April 2025, has established a new firm, M/s Hi tech Doors and Windows Systems, under which an advanced, modern technology-equipped UPVC doors/windows plant has been set up, and from 1st April, 2025, the production of UPVC doors/windows has begun, and the firm is making a significant contribution in fulfilling the increasing demand for UPVC doors/windows in Ratlam along with Madhya Pradesh.

From the ancient times of human civilization to modern buildings, as an inevitable requirement, from time to time, the usage of windows and doors made from

various types of building materials like wood, steel, aluminum, fiber glass, vinyl/PVC/UPVC, etc., is visible. In ancient times, for a long period, wooden windows and doors were widely used, but over time, due to the heavy pressure of the increasing population, the demand for timber wood increased heavily, leading to rampant cutting of trees, reducing forest areas, and due to environmental reasons,

governments started imposing restrictions on tree cutting. Hence, due to the scarcity of wood, the prices of wooden doors, windows, furniture, etc., increased significantly, and as a result, as alternatives to wood, the use of windows and doors made from steel, aluminum, fiber glass, PVC, and UPVC gradually started to increase.

In Europe, America, and many countries of the world, as alternatives to wood, the use of anodized and coated aluminum doors and windows has been prevalent for a long time, but in the past few decades, just as aluminum had been used extensively in place of wood for windows, partitions, and doors, similarly, for some time now, the use of UPVC (Unplasticised Poly Vinyl Chloride) windows, partitions, and doors has also increased on a large scale. In India too, in view of their increasing usage, many visionary entrepreneurs/businessmen of the country have also taken steps towards the manufacturing of UPVC windows and doors.

M/s Bharat Glass House was established 60 years ago in 1965, on a very small scale with 2 mm sheet glass and photo framing by Janab Abdul Hussain Kanchwala, and progressing year after year,

the firm started dealing in all types of flat glass in 1987. Subsequently, in 1985, his son Janab Siraj Kanchwala entered the glass business established by his father and took his family business on the path of progress by working together with his father, following his ideals, and also with hard work and true dedication. In 2007, in accordance with the demands of the time, the processing of all types of value-added

glass was also started. 63-year-old Mr. Siraj Kanchwala is a high-level, wise, and reputed businessman, who, is fully dedicated in taking his flat glass business towards the top, and since 2013, his nephew Janab Taha Malvi has also entered the glass business with him, and for the past 12 years, not only has he been supporting his uncle, Janab Siraj Hussain Kanchwala, but also has been providing new directions in the

glass business, and recently, while expanding their business, they have established a new firm, M/s Hitech Doors and Windows Systems, under which, from 1st April, 2025, the production of UPVC doors/windows has commenced. This plant is making a significant contribution in fulfilling the increasing demand for UPVC doors/windows in the markets of Ratlam and across Madhya Pradesh.

GRAND AND SPACIOUS VALUE-ADDED GLASS SHOWROOM SET UP BY SHIVA GLASS HOUSE

The Managing Partner of the firm Mr. Munish Behl
with the Sub Editor of this Magazine Mr. Ramesh Chanda Sharma

M/s Shiva Glass House, located in Ludhiana, Punjab, is a renowned and prestigious firm that has been engaged in the glass business in some form since 1958 and, for the past 27 years, has been involved in the wholesale and retail business of all types of flat glass – clear and tinted float glass, reflective glass, lacquered glass, mirrors, etc. The founder and proprietor of this firm was Mr. Mohan Lal Behl, who was a very diligent, hardworking, and honest, reputable businessman. Under his guidance, his two sons, Mr. Narinder Behl and Mr. Munish Behl, understood and learned the intricate details of the glass business. We have already elaborated on them in previous issues of our magazine, 'Glass News.' Currently, under the name M/s Shiva Glass Industries Pvt. Ltd., a processing tempering unit is also in operation, through which various types of tempered heat-strengthened glass are being made available in the market under the 'Shiva Tuff' brand. Further expanding the business, on 16 January 2022, a grand and spacious air-conditioned showroom named 'Studio Shiva Glass' was inaugurated near Jain Sweets on Feroze Road in Ludhiana, so that their valued customers would not have

to visit their old office and thus save their precious time.

Mr. Narinder Behl and Mr. Munish Behl are well-educated and visionary businessmen who have been making changes in their business from time to time. Keeping this in view, they have demonstrated, through the renovation of their office, that with time, making changes to keep the business secure is extremely necessary.

It should be noted that during a conversation with the associate editor of this magazine, Mr. Ramesh Chandra Sharma, who visited Ludhiana, the partners of the firm, Mr. Narinder Behl and Mr. Munish Behl, shared that during the past 32 years, the domestic flat glass

industry/business has seen revolutionary changes in terms of intensive capital investment, technological upgrades, production capacity, and demand growth. As a result, entrepreneurs and businessmen who have adapted their business methods in accordance with the changing landscape of this industry and trade have continued to progress on the path of advancement. In this direction, we have also renovated our office according to the demands of the time, and considering the increasing demand in the domestic market for UPVC, aluminium, and slim profile doors and windows, we decided that through the above showroom, it would be easier to explain to our valued customers, using displays, where and how each product would fit. For this reason, we have prepared this showroom and showcased all types of samples of UPVC and aluminium slim profiles, demonstrating their utility, and also the future of this business is extremely bright and full of possibilities.

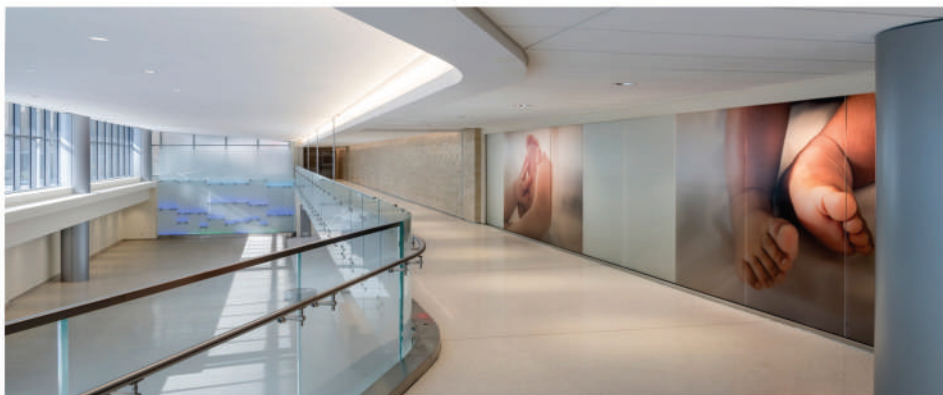

From ancient times to the present day, for the needs of buildings, the usage of windows and doors made from various building materials such as wood, aluminium, fibre glass, UPVC, etc., has

been witnessed from time to time. For a long period in ancient times, wood was extensively used in buildings for doors and windows, but over time, due to the increase in population, the demand for wood increased significantly, leading to excessive deforestation, reducing forest areas, and polluting the environment, due to which the Honorable Supreme Court imposed a ban on the rampant cutting of trees to protect the environment. Hence, due to the scarcity of wood, the prices of wooden windows, doors, and wooden furniture increased heavily, leading to the replacement of wood by aluminium slim profile glass, steel, PVC, and UPVC in large quantities in building doors, windows, and furniture.

It should be noted that in many

countries of the world, aluminium/slim profile doors, windows, and partitions have been used instead of wood for a long time, but in India, over the past 10-12 years, the use of aluminium slim profiles and UPVC doors and windows has been increasing rapidly. Keeping this in view, we have taken steps as a leading and progressive business.

It should be noted that in the near future, one of our companies will manufacture aluminium, with production expected to enter the market by around September 2025, and like the past 27 years, we thank all our retailer friends for their support and cooperation and expect the same level of support from them in the future as well.

A RENOWNED AND WELL-KNOWN NAME IN THE FIELD OF ALL TYPES OF DOMESTIC AND IMPORTED FLAT GLASS BUSINESS – SAMRAT GLASS HOUSE

Experienced and visionary Proprietor of the firm Mr. Sanjeev Jain and his young son Mr. Sanket Jain

The firm M/s Samrat Glass House, which is counted among reputed, well-credited, progressive firms of Ludhiana, Punjab, has, for the past 34 years, been engaged in the business and processing of all types of flat glass like clear and tinted float glass, reflective glass, decorative mirror, LED mirror, designer film, architectural toughened glass, architectural glass hardware, thicker glass, imported glass, mirror, glass blocks and silicone, as well as in a diverse range of glass and glass products like diamond-like crystal clear, beveled glass, etched glass, glass-to-glass, etc. It is well known that in 1992, the 53-year-old proprietor of Samrat Glass House, Mr. Sanjeev Jain, started his business at a very small scale, and due to his hard work and honesty, the firm's business kept growing day by day and year after year, and within a short period, the firm's graph grew so rapidly that other glass business firms, which had been in the business for a long time, lagged far behind. This was all possible only because of Mr. Sanjeev Jain's

honesty and his earning of a high level of reputation in the market.

The 53-year-old proprietor of M/s Samrat Glass House, Mr. Sanjeev Jain, a B.Com graduate has around 34 years of intensive experience in the glass business and is also a far-sighted businessman, during an informal meeting with the sub editor of this magazine, Mr. Ramesh Chandra Sharma, who was on visit to Ludhiana, Punjab, stated that during the past 32 years, there have been revolutionary changes in the domestic flat glass industry/trade from the perspective of intensive capital investment, technical upgradation, production capacity, and demand, and as a result, those entrepreneurs and businessmen who, with time, have brought appropriate changes in their business methods in accordance with the changing scenario of this industry/trade, are continuously progressing on the path of development.

In this direction, we too, as per the demand of time, have established a new

godown, in which a beveling machine imported from China through M/s Raj Glass Machines, Mumbai, has been installed, with which we have become more capable of providing even better service to our valuable customers.

It is well known that at present, Mr. Jain's 28-year-old son, Mr. Sanket Jain, who is a B.Tech and who has worked for three years in an IT company located in Gurugram, has been engaged in the glass business with his father for the past four years, and under the guidance of his father, is continuously providing new direction to the glass business established and developed by his father and is fully striving to take the business towards the peak. Mr. Sanket Jain, just like his father, is a hard-working, soft-spoken, and well-mannered businessman. At present, M/s Samrat Glass House is an authorized dealer firm in the material of companies engaged in the manufacturing of float glass in the country like Gujarat Guardian Ltd., Sisecam Flat Glass India Pvt. Ltd.

Float Glass From

MANUFACTURER OF :-

- ◆ TOUGHENED GLASS
- ◆ INSULATED GLASS
- ◆ LAMINATED GLASS
- ◆ HEAT SOAK TEST GLASS

BHARAT SAFETY GLASS

ARCHITECTURAL SAFETY GLASS SOLUTION

DESCRIPTION

Toughened or Tempered glass is a type of safety glass processed by controlled thermal or chemical treatments to increase its strength compared with normal (annealed) glass. BSG Toughened glass is physically and thermally 4 To 5 times stronger than regular glass.

PRODUCT FEATURES

Minimum Size :- 4 To 19 mm Thickness 300 x 300 mm

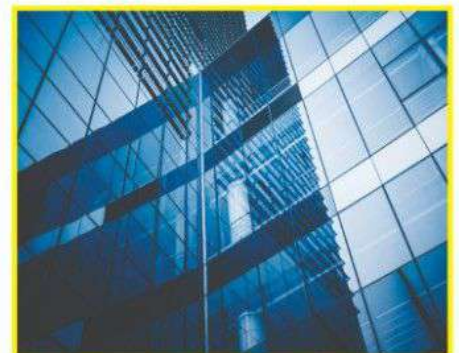

Maximum Size :- 4 To 19 mm Thickness 2800 x 5000 mm

APPLICATION

1. Architectural Glass Doors and Partitions.
2. Shower Cubicles
3. Table Tops
4. Passenger Vehicle Windows
5. Refrigerator Trays
6. Glass in Cooking Ranges and Microwave Ovens.

2025-26 की प्रथम तिमाही अप्रैल-जून, 2025 के दौरान मांग लगभग यथावत रहने के बावजूद कीमतों में पुनः वृद्धि का प्रयास जारी

चालू वित्त वर्ष 2025-26 की प्रथम तिमाही (अप्रैल-जून, 2025) के दौरान घरेलू मार्केट में

क्लीयर एवं टिन्टेड फ्लोट ग्लास, रिफ्लेक्टिव ग्लास, लेक्ड ग्लास, मिरर की मांग यथावत रहने के पश्चात् घरेलू निर्मित फ्लोट ग्लास की कीमतों में निरन्तर वृद्धि का प्रयास जारी है। अप्रैल-जून, 2025 के दौरान ऑटोमोबाइल ग्लास उद्योग एवं कन्स्ट्रक्शन उद्योग की मांग लगभग यथावत् होने के बावजूद गत् तिमाही में भी कीमतों में उतार-चढ़ाव का क्रम बना हुआ है। अप्रैल-जून, 2025 में क्लीयर फ्लोट ग्लास की कीमतों में निर्माता कम्पनियों द्वारा अप्रैल माह को छोड़कर मई एवं जून में चार-चार रुपये प्रति एम.एम. प्रति वर्ग मीटर के हिसाब से पुनः वृद्धि का प्रयास किया गया है, कुल मिलाकर निर्माता कम्पनियों द्वारा गत् दो महीने में आठ रुपये एम.एम. प्रति वर्ग मीटर की वृद्धि की गयी है। मार्केट सूत्रों के अनुसार हम इस निष्कर्ष पर पहुंचे हैं कि घरेलू निर्मित फ्लोट ग्लास की कीमतों में निरन्तर उतार-चढ़ाव का जो क्रम बना हुआ है, इसका मुख्य कारण हम अपने सुविज्ञ पाठकों को इस पत्रिका के माध्यम से अपने प्रत्येक अंक में बतलाने का हर सम्भव प्रयत्न करते हैं। इस तिमाही में कीमतों में वृद्धि के तीन मुख्य कारण हो सकते हैं, पहला आयातित फ्लोट ग्लास तो है ही, दूसरा रुड़की (उत्तराखण्ड) स्थित मैसर्स असाही इण्डिया ग्लास लि0 का 700 टन प्रतिदिन क्षमतायुक्त फ्लोट ग्लास प्लान्ट कोल्ड- रिपेयरिंग हेतु जो, अप्रैल 2025 से बन्द है एवं तीसरा कारण भीलवाड़ा (राजस्थान) स्थित नवस्थापित 800 टन प्रतिदिन क्षमतायुक्त फ्लोट ग्लास प्लान्ट जिसके उत्पादन का अधिकतम उपयोग

ऑटोमोटिव ग्लास बनाने के लिये किया जा रहा है। सूत्रों के अनुसार अप्रैल-मई 2025 में क्लीयर फ्लोट ग्लास का आयात लगभग क्रमशः 37,000 एवं 30,000 टन के आस-पास दर्ज किया गया है। विदित हो, भारत का जीडीपी ग्रोथ (सकल घरेलू उत्पाद) अमेरिका एवं चीन सहित विश्व के अनेक देशों के मुकाबले सबसे तीव्र गति के साथ बढ़ रहा है। यह भी विदित हो, वर्तमान में भारत का जीडीपी ग्रोथ सरकारी आंकड़ों के अनुसार 2025-26 में 6.2 से 6.5 तक बने रहने की सम्भावना जताई गयी है, जो विश्व के बड़े-बड़े देशों की अर्थव्यवस्था से कहीं अधिक है और भारत की विकास-दर के आगे अन्य देश कहीं भी नहीं टिकते हैं।

विदित हो, भारत आधिकारिक तौर पर जापान को पीछे छोड़कर दुनिया की चौथी सबसे बड़ी अर्थव्यवस्था बन गया है। नीति आयोग के CEO बी. वी. आर. सुब्रह्मण्यम ने 24 मई को प्रेस कॉन्फ्रेंस के माध्यम से इसकी जानकारी दी। इन्टरनेशनल मॉनेटरी फण्ड यानी IMF के आंकड़ों का हवाला देते हुए श्री सुब्रह्मण्यम ने कहा कि, “हम चौथी सबसे बड़ी अर्थव्यवस्था हैं” और हम चार ट्रिलियन डॉलर की अर्थव्यवस्था बन गये हैं। आज भारत जापान से बड़ी अर्थव्यवस्था बन गया है। अब केवल अमेरिका, चीन और जर्मनी ही भारत से आगे हैं। नीति आयोग के CEO ने यह भी कहा कि अगर हम अपनी योजना और सोच-विचार पर टिके रहे, तो अगले 2-3 वर्ष में भारत विश्व की तीसरी सबसे बड़ी अर्थव्यवस्था बन जायेगा। यह विदित हो, जब भारत की जीडीपी की इतनी तीव्र गति के साथ वृद्धि हो रही है तो भारत के समतल कांच उद्योग-व्यापार में भी गुणकों में वृद्धि सुनिश्चित है।

यह भी एक सच है कि निर्माता कम्पनियों द्वारा

गत् दो महीनों के दौरान आठ रुपये प्रति एम.एम. प्रति वर्ग मीटर की कीमतों में वृद्धि कब तक अर्थात् कितने दिन तक सफल रहती है और आगे भी इसी प्रकार कीमतों में वृद्धि होती रहेगी अथवा फिर अपने स्थान पर आ जायेगी। कीमत वृद्धि के साथ-साथ उसमें स्थिरता भी होनी चाहिए, जिससे मार्केट में कीमतें गिरने का भय अथवा आशंका न रहे। कीमतें बढ़ने से और स्थिरता आने से कम्पनियों का तो लाभ मार्जिन बढ़ता ही है साथ ही साथ ट्रेड एवं देशीय अर्थव्यवस्था के लिए भी लाभकारी साबित होता है। हमारी जानकारी के मुताबिक देश में उक्त उत्पाद को छोड़कर शायद ही कोई ऐसा उत्पाद हो, जिसमें इतनी जल्दी-जल्दी कीमतों में उतार-चढ़ाव आता हो। देश में लगभग सभी उत्पाद की कीमतें बढ़ती हैं और लगभग स्थिर हो जाती हैं अगर कम भी होती हैं तो मामूली रूप से कम होती हैं लेकिन कांच में जहां से कीमतों का बढ़ना शुरू होता है, कुछ दिन बाद ही कीमतें अपने स्थान पर आ जाती हैं जहां पर कीमतें चल रही होती हैं।

वर्तमान में उत्पादन-लागत के दृष्टिकोण से भारतीय फ्लोट ग्लास उद्योग एक बेहद जटिल, पेचीदगी पूर्ण एवं विषम परिस्थितियों के नाजुक दौर से गुजर रहा है। देशीय कांच उद्योग पर सुरसा की तरह तीव्र गति से उत्पादन-लागत का भारी-भरकम बोझ निरन्तर बढ़ता जा रहा है। क्योंकि कांच मैल्टिंग में प्रयुक्त - प्राकृतिक गैस, ट्रांसपोर्टेशन, बिजली-पानी, मजदूरी, वेतन, कच्चे माल के रूप में - सोडा एश, सिलिका सैण्ड, फेल्सफार, डोलोमाइट एवं क्वाड्रस पाउडर की कीमतों में भी आशातीत उल्लेखनीय वृद्धि हुई है, लेकिन बढ़ती हुई उत्पादन लागत के मुताबिक कांच की कीमतों में वृद्धि नहीं हो पा रही है।

ओमकारा ग्लासेज एण्ड एप्लायंसेज प्रा0 लि0 द्वारा आयातित, अत्याधुनिक, उन्नत तकनीकीयुक्त टेम्परिंग ग्लास लाइन से उत्पादन प्रारम्भ

कम्पनी के गतिशील एवं दूरदृष्टिपूर्ण प्रमोटर्स सर्वश्री शशि कुमार सुनेजा, नितिन शर्मा, अश्वनी शर्मा, मोहित सुनेजा एवं इस पत्रिका के कार्यकारी सम्पादक श्री अभिषेक शर्मा साथ में श्री रोलैंड (Xinglass)

राष्ट्रीय राजधानी क्षेत्र, ग्रेटर नोएडा (उत्तर प्रदेश) स्थित एक नवोदित ग्लास प्रोसेसिंग कम्पनी मैसर्स ओमकारा ग्लासेज एण्ड एप्लायंसेज प्रा0 लि0 की स्थापना मैसर्स ओरोटफ ग्लास प्रा0 लि0, ग्रेटर नोएडा के प्रगतिशील प्रमोटर्स सर्वश्री नितिन शर्मा एवं अश्वनी शर्मा (पुत्र स्वर्गीय श्री ओमबीर शर्मा) एवं मैसर्स ग्लास एन ग्लास, मुरादाबाद के दूरदृष्टिपूर्ण एवं सघन अनुभवी प्रमोटर्स सर्वश्री शशि कुमार सुनेजा, मोहित सुनेजा एवं सोहित सुनेजा ने अपने कारोबार का और अधिक विस्तार करते हुये अभी हाल ही में एक नई कम्पनी स्थापित की है, जिसके अन्तर्गत चीन स्थित टेम्परिंग फर्नेस निर्माता कम्पनी मैसर्स HANGZHOU GLASS TECHNOLOGY CO. LTD. (XINGLASS) से 4x12 फुट साइज की एक अत्याधुनिक, उन्नत

तकनीकीयुक्त टेम्परिंग लाइन आयात की है, जिससे आर्किटेक्चुरल टेम्पर्ड ग्लास के साथ-साथ विद्युत उपकरण में ग्लास का उपयोग जैसे - फ्रिजर्स, रेफ्रिजरेटर्स, टी.वी. ट्रोलीज, वाशिंग मशीन, ओवन, माइक्रोवेव, गैस चूल्हा, चिमनी एवं सोलर ग्लास आदि-आदि विविधकृत उद्देश्यों हेतु 2.8 एम.एम. से 12 एम.एम. मोटाई तक के समस्त प्रकार के समतल कांच - क्लीयर एवं टिन्टेड फ्लोट ग्लास, रिप्लेक्टिव ग्लास, लो-ई ग्लास आदि टेम्पर्ड / हीट स्ट्रेन्थंड किये जा सकते हैं।

विदित हो, मैसर्स ओमकारा ग्लासेज एण्ड एप्लायंसेज प्रा0 लि0 एक नई कम्पनी अवश्य है, लेकिन इसकी जनक प्रोसेसिंग कम्पनियां मैसर्स ओरोटफ ग्लास प्रा0 लि0, ग्रेटर नोएडा एवं ग्लास एन ग्लास, मुरादाबाद का प्रोसेसिंग उद्यम क्रमशः 2011

एवं 2016 से पूरी तरह स्थापित है।

विदित हो, इनके उक्त प्रोसेसिंग उद्यम से पूर्व मैसर्स ओम ग्लास कम्पनी, नोएडा गत् 31 वर्षों (1994) एवं मैसर्स ग्लास एन ग्लास, मुराबाद गत् 24 वर्षों (2001) से कांच कारोबार में संलग्न हैं (ग्लास एवं ग्लास का पैत्रक कांच कारोबार इससे भी काफी पुरातन है, इनके पिता श्री सुन्दर लाल सुनेजा ने 1968 में बाबा ग्लास कम्पनी के नाम से अपने कांच कारोबार का शुभारम्भ किया था)।

मैसर्स ओमकारा ग्लासेज एण्ड एप्लायंसेज प्रा0 लि0 द्वारा उत्पादित टेम्पर्ड ग्लास की आपूर्ति राष्ट्रीय राजधानी क्षेत्र के साथ-साथ देश में कार्यरत 'होम एप्लायंसेज' के निर्माण में संलग्न कम्पनियों में की जा रही है और इसके अतिरिक्त उक्त मैटेरियल को निर्यात भी किया जा रहा है, क्योंकि उक्त कम्पनी को सबसे ज्यादा लाभ निर्यात के माध्यम से भी मिल

रहा है, क्योंकि इस कम्पनी की प्रमोटर कम्पनी मुरादाबाद स्थित मैसर्स ग्लास एन ग्लास का काफी लम्बे समय से उच्च गुणवत्तायुक्त डिजाइनर / मिरर निर्यात किया जाता है और इस फर्म के 63 वर्षीय प्रोपराइटर श्री शशि कुमार सुनेजा, जो एक सघन अनुभवी एवं दूरदृष्टिपूर्ण व्यावसायी / उद्यमी हैं, ने अपने कांच-कारोबार एवं मूल्यवर्धित कांच के क्षेत्र में नये-नये कीर्तिमान स्थापित किए हैं और कर रहे हैं। यद्यपि कम्पनी के सभी निदेशकगण सर्वश्री शशि कुमार सुनेजा, नितिन शर्मा, अश्वनी शर्मा, मोहित सुनेजा एवं सोहित सुनेजा जो सुशिक्षित एवं सघन अनुभवी व्यावसायी हैं और इनको ग्लास प्रोसेसिंग उद्योग को चलाने का भी सघन अनुभव प्राप्त है।

नोएडा (गौतमबुद्ध नगर) राष्ट्रीय राजधानी क्षेत्र स्थित उत्तरी भारत की लब्ध प्रतिष्ठित, सर्वाधिक प्रगतिशील ट्रेडिंग एवं प्रोसेसिंग कम्पनी मैसर्स ओम ग्लास कम्पनी, मैसर्स ओरोटफ ग्लास प्रा0 लि0 के संस्थापक श्री ओमवीर शर्मा (जिनका 21 मार्च, 2025 को स्वर्गवास हो गया है) जो 31 वर्षों से कांच-कारोबार की ट्रेडिंग के साथ-साथ गत् 14 वर्षों तक प्रोसेसिंग उद्यम के क्षेत्र में भी निरन्तर बेहतर कारोबारी प्रदर्शन करते हुए शिखर की तरफ अग्रसर रहे एवं इसकी जनक मैसर्स ओम ग्लास

कम्पनी भी अपने थोक कांच कारोबार के क्षेत्र में लगभग 31 वर्षों से नए-नए कीर्तिमान स्थापित किए। जहां एक तरफ ओरोटफ ग्लास प्रा0 लि0 उत्तरी भारत के मार्केट के साथ-साथ प्रोजेक्ट्स की बढ़ती हुई सुरक्षित कांच की मांग को पूरा करने में अपना अहम रोल अदा कर रही थी / है, वहीं दूसरी तरफ मैसर्स ओम ग्लास कम्पनी ने अपने थोक कांच-कारोबार में समय-समय पर विस्तार भी किया। मैसर्स 'ओम ग्लास कम्पनी' ग्रुप की अन्य थोक ट्रेडिंग फर्मों में 2020 में स्थापित सहारनपुर पश्चिमी उत्तर प्रदेश स्थित मैसर्स 'ओके ग्लास कम्पनी', 2021 में दूसरी वाराणसी, पूर्वी उत्तर प्रदेश स्थित मैसर्स 'सुधा ग्लास कम्पनी' एवं 2023 में दिल्ली स्थित तीसरी फर्म के रूप में ओम ग्लास कम्पनी के नाम से ही एक और थोक ट्रेडिंग फर्म स्थापित की। इस प्रकार श्री ओमवीर शर्मा ने अपने कारोबार का शीघ्र-अतिशीघ्र विस्तार किया और उक्त सभी प्रोसेसिंग एवं ट्रेडिंग फर्मों अपने-अपने उद्यम एवं कारोबार के क्षेत्र में नित नई ऊचाइयों को छूते हुए तीव्र गति के साथ शिखर की तरफ ले गये और वर्तमान में जिनका संचालन नितिन शर्मा एवं अश्वनी शर्मा पूरी जिम्मेदारी एवं निष्ठा के साथ उन्हीं के आदर्श एवं पद चिन्हों पर चल रहे हैं।

कम्पनी के प्रगतिशील प्रमोटर श्री सोहित सुनेजा

विदित हो, अपने थोक कांच कारोबार का राष्ट्रीय राजधानी क्षेत्र (एनसीआर) से शुभारम्भ करके पश्चिमी उत्तर प्रदेश से लेकर पूर्वी उत्तर प्रदेश तक मैसर्स ओम ग्लास कम्पनी अपना परचम लहराते हुए शिखर की तरफ अग्रसर है। यह भी विदित हो, सहारनपुर स्थित मैसर्स ओ. के. ग्लास कम्पनी का श्री कुलदीप शर्मा एवं वाराणसी स्थित मैसर्स सुधा ग्लास कम्पनी का श्री देवेन्द्र नाथ मिश्रा और दिल्ली स्थित ओम ग्लास कम्पनी ब्रांच का मनोज शर्मा एवं अभिषेक राघव पूरी जिम्मेदारी के साथ बखूबी संचालन कर रहे हैं।

कम्पनी द्वारा स्थापित अति आधुनिक टेम्परिंग लाइन का चित्र

मयूर ग्लास इण्डस्ट्रीज द्वारा आयातित, अत्याधुनिक, उन्नत तकनीकीयुक्त लेमिनेटिंग एवं इन्सुलेटिंग ग्लास लाइन से उत्पादन प्रारम्भ

सघन अनुभवी, गतिशील और दूरदर्शी संस्थापक श्री चम्पालाल भण्डारी के साथ कम्पनी के प्रबंध भागीदार श्री ललित भण्डारी, श्री गिरीश भण्डारी एवं राकेश भण्डारी का एक सामूहिक चित्र

देश की पुरातन, प्रतिष्ठित एवं सर्वाधिक साखयुक्त ट्रेडिंग फर्मों में गणना की जाने वाली फर्म मैसर्स भंडारी ग्लास कम्पनी, हैदराबाद एवं मयूर ग्लास हाउस, विशाखापट्टनम स्थित घरेलू एवं आयातित ग्लास की थोक ट्रेडिंग में संलग्न हैं, ने गत वर्ष अपने कारोबार का भारी विस्तार करते हुये एक नवस्थापित कम्पनी मैसर्स मयूर ग्लास इण्डस्ट्रीज की स्थापना की, जिसके अन्तर्गत 'नॉर्थ ग्लास' चीन से एक अत्याधुनिक, उन्नत तकनीकीयुक्त फ्लेट टेम्परिंग फर्नेस आयात की थी और जो 26 अप्रैल, 2024 से समस्त प्रकार के आर्किटेक्चरल टेम्पर्ड ग्लास के निर्माण में संलग्न है, ने अपने कारोबार का पुनः भारी विस्तार करते हुये गत छः महीनों के दौरान ही अक्टूबर, 2024 में 'SAGARTECH' से एक पी.वी.बी. लेमिनेटिंग ग्लास लाइन एवं मई, 2025 में 'JINFAND' से एक इन्सुलेटिंग ग्लास लाइन चीन से आयात की हैं, जिनसे सुचारु रूप से उत्पादन किया जा रहा है। कम्पनी पी.वी.बी. लेमिनेटिंग ग्लास लाइन से 'मयूर लैम' ब्रांड से विश्वस्तरीय

गुणवत्तायुक्त आर्किटेक्चरल उद्देश्यों हेतु लेमिनेटिड सेफ्टी ग्लास के निर्माण में संलग्न है।

इस लेमिनेटिंग ग्लास लाइन से 2.5 एम.एम. से 19 एम.एम. मोटाई तक के 2.4 x 4.2 मीटर अधिकतम साइजेज तक के क्लीयर एवं टिन्टेड फ्लोट ग्लास, रिफ्लेक्टिव ग्लास, लेकर्ड ग्लास आदि के लेमिनेटिड सेफ्टी ग्लास बनाये जा सकते हैं एवं इसका उपयोग डोर्स / विन्डोज, फर्नीचर, किचन एण्ड बाथरूम सेल्विंग, मिरर / लेकर्ड ग्लास,

कॉमर्शियल ग्लेजिंग, ओवरहैड ग्लेजिंग, रेलिंग्स, ग्लास स्काई लाइट्स, ग्लास एक्युरियम, केनोपीज, हाउसहोल्ड फर्नीचर्स इत्यादि के लिये किया जा सकता है।

विदित हो, विश्व में अन्तर्राष्ट्रीय गुणवत्ता स्पेशिफिकेशन्स के मुताबिक पी.वी.बी. (Poly Vinyl Butryl) के प्रोसेस से बनाये जाने वाले लेमिनेटिड सेफ्टी ग्लास निःसंदेह उत्कृष्ट कोटि का विश्वस्तरीय उत्पाद माना जाता है और इसके निर्माण

कम्पनी द्वारा स्थापित इन्सुलेटिंग ग्लास लाइन का एक चित्र

हेतु मंहगी मशीनरी एवं पी.वी.बी. फिल्म की आवश्यकता भी होती है।

मैसर्स मयूर ग्लास इण्डस्ट्रीज के सघन अनुभवी, गतिशील एवं दूरदृष्टिपूर्ण प्रबंध भागीदारों में सर्वश्री ललित भण्डारी, गिरीश भण्डारी, राकेश भण्डारी एवं विक्रम कुमार जैन जो सभी सुशिक्षित व्यावसायी हैं, उनमें से श्री विक्रम कुमार जैन ने दूरभाष के माध्यम से इस पत्रिका के कार्यकारी सम्पादक अभिषेक शर्मा को अपनी कम्पनी के बारे में विस्तृत जानकारी देते हुये बतलाया कि हमारी कम्पनी ने अपनी आकिटेक्चरल रेन्ज को पूरा करने के उद्देश्यों हेतु एक लेमिनेटिंग एवं इन्सुलेटिंग ग्लास लाइन भी स्थापित की है, जिनसे हम अपने मूल्यवान ग्राहकों को एक ही छत के नीचे आकिटेक्चरल ग्लास की अधिकतम रेन्ज उपलब्ध करा सकें। विदित हो, बिल्डिंग स्ट्रक्चर्स में इन्सुलेटिंग ग्लास का उपयोग जहां एक तरफ बिल्डिंग के अन्दर अवांछित भयंकर गर्मी को बाधित करता है, वहीं दूसरी तरफ शौर-प्रदूषण पर भी अंकुश लगता है। देश में विद्युत संकट हमेशा बना रहता है। बिल्डिंग्स में इन्सुलेटिंग ग्लास के उपयोग से विद्युत बचत के माध्यम से काफी हद तक देशीय विद्युत संकट को भी कम किया जा सकता है। इन्सुलेटिंग ग्लास की उक्त अन्तर्निहित विशेषताओं एवं उपयोगिताओं के कारण देशीय

कम्पनी के प्रगतिशील प्रबंध भागीदार श्री विक्रम कुमार जैन

मार्केट में इन्सुलेटिंग ग्लास के उपयोग की प्रचुर सम्भावनाएं व्याप्त हैं और दिन-प्रतिदिन, वर्ष-दर-वर्ष, इन्सुलेटिंग ग्लास की मांग में अभूतपूर्व वृद्धि हो रही है। इन्हीं सम्भावनाओं के मद्देनजर हमारी कम्पनी ने टेम्पर्ड ग्लास के साथ-साथ लेमिनेटिंग ग्लास एवं इन्सुलेटिंग ग्लास निर्माण का भी शुभारम्भ किया है।

विदित हो, प्रोसेस्ड मूल्यवर्धित फिनिशड ग्लास एवं ग्लास उत्पादों की उत्कृष्ट गुणवत्ता इस प्रमाणित तथ्य पर निर्भर करती है कि ग्लास एवं ग्लास उत्पादों की प्री-प्रोसेसिंग कार्य जैसे - कांच की कटिंग, एजिंग, होलिंग / ड्रिलिंग, वॉशिंग आदि कितनी गुणवत्ता के साथ की गयी है।

कम्पनी का संक्षिप्त परिचय

लगभग पांच दशक से दक्षिणी भारत में समतल कांच मार्केट के दिलों में राज करने वाली फर्म मैसर्स भण्डारी ग्लास कम्पनी के 76 वर्षीय संस्थापक श्री चम्पालाल भण्डारी ने 1975 में छोटे स्तर से अपने कांच कारोबारी कैरियर की शुरुआत की थी, जो निरन्तर वर्ष-दर-वर्ष प्रगति करते हुए अपने कांच-कारोबार के क्षेत्र में शिखर पर विराजमान है और वर्तमान में इनका व्यापारिक कद इतना बढ़ चुका है कि भण्डारी ग्लास कम्पनी की गणना देश के प्रतिष्ठित कांच-कारोबारी फर्मों में बड़े ही गर्व के साथ की जाती है। इस फर्म की

सहयोगी फर्म के रूप में 2008 में स्थापित मैसर्स मयूर ग्लास हाउस जिसके पार्टनर श्री विक्रम कुमार जैन हैं (रिश्ते में श्री चम्पालाल जैन इनके फूफाजी हैं) ने अपने कारोबारी कैरियर की शुरुआत मैसर्स भण्डारी ग्लास कम्पनी से 2007 में की थी। मैसर्स मयूर ग्लास हाउस गत 17 वर्षों के दौरान तीव्र गति के साथ प्रगति करते हुये देश के समतल कांच आयातकों की सूची में प्रमुख फर्मों में अपना स्थान बनाये हुये हैं। इस ग्रुप की अन्य ट्रेडिंग फर्मों में मैसर्स राइडर ग्लास इण्डस्ट्रीज प्रा0 लि0, मैसर्स स्वास्तिक ग्लास एण्ड प्लाई लैम, काइलो

समतल कांच एवं प्रोसेसिंग से जुड़े सभी व्यापारी भली-भांति जानते हैं कि कांच कभी बीच में से नहीं टूटता, जब भी टूटेगा किनारों से टूटेगा। इसीलिए कांच की होलिंग / ड्रिलिंग, वॉशिंग के लिये प्री प्रोसेसिंग मशीनरी का उन्नत तकनीकीयुक्त होना अति आवश्यक है। इसी पर टेम्पर्ड ग्लास की गुणवत्ता निर्भर करती है। उक्त प्री प्रोसेसिंग मशीनरी कम्पनी में उत्पादन के शुभारम्भ से ही स्थापित हैं। जिसमें एक 'STRON' से 10'x20' साइज की एक कटिंग लाइन, 'ZXM' की एक वॉशिंग मशीन, 'ZXM' के तीन सिंगल एजर मशीन एवं 'ZXM' की ही स्ट्रेट लाईन बैक्लिंग मशीन स्थापित की हैं।

इण्डस्ट्रीज प्रा0 लि0 एवं मैसर्स नवकार सेल्स भी शामिल हैं। जिनका कार्यभार श्री चम्पालाल भण्डारी के तीनों सुपुत्र सर्वश्री ललित भण्डारी, गिरीश भण्डारी, राकेश भण्डारी एवं विक्रम कुमार जैन उक्त फर्मों का बखूबी संचालन कर रहे हैं और ये सभी फर्म अपने-अपने कारोबार के क्षेत्र में अपना-अपना महत्वपूर्ण प्रदर्शन कर रही हैं, जिसका मुख्य कारण इन चारों भाइयों के मध्य गहरा ताल-मेल है और ये सभी एक सफल व्यापारी होने के साथ-साथ बेहद कर्मठ एवं अत्यन्त व्यवहार कुशल व्यावसायी भी हैं।

PARAS LAXMI CREATION

श्री पारसनाथ ग्लास टफ प्रा0 लि0 द्वारा अत्याधुनिक उन्नत तकनीकीयुक्त पी.वी.बी. लेमिनेटिंग ग्लास लाइन से उत्पादन प्रारम्भ

कम्पनी के प्रगतिशील एवं दूरदृष्टिपूर्ण प्रबंध निदेशक श्री प्रकाश चन्द जैन एवं इनके दोनों युवा सुपुत्र कम्पनी निदेशक सर्वश्री राहुल जैन एवं रवि जैन

सागर (मध्य प्रदेश) स्थित ‘पारस लक्ष्मी ग्रुप’ की पुरातन प्रतिष्ठित एवं अत्यन्त साखयुक्त ट्रेडिंग फर्म - मैसर्स पारस ग्लास हाउस, लक्ष्मी ग्लास हाउस, लक्ष्मी ग्लास ट्रेडर्स, पारस लक्ष्मी क्रियेशन की सहयोगी कम्पनी के रूप में मैसर्स श्री पारसनाथ ग्लास टफ प्रा0 लि0, भोपाल - खुर्ई बाईपास रोड पर स्थित है, जो फरवरी, 2023 से उच्च गुणवत्तायुक्त आर्किटेक्चरल टफण्ड ग्लास, इन्सुलेटिड ग्लास एवं ई बी ए / फैब्रिक लेमिनेटिड ग्लास के निर्माण में संलग्न है, ने अपने कारोबार का पुनः भारी विस्तार करते हुये एक पी.वी.बी. लेमिनेटिंग ग्लास लाइन स्थापित की है, जिससे 1 जनवरी, 2025 से पी.वी.बी. लेमिनेटिड सेफ्टी ग्लास का निर्माण किया जा रहा है।

इस लेमिनेटिंग ग्लास लाइन से 2.5 एम.एम. से 19 एम.एम. मोटाई तक के 8'x12' अधिकतम

साइजेज तक के समस्त प्रकार के समतल कांच -क्लीयर एवं टिन्टेड फ्लोट ग्लास, रिफ्लेक्टिव ग्लास आदि के लेमिनेटिड सेफ्टी ग्लास बनाये जा सकते हैं एवं इसका उपयोग डोर्स एवं विन्डोज, हाउस होल्ड फर्नीचर्स, किचन एण्ड बाथरूम सेल्विंग, मिरर / लेकर्ड ग्लास, कॉमशियल ग्लेजिंग, ओवरहैड ग्लेजिंग, ग्लास स्काईलाइट्स, ग्लास एक्यूरियम, ग्लास केनोपीज, ग्लास रेलिंग इत्यादि।

कम्पनी के प्रगतिशील एवं दूरदृष्टिपूर्ण प्रबंध निदेशक श्री प्रकाश चन्द जैन एवं इनके दोनों युवा सुपुत्र सर्वश्री राहुल जैन एवं रवि जैन जो कम्पनी में निदेशक हैं, ने सागर दौरे पर गये इस पत्रिका के मुख्य सम्पादक श्री उमेश दत्त शर्मा एवं कार्यकारी सम्पादक अभिषेक शर्मा से एक विशेष एवं लम्बी वार्ता के दौरान बतलाया कि हमारी कम्पनी सागर सहित मध्य भारत के कन्स्ट्रक्शन उद्योग में बढ़ती

हुई पी.वी.बी. लेमिनेटिड सेफ्टी ग्लास की मांग को पूरा करने में अपना महत्वपूर्ण योगदान दे रही है, क्योंकि हमारी कम्पनी के उत्पादन में आने से पूर्व पी.वी.बी. लेमिनेटिड सेफ्टी ग्लास की आपूर्ति बाहर से की जाती थी। श्री जैन ने अपनी बात जारी रखते हुये बतलाया कि हमारी कम्पनी द्वारा टेम्पर्ड ग्लास, इन्सुलेटिड ग्लास, ई.बी.ए. लेमिनेटिड ग्लास का निर्माण तो गत दो वर्ष से किया जा रहा है, लेकिन कुछ समय से पी.वी.बी. लेमिनेटिड सेफ्टी ग्लास की बढ़ती हुई मांग ने हमारा ध्यान इस तरफ आकर्षित किया, जिससे हमने समय की मांग के अनुरूप उक्त प्लांट को स्थापित किया है और साथ ही साथ सुरक्षित कांच की रेन्ज में एक कड़ी और जुड़ गयी है।

विदित हो, विश्व में अन्तर्राष्ट्रीय गुणवत्ता स्पेसिफिकेशन के मुताबिक पी.वी.बी. (Poly Vinyl Butyl) के प्रोसेस से बनाये जाने वाले लेमिनेटिड सेफ्टी ग्लास निःसंदेह उत्कृष्ट कोटि का विश्वस्तरीय उत्पाद माना जाता है और इसके निर्माण हेतु मंहगी मशीनरी एवं पी.वी.बी. फिल्म की आवश्यकता भी होती है।

विदित हो, प्रोसेस्ड मूल्यवर्धित फिनिशड ग्लास एवं ग्लास उत्पादों की उत्कृष्ट गुणवत्ता इस प्रमाणित तथ्य पर निर्भर करती है कि ग्लास एवं ग्लास उत्पादों का प्री-प्रोसेसिंग कार्य जैसे कांच की कटिंग, एजिंग, होलिंग, ड्रिलिंग, वॉशिंग आदि कितनी गुणवत्ता के साथ की गयी है, इसी को ध्यान

में रखते हुए उक्त कम्पनी में नामी-ग्रामी कम्पनियों की प्री-प्रोसेसिंग मशीनरी स्थापित की गयी हैं, जिसमें 'इन्टरमेक' (INTERMAC) की 10'x20' फुट साइज की सीएनसी कटिंग मशीन, 'जैड एक्स एम' (ZXM) का फोर एजर, 'जूनिया' (Juniya) की वॉशिंग मशीन आदि-आदि शामिल हैं।

यह भी विदित हो, कम्पनी में नई ऊर्जा का

संचार उस समय हुआ जब श्री प्रकाश चन्द जैन के बड़े युवा सुपुत्र श्री राहुल जैन 2013 एवं श्री रवि जैन ने 2014 में अपने पिता द्वारा स्थापित एवं विकसित कांच कारोबार में प्रवेश किया। ये दोनों युवा निदेशक जो शिक्षा में क्रमशः सी.ए. एवं एम. बी.ए. हैं, जो अपने पिता के मार्गदर्शन में श्री राहुल जैन फ़ैक्ट्री एवं कार्यालय का बखूबी संचालन कर रहे हैं, वहीं दूसरी तरफ श्री रवि जैन प्रोजेक्ट्स

सम्बन्धी सभी कार्यों का भली-भाँति निर्वहण कर रहे हैं। ये दोनों ही नवयुवक धीर-गम्भीर व्यावसायी की तरह कारोबार करते हैं और कम्पनी को शिखर की तरफ ले जाने में अपना-अपना महत्वपूर्ण योगदान दे रहे हैं। ऐसे नवयुवकों से देशीय समतल कांच उद्योग व्यापार को काफी आशाएं एवं अपेक्षाएं हैं।

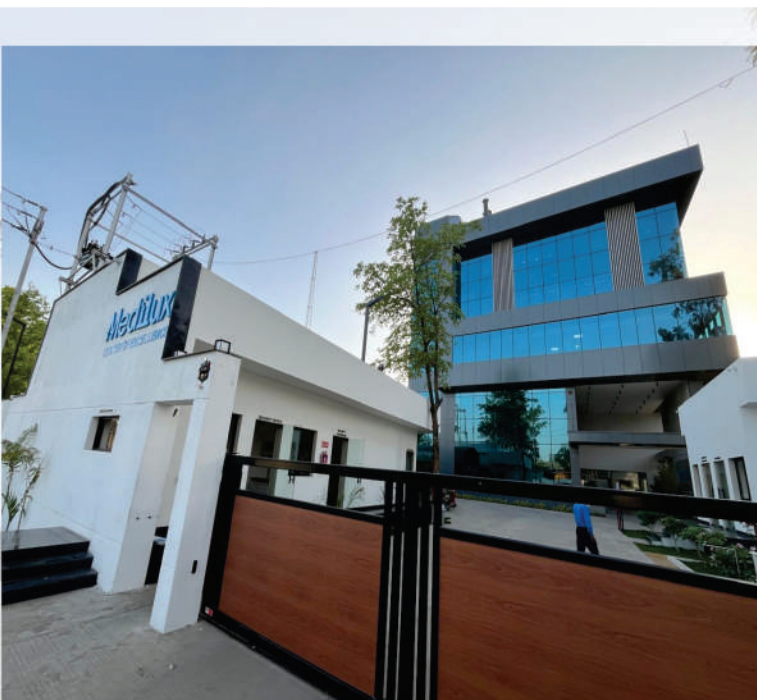

‘पारस लक्ष्मी ग्रुप’ का एक संक्षिप्त परिचय

‘पारस लक्ष्मी ग्रुप’ की नवस्थापित कॉरपोरेट कम्पनी श्री पारसनाथ ग्लास टफ प्रा० लि० की जनक विभिन्न प्रगतिशील कांच कारोबारी फर्म - मैसर्स पारस ग्लास हाउस, श्री लक्ष्मी ग्लास हाउस, लक्ष्मी ग्लास ट्रेडर्स, पारस लक्ष्मी क्रियेशन जो अपने-अपने कार्यक्षेत्र में अभूतपूर्व व्यावसायिक प्रगति करते हुए शिखर की तरफ अग्रसर हैं, जो समतल कांच के थोक कारोबार, रिटेल, मूल्यवर्धित ग्लास के साथ-साथ डिजिटल प्रिंटिंग, एल्युमिनियम एनोडाइजिंग एवं पाउडर कोटिंग के कारोबार में भी संलग्न हैं। ‘पारस लक्ष्मी ग्रुप’ के संस्थापक स्वर्गीय पहलवान रमेश कुमार जी जैन, जो पारस लक्ष्मी ग्रुप के वर्तमान शीर्ष पुरुष श्री प्रकाश चन्द जैन के जीजा एवं व्यावसायिक गुरू रहे हैं। स्वर्गीय पहलवान श्री

रमेश कुमार जी जैन एक संघर्षशील व्यक्ति थे और वे आर.एस.एस. के एक निष्ठावान सिपाही भी थे।

विदित हो, श्री प्रकाश चन्द जैन ने अपने विद्यार्थी काल से ही मात्र 15 वर्ष की अल्प आयु में अपने कारोबारी कैरियर की शुरुआत 1977 में अपने जीजा पहलवान श्री रमेश कुमार जैन (जिनका स्वर्गवास 2006 में हो चुका है) के साथ फोटो फ्रेमिंग के रूप में की थी तत्पश्चात् जीजा-साले ने मिलकर 1984 में मैसर्स पारस ग्लास हाउस की स्थापना की और इस फर्म में फोटो फ्रेमिंग के साथ-साथ कालान्तर में समतल कांच की ट्रेडिंग भी की जाने लगी। श्री जैन जो कांच कारोबार के प्रति पूरी तरह समर्पित हैं इन्होंने व्यापार के साथ-साथ अर्थशास्त्र से एम०ए० तक की शिक्षा भी प्राप्त की।

सुशिक्षित, कर्मठ एवं स्वभाव से बेहद विनम्र श्री जैन ने अपने कांच कारोबार को एक नई दिशा प्रदान करते हुए निरन्तर प्रगति के पथ पर अग्रसर किया। इन्होंने अपने कारोबार विस्तार के माध्यम से थोक ट्रेडिंग फर्म के रूप में 1996 में मैसर्स श्री लक्ष्मी ग्लास हाउस एवं दूसरी थोक ट्रेडिंग फर्म 2002 में मैसर्स लक्ष्मी ग्लास ट्रेडर्स और 2016 में पारस लक्ष्मी क्रियेशन की भी स्थापना की। विदित हो, पारस लक्ष्मी ग्रुप के संस्थापक पहलवान श्री रमेश कुमार जैन ने 1975 में जो एक नन्हा सा पौधा रोपा था, वह वर्तमान में विशाल वट वृक्ष बन गया है, जिसकी छाया में अनेकों कर्मचारी अपनी-अपनी सेवाएं प्रदान कर रोजगार प्राप्त कर रहे हैं।

नवस्थापित कम्पनी वैरायटी टफ ग्लास द्वारा आयातित, अत्याधुनिक उन्नत तकनीकीयुक्त टेम्परिंग एवं इन्सुलेटिंग ग्लास लाइन से शीघ्र ही उत्पादन प्रारम्भ

फर्म के दूरदृष्टिपूर्ण एवं सघन अनुभवी प्रबंध निदेशक श्री वर्धमान लूनिया

मध्य प्रदेश की व्यावसायिक राजधानी एवं देश की सबसे स्वच्छ शहर 'इन्दौर' की जानी-मानी पुरातन, प्रतिष्ठित, सर्वाधिक प्रगतिशील एवं उच्चस्तरीय साखयुक्त थोक एवं रिटेल समतल कांच कारोबारी फर्मों में गणना की जाने वाली फर्म मैसर्स वैरायटी ग्लास एम्पोरियम, जो गत् पांच दशक के अधिक समय से समस्त प्रकार के समतल कांच - क्लीयर एवं टिन्टेड फ्लोट ग्लास, रिफ्लेक्टिव ग्लास, थिकर ग्लास, लेक्ड ग्लास, आयातित ग्लास (फ्लुटिड ग्लास, डिजाइनर ग्लास, मिरर, आर्किटेक्चरल ग्लास हार्डवेयर) आदि के कारोबार के साथ-साथ आन्तरिक एवं बाह्य साज-सज्जा के उद्देश्यों हेतु समय की मांग के अनुरूप विभिन्न प्रकार के उच्च गुणवत्तायुक्त मूल्यवर्धित कांच एवं कांच उत्पादों की विविध श्रृंखला में - डायमण्ड की तरह क्रिस्टल क्लीयर बैवलड ग्लास, ईचड, कलर ईचड ग्लास, पॉलिस्ट ग्लास, टेक्सचर्ड ग्लास, डेकोरेटिव डिजाइनर ग्लास, डेकोरेटिव मिरर, एलईडी मिरर, ग्लास टू ग्लास, फ्यूज्ड ग्लास, एल्युमिनियम / यूपीवीसी डोर्स, विन्डोज एण्ड पार्टीशन्स, स्ट्रक्चरल ग्लेजिंग, कर्टेन-वॉलिंग (ए सी

पी) के कारोबार एवं प्रोसेसिंग में गत् 56 वर्षों से संलग्न है, ने अपने कारोबारी का भारी विस्तार करते हुये सावें इण्डस्ट्रियल एरिया, इन्दौर में एक नवोदित कम्पनी मैसर्स वैरायटी टफ ग्लास की स्थापना की है, जिसके अन्तर्गत चीन स्थित टेम्परिंग फर्नेस निर्माता कम्पनी 'जिन ग्लास' से एक अत्याधुनिक उन्नत तकनीकी युक्त टेम्परिंग लाइन एवं 'हैनजियांग' से एक इन्सुलेटिंग ग्लास लाइन भी आयात की है, जिनसे शीघ्र ही इण्टीरियर्स एवं एक्सटीरियर्स, आर्किटेक्चरल (स्ट्रक्चरल ग्लेजिंग, कर्टेन-वॉलिंग, फ्रेमलैस ग्लास डोर्स / विन्डोज / शॉप-फ्रन्ट्स, एन्ट्रेन्स-एसेम्बलीज, शॉवर-क्यूबीकल्स, स्काई लाईट्स, केनोपीज, ग्लास फर्नीचर्स आदि) एवं रेफ्रिजरेटर्स, फ्रिजर्स, इलेक्ट्रिकल-एपलाइन्सेज जैसे अन्य विविधकृत उद्देश्यों के लिये उत्कृष्ट गुणवत्तायुक्त टेम्पर्ड / हीट स्ट्रेन्थड ग्लास बनाये जा सकते हैं।

कम्पनी द्वारा स्थापित उक्त आयातित, अत्याधुनिक, उन्नत-तकनीकीयुक्त फ्लोट-टेम्परिंग फर्नेस से विशेष तौर से स्ट्रक्चरल ग्लास ग्लेजिंग, क्लेडिंग, ग्लास डोर्स / पार्टीशन्स आदि के उद्देश्यों

हेतु 4 एमएम से 19 एमएम मोटाई के 9'X16' साइजेज तक के समस्त प्रकार के समतल कांच - क्लीयर एवं टिन्टेड फ्लोट ग्लास, रिफ्लेक्टिव ग्लास, लो-ई ग्लास, पेटर्न्ड ग्लास आदि टेम्पर्ड / हीट स्ट्रेन्थड किये जा रहे हैं।

मैसर्स वैरायटी टफ ग्लास के 44 वर्षीय दूरदृष्टिपूर्ण एवं सघन अनुभवी प्रबंध निदेशक श्री वर्धमान लूनिया एवं इनकी 40 वर्षीय धर्मपत्नी श्रीमति मेधा लूनिया जो शिक्षा में क्रमशः एम.कॉम एवं एम.ए. (गोल्ड मैडेलिस्ट) हैं, ने इन्दौर दौरे पर गये इस पत्रिका के मुख्य सम्पादक श्री उमेश दत्त शर्मा एवं कार्यकारी सम्पादक अभिषेक शर्मा से बातचीत करते हुये बतलाया कि उनकी कम्पनी ने चीन स्थित टेम्परिंग फर्नेस निर्माता कम्पनी 'जिन ग्लास' से जो एक अत्याधुनिक फोर्सड-कन्वेक्शन टेम्परिंग फर्नेस आयात की है, इससे समस्त प्रकार के समतल कांच - क्लीयर एवं टिन्टेड फ्लोट, हाई परफार्मेन्स रिफ्लेक्टिव, लो-ई एवं पैटर्न्ड ग्लास विश्वस्तरीय गुणवत्ता के मापदण्डों के अनुसार टेम्पर्ड किये जा सकते हैं। इस उन्नत तकनीकीयुक्त टेम्परिंग फर्नेस से निर्मित टेम्पर्ड ग्लास की उत्कृष्ट गुणवत्ता निरन्तर बरकरार रखने हेतु इस फर्नेस का 'क्वालिटी मोनिटरिंग सिस्टम' बेजोड़ है। इस फर्नेस से लो-ई ग्लास बिना किसी ज्वलन एवं क्षति के उत्कृष्ट गुणवत्ता के साथ टेम्पर्ड किये जा सकते हैं। इस फर्नेस में प्रयुक्त एकरूपी हीटिंग एवं कूलिंग सिस्टम तथा उच्च श्रेणी के सेरेमिक रॉलर्स के कारण टेम्पर्ड होने वाले कांच की फ्लेटनेस तो बरकरार रहती ही है, साथ ही रिफ्लेक्टिव ग्लास की कोटिंग में और अधिक चमक आती है। अपनी बात जारी रखते हुये यह भी बतलाया कि हमारी नवस्थापित कम्पनी मैसर्स वैरायटी टफ ग्लास, इन्दौर सहित आस-पास के क्षेत्र की बढ़ती हुई

टेम्पर्ड ग्लास की मांग को पूरा करने में अपनी महत्वपूर्ण भूमिका निभाएगी। श्री लूनिया ने आगे बतलाया कि गत वर्षों के दौरान कन्स्ट्रक्शन उद्योग सहित देशीय कांच अर्थव्यवस्था में बड़े प्रोजेक्ट्स के अतिरिक्त मध्यम स्तर के बिल्डिंग प्रोजेक्ट्स में टेम्पर्ड ग्लास की मांग दिन-प्रतिदिन बढ़ रही है। टेम्पर्ड ग्लास की मांग में वृद्धि का एक और बड़ा कारण यह रहा कि देश में तीव्र गति से भारी संख्या में टेम्परिंग प्लान्ट्स के स्थापित होने के कारण ग्लास प्रोसेसिंग उद्योग में एक कड़ी प्रतिस्पर्धा उत्पन्न हुई, जिसके परिणामस्वरूप टेम्पर्ड ग्लास की कीमतें तुलनात्मक रूप से कम हुई और कीमतें कम होने से इसकी मांग में भी वृद्धि हुई। सादा ग्लास एवं मूल्यवर्धित टेम्पर्ड ग्लास की कीमतों में अन्तर पर्याप्त रूप से कम होने के कारण उपभोक्ताओं ने सादा ग्लास के स्थान पर टेम्पर्ड ग्लास (जो सादा ग्लास की तुलना में पांच गुणा अधिक मजबूत होता है और सुरक्षित भी होता है) का उपयोग करना शुरू कर दिया है, जिसकी वजह से टेम्पर्ड ग्लास की मांग में अभूतपूर्व वृद्धि हुई है।

यह भी विदित हो, कुछ वर्ष पूर्व से भारत

सरकार ने बिल्डिंग कन्स्ट्रक्शन उद्योग में टेम्पर्ड ग्लास का उपयोग अनिवार्य कर दिया है, लेकिन सुविज्ञों के अनुसार अभी भी टेम्पर्ड ग्लास के स्थान पर सादा ग्लास का उपयोग भी प्रचुर मात्रा में हो रहा है। अस्तु: गत वर्षों के दौरान आम जनता में भी यह जागरूकता आयी है कि बिल्डिंग में सादा कांच के स्थान पर सुरक्षित एवं मजबूत टेम्पर्ड सेफ्टी ग्लास का अधिक से अधिक उपयोग किया जाए और आम जनता के मध्य भी इस जागृति के परिणामस्वरूप भी टेम्पर्ड ग्लास की मांग में वृद्धि सम्भव हुई है।

विदित हो, बिल्डिंग स्ट्रक्चर्स में इन्सुलेटिड ग्लास का उपयोग जहां एक तरफ बिल्डिंग के अन्दर अवांछित भयंकर गर्मी को बाधित करता है, वहीं दूसरी तरफ शौर-प्रदूषण पर भी अंकुश लगता है। देश में विद्युत संकट हमेशा बना रहता है। बिल्डिंग्स में इन्सुलेटिड ग्लास के उपयोग से विद्युत बचत के माध्यम से काफी हद तक देशीय विद्युत संकट को भी कम किया जा सकता है। इन्सुलेटिड ग्लास की उक्त अन्तर्निहित विशेषताओं एवं उपयोगिताओं के कारण देशीय मार्केट में इन्सुलेटिड ग्लास के उपयोग की प्रचुर सम्भावनाएं व्याप्त हैं और दिन-प्रतिदिन, वर्ष-दर-वर्ष, इन्सुलेटिड ग्लास की मांग में अभूतपूर्व

फर्म का संक्षिप्त परिचय

मैसर्स वैरायटी ग्लास एम्पोरियम की स्थापना श्री वर्धमान लूनिया के ताऊ श्री हुकम चन्द लूनिया एवं इनके पिता श्री रविन्द्र कुमार लूनिया (जिनका अब स्वर्गवास हो चुका है) के द्वारा आज से लगभग 56 वर्ष पूर्व (1969) में जवाहर मार्ग, इन्दौर स्थित बहुत ही छोटे स्तर से 2 एम.एम. शीट ग्लास के रूप में की गयी थी, उन्होंने तीव्र गति के साथ प्रगति करते हुए अपने कांच कारोबार का समय-समय पर विस्तार भी किया, जिसमें उन्होंने 1980 में एक नई फर्म मैसर्स 'वर्धमान उद्योग' की स्थापना की, जिसके अन्तर्गत समय की मांग के अनुरूप 'मयूर मिरर' ब्राण्ड से सिल्वर कोटिड मिरर का शुभारम्भ किया और उक्त ब्राण्ड मिरर की बिक्री मध्य प्रदेश, आज के छत्तीसगढ़ एवं राजस्थान के समतल कांच मार्केट में एक बड़े स्तर

पर बिक्री किया। एक समय में 'मयूर' ब्राण्ड मिरर की जबरदस्त मांग बनी रहती थी क्योंकि क्वालिटी के दृष्टिकोण से 'मयूर' ब्राण्ड मिरर अपनी कसौटी पर खरा उतरता था। तत्पश्चात् अपने कारोबार का एक बार पुनः विस्तार करते हुये 1997 में एक और नई फर्म मैसर्स अक्षय टफण्ड इंटरनेशनल की भी स्थापना की, जिसके अन्तर्गत ऑटोमोटिव उद्देश्यों के लिये टफण्ड ग्लास के निर्माण का भी शुभारम्भ किया था।

श्री वर्धमान लूनिया ने 2002 में अपने ताऊ जी हुकम चन्द लूनिया एवं पिता श्री रविन्द्र कुमार लूनिया द्वारा स्थापित एवं विकसित कांच कारोबार में प्रवेश किया और जब से लेकर आज तक अपने कारोबार के प्रति पूर्ण रूप से समर्पित श्री वर्धमान लूनिया ने भी अपने कारोबार को नित नयी दिशा एवं दशा प्रदान

वृद्धि हो रही है। इन्हीं सम्भावनाओं के मद्देनजर हमारी कम्पनी ने टेम्पर्ड ग्लास के साथ-साथ इन्सुलेटिड ग्लास निर्माण का भी शुभारम्भ किया है।

विदित हो, प्रोसेस्ड मूल्यवर्धित फिनिशड ग्लास एवं ग्लास उत्पादों की उत्कृष्ट गुणवत्ता प्रमाणित तथ्य पर निर्भर करती है, कि ग्लास एवं ग्लास उत्पादों की प्री-प्रोसेसिंग कार्य जैसे कांच की कटिंग, एजिंग, होलिंग-ड्रिलिंग, वाशिंग आदि कितनी गुणवत्ता के साथ की गयी है। समतल कांच एवं प्रोसेसिंग से जुड़े सभी व्यापारी भली-भांति जानते हैं, कि कांच कभी बीच में से नहीं टूटता, जब भी टूटेगा ऐजिंग/किनारों से टूटेगा। इसी प्रकार कांच की होलिंग/ड्रिलिंग, वाशिंग के लिए प्री-प्रोसेसिंग मशीनरी का उन्नत तकनीकीयुक्त होना अति आवश्यक है, इसी पर टेम्पर्ड ग्लास की गुणवत्ता निर्भर करती है, जो उक्त कम्पनी में उत्पादन के शुभारम्भ से ही स्थापित है।

कम्पनी के पास प्री प्रोसेसिंग निर्माण सुविधाएं :

- Cutting Machine - Intermac 10x20
- Double Edger - Lifeng
- Washing Machine - Juniya
- Polishing - ZXm

करते हुए उक्त कांच कारोबार को शिखर की तरफ ले जाने में पूरी तरह प्रयासरत हैं, इन्होंने भी अपने कारोबार को मांग के अनुरूप सरल एवं सफल बनाने के उद्देश्यों हेतु 2005 में ग्लास बैण्डिंग मशीन एवं 2020 में ईवीए / फैंब्रिक लेमिनेटिड मशीन भी स्थापित की।

मैसर्स वैरायटी ग्लास एम्पोरियम वर्तमान में फ्लोट ग्लास के निर्माण में संलग्न कम्पनियों - सेन्ट-गोबेन इण्डिया प्रा० लि०, असाही इण्डिया ग्लास लि०, गुजरात गार्जियन लि०, सिस्केम फ्लेट ग्लास इण्डिया प्रा० लि० एवं आर्किटेक्चुरल हार्डवेयर में ओजोन ओवरसीज लि०, क्लोजमा, याले आदि के मैटेरियल में बतौर थोक विक्रेता एवं स्टॉकिस्ट्स के रूप में कार्यरत है।

नव निर्वाचित सदस्यों का एक सामूहिक चित्रांकन

अम्बाशक्ति ग्लास इण्डिया प्रा० लि०

कुमायूँ, गढ़वाल चैंबर ऑफ कॉमर्स एण्ड इण्डस्ट्री की 37वीं वार्षिक आम सभा के अवसर पर 2025-26 की नई कार्यकारिणी का गठन किया गया

रुद्रपुर (उत्तराखण्ड) स्थित मैसर्स अम्बाशक्ति ग्लास इण्डिया प्रा० लि०, जो अत्याधुनिक उन्नत तकनीकीयुक्त निर्माण सुविधाओं से युक्त विश्वस्तरीय टेम्पर्ड, इन्सुलेटिड एवं लेमिनेटिड ग्लास में लगभग नौ वर्षों से संलग्न रहते हुये प्रगति के पथ पर अग्रसर है और कम्पनी ने अपने कारोबार का समय-समय पर विस्तार भी किया है। उक्त कम्पनी के प्रबंध निदेशक श्री संजय अदलखा ने काशीपुर में आयोजित कुमाऊँ-गढ़वाल चैंबर ऑफ कॉमर्स एण्ड इण्डस्ट्री की 37वीं वार्षिक आम सभा में भाग लिया। इस दौरान नई कार्यकारिणी कमेटी के निर्वाचन के अवसर पर सभी पदाधिकारी एवं सदस्यों का निर्वाचन हुआ, जिसमें मैसर्स अम्बाशक्ति ग्लास इण्डिया प्रा० लि० के प्रबन्ध निदेशक श्री संजय अदलखा को भी 2025-26 की नई कार्यकारिणी में निर्विरोध सदस्य चुना गया। 28 जून, 2025 को कुमायूँ-गढ़वाल चेम्बर ऑफ कॉमर्स एण्ड इण्डस्ट्री की वार्षिक आम सभा चेम्बर हाउस, काशीपुर में सम्पन्न हुई। कार्यक्रम का

संचालन चेम्बर के महासचिव श्री आर. के. गुप्ता द्वारा किया गया। ज्ञातव्य हो, कि चेम्बर की कार्यकारिणी का कार्यकाल 1 जुलाई से 30 जून (एक वर्ष) तक होता है।

चेम्बर ने कई बार उत्तराखण्ड सरकार, पावर कॉर्पोरेशन, श्रम विभाग, पुलिस प्रशासन, राजस्व विभाग, पर्यावरण नियंत्रण बोर्ड, और अन्य सरकारी एजेंसियों के साथ मीटिंग्स की। इनमें मैथनॉल मुद्दे, GST, श्रम निरीक्षण, पर्यावरण अनुपालन, और उद्योगों से जुड़ी समस्याओं पर चर्चा हुई।

विभिन्न विषयों जैसे EPR / प्लास्टिक कचरा प्रबंधन, जल संसाधन अनुपालन, GST में बदलाव, उत्पाद गुणवत्ता मानक, साइबर सुरक्षा, ऊर्जा दक्षता, निर्यात प्रोत्साहन, और MSME से जुड़े मुद्दों पर वेबिनार और सेमिनार आयोजित किए गए।

उद्योग और शिक्षा जगत के बीच संवाद के लिए इण्डस्ट्री-अकादमिया डायलॉग आयोजित किया गया, जिसमें कॉलेज और उद्योग प्रतिनिधियों ने भाग

लिया। युवाओं के लिए रोजगार मेले, प्रशिक्षण कार्यक्रम, और प्रधानमंत्री अपरेंटिस मेले आयोजित किए गए, जिनसे युवाओं को रोजगार के अवसर प्राप्त हुए। स्टार्टअप जागरूकता सेमिनार, इनोवेशन फेस्टिवल और उद्यमिता परिस्थिति की तंत्र को बढ़ावा देने के लिए कई कार्यक्रम आयोजित किए गए।

बजट सत्र, सरकारी योजनाओं, नीतिगत सुझाव, और उद्योग हितैषी नीतियों पर चर्चा के लिए कई कार्यक्रम आयोजित किए गए। इनमें प्रधानमंत्री, वित्त मंत्री, और अन्य वरिष्ठ अधिकारियों के साथ वर्चुअल और फिजिकल बैठकें शामिल थीं। उद्योगों द्वारा CSR गतिविधियों पर बैठकें और समुदाय कार्यक्रम आयोजित किए गए। निर्यात प्रोत्साहन, MSME आउटरीच, और RAMP योजना पर कार्यशालाएं आयोजित की गईं तथा मशीन टूल्स एक्सपो, ऑटोमेशन प्रदर्शनी, और तकनीकी मेले आयोजित किए गए, जिनमें उद्योग जगत के नवीनतम उत्पाद और तकनीक प्रदर्शित की गईं।

ANODISING & POWDER COATING ALUMINIUM PLANT

अग्रवाल ग्लास इण्डस्ट्रीज द्वारा अत्याधुनिक उन्नत तकनीकीयुक्त होरीजोन्टल टेम्परिंग लाइन की स्थापना के माध्यम से कारोबार विस्तार

फर्म के युवा एवं गतिशील प्रोपराइटर श्री वरूण अग्रवाल एवं इनकी धर्मपत्नी श्रीमति चेतना अग्रवाल साथ में इस पत्रिका के उप सम्पादक रमेश चन्द्र शर्मा

लुधियाना, पंजाब की जानी-मानी साखयुक्त एवं लब्ध प्रतिष्ठित थोक एवं रिटेल कांच कारोबारी फर्मों में गणना की जाने वाली फर्म मैसर्स अग्रवाल ग्लास हाउस जो लगभग 50 वर्षों से समस्त प्रकार के समतल कांच क्लीयर एवं टिन्टेड फ्लोट ग्लास, रिफ्लेक्टिव ग्लास, मिरर, पैटर्न ग्लास, लेक्ड ग्लास, टफण्ड ग्लास एवं विभिन्न प्रकार के मूल्यवर्धित प्रोसेस्ड ग्लास एवं ग्लास उत्पादों - डायमण्ड की तरह क्रिस्टल क्लीयर बैवलड ग्लास, ईचड / एनग्रेड ग्लास, स्टेण्ड ग्लास, अभिनव डेकोरेटिव डिजाइनर ग्लासेज, फिगर्ड, मिरर, फ्रेमलेस ग्लास डोर्स आदि के कारोबार एवं प्रोसेसिंग में संलग्न है, उक्त फर्म न केवल लुधियाना बल्कि समस्त पंजाब की सर्वाधिक प्रगतिशील कांच कारोबारी फर्मों में से एक है, ने अपने कारोबार का भारी विस्तार करते हुए एक नई कम्पनी मैसर्स अग्रवाल ग्लास इण्डस्ट्रीज की स्थापना की है, जिसके अन्तर्गत देश में प्लान्ट मशीनरी के क्षेत्र में प्रख्यात ग्लास मशीनरी निर्माता एवं विक्रेता कम्पनी 'भामरा इन्टरनेशनल' से एक अत्याधुनिक उन्नत तकनीकीयुक्त फ्लोट टेम्परिंग

लाइन की स्थापना की है, जिससे अक्टूबर 2024 से एक्सटीरियर्स एवं इन्टीरियर्स आर्किटेक्चुरल स्ट्रक्चरल ग्लेजिंग, कर्टेन वॉलिंग, फ्रेमलैस ग्लास, डोर्स / विन्डोज / शॉप फ्रन्ट्स, ग्लास फनीचर जैसे अन्य विविधकृत उद्देश्यों हेतु 'VC TUFF' ब्राण्ड से उत्कृष्ट गुणवत्तायुक्त टेम्पर्ड / हीट स्ट्रेन्थड ग्लास बनाये जा रहे हैं।

कम्पनी द्वारा स्थापित अत्याधुनिक उन्नत तकनीकीयुक्त फ्लोट टेम्परिंग फर्नेस से विशेष तौर पर स्ट्रक्चरल ग्लास ग्लेजिंग, क्लेडिंग, ग्लास डोर्स, पार्टीशन्स आदि के उद्देश्यों हेतु 4 एम.एम. से 19 एम.एम. मोटाई के 2000x3660 एम.एम. साइजेज तक के समस्त प्रकार के समतल कांच क्लीयर एवं टिन्टेड फ्लोट ग्लास आदि टेम्पर्ड / हीट स्ट्रेन्थड किये जा सकते हैं।

विदित हो, गत 6 वर्षों के दौरान देश में टफण्ड ग्लास की मांग में तीव्र गति से वृद्धि हुई है / हो रही है, क्योंकि अभी टफण्ड ग्लास की कीमतें कच्चे ग्लास की तुलना में बहुत ज्यादा नहीं है। जबकि टफण्ड ग्लास कच्चे ग्लास से चार गुना

सुरक्षित है। भारत सरकार द्वारा हाई-राइज बिल्डिंग में यदि टफण्ड / इन्सुलेटिड / लेमिनेटिड ग्लास का उपयोग अनिवार्य कर दिया जाता है तो निकट भविष्य में सुरक्षित कांच की मांग में और अधिक वृद्धि होगी।

मैसर्स अग्रवाल ग्लास इण्डस्ट्रीज के युवा प्रोपराइटर श्री वरूण अग्रवाल जो एक अनुभवी एवं दूरदृष्टिपूर्ण व्यापारी हैं, ने लुधियाना दौरे पर गये इस पत्रिका के उप सम्पादक रमेश चन्द्र शर्मा से औपचारिक बातचीत करते हुये बतलाया कि उनकी कम्पनी ने टेम्परिंग फर्नेस स्थापित की है उससे सभी प्रकार के समतल कांच क्लीयर एवं टिन्टेड फ्लोट ग्लास, हाई परफॉरमेंस रिफ्लेक्टिव, शॉवर क्यूवीकल्स एवं पैटर्न ग्लास आदि विश्वस्तरीय गुणवत्ता के मापदण्डों के अनुसार टेम्पर्ड किये जा सकते हैं। आगे अपनी बात जारी रखते हुए श्री वरूण अग्रवाल ने यह भी बतलाया कि हमारी कम्पनी पंजाब एवं आस-पास के सीमावर्ती राज्यों की बढ़ती हुई सुरक्षित कांच की मांग को पूरा करते हुए अपना महत्वपूर्ण योगदान दे रही है। विदित हो, अग्रवाल

ग्लास इण्डस्ट्रीज की प्रगति में श्रीमति चेतना अग्रवाल भी अपना अमूल्य योगदान दे रही हैं। श्रीमति चेतना अग्रवाल श्री वरूण अग्रवाल की धर्मपत्नी हैं, जो सुशिक्षित होने के साथ-साथ स्वभाव से बेहद विनम्र एवं व्यवहार कुशल भी हैं।

यह भी विदित हो, प्रोसेस्ड मूल्यवर्धित फिनिश ग्लास एवं ग्लास उत्पादों की उत्कृष्ट गुणवत्ता इस प्रमाणित तथ्य पर निर्भर करती है कि ग्लास उत्पादों का प्री-प्रोसेसिंग कार्य जैसे कांच की कटिंग, एजिंग, होलिंग, ड्रिलिंग, वॉशिंग कितनी गुणवत्ता के साथ की गई है। समस्त कांच एवं प्रोसेसिंग से जुड़े सभी व्यापारी भली-भांति जानते हैं कि कांच कभी भी बीच में से नहीं टूटता है, जब भी

कम्पनी द्वारा स्थापित टेम्परिंग ग्लास लाइन का एक चित्र

टूटेगा, एजिंग / किनारों से ही टूटेगा। इसी प्रकार कांच की होलिंग / ड्रिलिंग / वॉशिंग के लिए प्री-प्रोसेसिंग मशीनरी का उन्नत तकनीकीयुक्त होना

अति आवश्यक है, इसी पर टेम्पर्ड ग्लास की गुणवत्ता निर्भर करती है। उक्त प्री-प्रोसेसिंग मशीनरी कम्पनी में उत्पादन के शुभारम्भ से ही स्थापित हैं।

कम्पनी का संक्षिप्त परिचय

मैसर्स अग्रवाल ग्लास इण्डस्ट्रीज के युवा एवं गतिशील प्रोपराइटर श्री वरूण अग्रवाल का कांच कारोबार में भले ही अनुभव थोड़ा कम है लेकिन इनके पिताश्री अग्रवाल ग्लास हाउस के संस्थापक एवं प्रोपराइटर श्री नरेश अग्रवाल (अब स्वर्गीय) ने लगभग 50 वर्षों तक ग्लास उद्योग-व्यापार की सेवा

में संलग्न रहते हुये उन्होंने अपने कारोबारी कार्यकाल में अनेकों उपलब्धियां हासिल कीं, जो हर व्यापारी के लिए जीवनपर्यन्त भी नहीं मिल पातीं। श्री नरेश अग्रवाल एक साहसी एवं कर्मठ व्यापारी थे। कांच कारोबार में अग्रवाल फैमिली का आज भी दबदबा बना हुआ है और अपने पिता द्वारा स्थापित

कारोबार का विस्तार करते हुए श्री वरूण अग्रवाल ने अग्रवाल ग्लास इण्डस्ट्रीज को स्थापित किया है और अपने स्वर्गीय पिता श्री नरेश अग्रवाल का नाम रोशन किया है।

एम-फ्यूजन ग्लास इन्टीरियर सौन्दर्यकरण से ओत-प्रोत भव्य एवं स्पेशियस मूल्यवर्धित ग्लास शो-रूम देखने एवं दिखाने लायक

सघन अनुभवी एवं दूरदृष्टिपूर्ण संस्थापक श्रीमति मीनाक्षी गांधी, श्री मुकेश गांधी एवं इनके युवा सुपुत्र मोहक गांधी, श्री मोनित गांधी

कानपुर (उत्तर प्रदेश) स्थित मैसर्स एम-फ्यूजन ग्लास इन्टीरियर द्वारा 'सौन्दर्यकरण' से ओत-प्रोत भव्य एवं स्पेशियस मूल्यवर्धित ग्लास शो-रूम देखने एवं दिखाने लायक है, जिसकी 'छटा' देखते ही बनती है। उक्त शो-रूम में समस्त प्रकार के मूल्यवर्धित ग्लास, डेकोरेटिव मिरर, डिजाइनर मिरर, एन्टिक मिरर, कलर्ड मिरर, एल ई डी मिरर, टू डी, थ्री डी मिरर, एस.एस. मिरर, मेटल फ्रेम मिरर, आर्ट वर्क, अल्ट्रा क्लीयर मिरर, एल्युमिनियम फ्रेम मिरर, डेकोरेटिव ग्लास, डेकोरेटिव मॉडर्न ग्लास कन्सोल्स, ग्लास ब्रिक्स, फैब्रिक ग्लास, फ्लुटिड ग्लास, एक्स्ट्रा क्लीयर ग्लास, पैटर्न ग्लास आदि की विस्तृत रेन्ज का इस प्रकार डिस्प्ले किया गया है कि इनके मूल्यवान ग्राहक / आर्किटेक्ट्स एक ही नजर में शीघ्र ही उत्पाद को पसन्द कर लेते हैं, जिनको अपने कोठी/बंगले, होटल्स, कॉमर्शियल इन्टीरियर्स, शो-रूम इत्यादि में आन्तरिक एवं बाह्य साज-सज्जा हेतु उपयोग करने होते हैं।

यह भी एक सच है

विभिन्न प्रकार के बिल्डिंग मेटेरियल्स में कांच ही एकमात्र ऐसा अद्भुत एवं अद्वितीय मेटेरियल है, जो पारदर्शिता, लाईट ट्रान्समिशन

स्वच्छता एवं डायमण्ड की तरह चकाचौंध कर देने वाली चमक आदि-आदि अपनी अन्तर्निहित विशिष्ट विशेषताओं के कारण एक कोम्बीनेशन के रूप में एक साथ ही अपने में महती 'उपयोगिता' एवं सौन्दर्यबोध' का एक यूनिक संगम समेटे हुए है। 'कांच' का कोई विकल्प नहीं है। यह 'गंगाजल' की तरह से इतना 'स्वच्छ' एवं पारदर्शी है कि कांच की कितनी भी मोटी शीट के नीचे यदि एक बाल भी रख दिया जाए तो वो भी साफ-साफ दिखायी पड़ता है। आधुनिक बिल्डिंग्स अथवा किसी भी प्रकार के वाहन में 'उपयोगिता' अथवा 'सौंदर्य बोध' के दृष्टिकोण से कांच ग्लेजिंग शारीरिक त्वचा की तरह एक ऐसी अपरिहार्य आवश्यकता बन चुकी है, जिसका कोई विकल्प नहीं है। बगैर त्वचा के शरीर की क्या दुर्गति होगी, इसकी कल्पना मात्र से आप बदहवास रूप से रोमांचित हो जायेंगे, ठीक इसी प्रकार यदि आधुनिक बिल्डिंग्स अथवा वाहन की

मूल्यवर्धित ग्लास शोरूम का एक चित्रांकन

त्वचा कहे जाने वाले कांच की ग्लेजिंग अथवा परत नहीं चढ़ायी जाए तो ये आदि मानव की तरह निर्वस्त्र एवं नंगी रह जायेंगी। 'त्वचा' एवं वस्त्र' शरीर की न केवल रक्षा करते हैं, बल्कि उसके 'सौन्दर्य-बोध' में भी चार चांद लगाते हैं, ठीक वैसे ही बिल्डिंग अथवा वाहन कितना भी कीमती क्यों न हो, जब तक उसे कांच-ग्लेजिंग अथवा कांच रूपी वस्त्रों का आवरण नहीं पहना दिया जाता है, तब तक वे आदि मानव की तरह न केवल निर्वस्त्र अथवा नंगी की नंगी रह जायेंगी, बल्कि पर्यावरणीय दृष्टिकोण से उनका रक्षण भी नहीं हो पायेगा। अस्तु कांच की अपनी एक बेजोड़ अद्भुत चमत्कारिक दुनिया है, जिसमें कानपुर, उत्तर प्रदेश स्थित मैसर्स एम-फ्यूजन ग्लास इन्टीरियर का भी एक ऐसा कलात्मक ब्राण्डेड नाम शामिल है, जहां एक ही छत के नीचे न केवल समस्त प्रकार के समतल कांच, अभिनव डेकोरेटिव डिजाइनर कांच सहित विभिन्न प्रकार के अन्य मूल्यवर्धित प्रोसेस्ड कांच एवं कांच उत्पादों की एक बृहद श्रंखला सदैव उपलब्ध रहती है, साथ ही साथ फर्म के मूल्यवान ग्राहकों को ग्लेजिंग कॉन्सेप्ट से लेकर इन्स्टॉलेशन तक की सभी प्रकार की समस्याओं का निदान किया जाता है।

मैसर्स एम-फ्यूजन ग्लास इन्टीरियर आन्तरिक एवं बाह्य साज-सज्जा के उद्देश्यों हेतु विभिन्न प्रकार के उत्कृष्ट गुणवत्तायुक्त मूल्यवर्धित कलात्मक कांच उत्पादों - डायमण्ड की तरह क्रिस्टल क्लियर बैक्लड ग्लास, पॉलिशड ग्लास, स्टेन्ड ग्लास, थिकर ग्लास, एल्युमिनियम, स्लिम प्रोफाइल, यूपीवीसी एवं एल्युमिनियम डोर्स/विन्डोज, यू.वी. प्रिंटिंग, ग्लास मिरर, एल.ई.डी. मिरर, डिजाइनर मिरर, फ्लूटेड ग्लास, कर्टेन-वॉलिंग, बैण्ड ग्लास, टेक्सचर्ड ग्लास, ग्लास पिलर्स, बुलेट रेजिस्टेन्स ग्लास, आर्किटेक्चुरल टफण्ड ग्लास, इन्सुलेटिड ग्लास, लेमिनेटिड ग्लास, फ्रेमलैस ग्लास फर्नीचर्स, आर्किटेक्चुरल ग्लास हार्डवेयर (पैच फिटिंग्स) ग्लास सिलीकॉन एवं समस्त प्रकार

के घरेलू एवं आयातित ग्लास के उच्च स्तरीय कारोबार में डीलिंग करती है।

मैसर्स एम-फ्यूजन ग्लास इन्टीरियर की सघन अनुभवी एवं दूरदृष्टिपूर्ण संस्थापक श्रीमति मीनाक्षी गांधी ने कानपुर दौरे पर गये इस पत्रिका के मुख्य सम्पादक श्री उमेश दत्त शर्मा एवं कार्यकारी सम्पादक अभिषेक शर्मा को बातचीत के दौरान बतलाया कि हमने समय के अनुरूप जो यह मूल्यवर्धित ग्लास शो-रूम स्थापित किया है। ठीक इसी प्रकार हमने कुछ समय पूर्व में एल्युमिनियम एवं यूपीवीसी डोर्स / विन्डोज / पार्टीशन्स की प्रोसेसिंग का भी शुभारम्भ किया, जिसमें अत्याधुनिक, उन्नत तकनीकीयुक्त मशीनें स्थापित की गयीं, जो उच्च गुणवत्तायुक्त डोर्स/विन्डोज के कार्य में संलग्न हैं।

श्रीमति मीनाक्षी गांधी ने 2004 में अपने कारोबारी कैरियर की शुरुआत ग्लास डिजाइनिंग के रूप में बहुत ही छोटे स्तर से की क्योंकि श्रीमति गांधी को डिजाइनिंग के कार्य में अपनी स्वयं की रुचि प्रारम्भ से ही थी। कालान्तर में इनका डिजाइनिंग कारोबार शनैः-शनैः बढ़ता गया और स्वयं की रुचि बलवती होने के कारण कुछ ही समय में इनको इनके काम की पहचान मिलने लगी,

जिससे इनका डिजाइनिंग कारोबार प्रगति के पथ पर सरपट दौड़ने लगा। श्रीमति मीनाक्षी गांधी के बारे में जितना भी कहा जाये उतना कम है, क्योंकि इन्होंने अपने बलबूते पर ही इस कारोबार को खड़ा किया है। जब किसी कारोबार को बिना पूंजी के अथवा अत्यल्प पूंजी के साथ प्रारम्भ किया जाता है, तो उसमें एड़ी से चोटी तक का जोर तो लगाना ही पड़ता है, वह सब खूबी श्रीमति गांधी में हमने बातचीत करते समय ही महसूस कर ली। श्रीमति गांधी ने शुरुआत में तो अकेले ही उक्त कांच कारोबार का शुभारम्भ किया, लेकिन वर्तमान में इनके पति श्री मुकेश गांधी भी इसी कारोबार में कार्यरत हैं, जो पहले किसी अन्य व्यवसाय से जुड़े हुये थे और अब तो श्रीमति मीनाक्षी गांधी के द्वारा स्थापित कांच कारोबार में इनके दोनों युवा सुपुत्र 29 वर्षीय आर्किटेक्ट मोहक गांधी जिन्होंने शारदा युनिवर्सिटी (नोएडा) से बेचलर ऑफ आर्किटेक्ट की डिग्री प्राप्त की है एवं 28 वर्षीय श्री मोनित गांधी जिन्होंने क्रिस्ट यूनिवर्सिटी (बेंगलुरु) से बी. बी.ए. की डिग्री प्राप्त की है और अपनी शैक्षिकता के बल पर अपने कांच कारोबार को शिखर की तरफ ले जाने में अपना-अपना महत्वपूर्ण योगदान दे रहे हैं।

आनन्देश्वर ग्लास हाउस द्वारा डिजिटल प्रिंटिंग मशीन की स्थापना के माध्यम से कारोबार विस्तार

फर्म के प्रबन्ध भागीदार श्री आशीष भार्गव एवं श्री रक्षित भार्गव

कानपुर (उत्तर प्रदेश) की पुरातन, प्रतिष्ठित, थोक एवं रिटेल समतल कांच कारोबारी फर्म मैसर्स आनन्देश्वर ग्लास हाउस (पूर्व नाम बाबूलाल भार्गव एण्ड सन्स), जो समस्त प्रकार के समतल कांच-क्लीयर एवं टिन्टेड फ्लोट ग्लास, रिफ्लेक्टिव ग्लास, लेक्ड ग्लास, मिरर, थिकर ग्लास, फिगर्ड ग्लास, आयातित ग्लास - फ्लूटिड ग्लास, डिजाईनर ग्लास, डिजाईनर मिरर आदि के थोक एवं रिटेल कांच कारोबार में गत 15 वर्षों से कानपुर के समतल कांच मार्केट में अपनी उच्च स्तरीय व्यावसायिक शैली के अनुरूप कारोबार में संलग्न है, ने अपने कारोबार का और अधिक विस्तार करते हुये नई दिल्ली स्थित मैसर्स टू कलर सॉल्युशन्स इण्डिया प्रा0 लि0 से एक अत्याधुनिक उन्नत तकनीकीयुक्त डिजिटल प्रिंटिंग मशीन स्थापित की है जिससे मार्च, 2025 से 4'x8' साइजेज तक के किसी भी समतल सरफेस वाले मैटेरियल जैसे - कांच, एक्रेलिक, फ्लेक्सी ग्लास,

सेरेमिक टाइल्स, एल्युमिनियम स्टील पैनल, फोमबोर्ड, एम.डी.एफ., पी.वी.सी. वुड, के.टी.बोर्ड, डब्लू.पी.सी. आदि- आदि परपूर्ण एक्ज्यूरेसी के साथ चित्रांकन की हू-ब-हू डिजिटल प्रिंटिंग की जा रही है।

मैसर्स आनन्देश्वर ग्लास हाउस के 40 वर्षीय प्रबन्ध भागीदार श्री आशीष भार्गव एवं इनके 32 वर्षीय अनुज श्री रक्षित भार्गव जो सुशिक्षित हैं, ये ऐसे दूरदृष्टिपूर्ण, प्रगतिशील विचारों वाले युवा उद्यमी / व्यावसायी हैं, जिन्होंने अपने कारोबार का समय-समय पर विस्तार किया है। कानपुर दौरे पर गये इस पत्रिका के मुख्य सम्पादक श्री उमेश दत्त शर्मा एवं कार्यकारी सम्पादक अभिषेक शर्मा से एक अनौपचारिक मुलाकात के दौरान श्री आशीष भार्गव ने बतलाया कि हमने समय के अनुरूप अपने कारोबार का आधुनिकीकरण एवं विस्तार किया है। इन्होंने 2015 में एक अपनी सहयोगी फर्म के रूप में

मैसर्स शिव ग्लास हार्डवेयर की स्थापना की, जिसके अन्तर्गत आर्किटेक्चरल ग्लास हार्डवेयर की डीलिंग की जाती है, तत्पश्चात् 2022 में एक और सहयोगी फर्म मैसर्स आंजनेय ग्लास वर्क्स की भी स्थापना की, जिसके अन्तर्गत समस्त प्रकार के मूल्यवर्धित ग्लास की प्रोसेसिंग का कार्य किया जाता है। इस फर्म में ऑटोमैटिक स्ट्रेट लाइन बैब्लिंग, पॉलिशिंग, फ्रोस्टिंग मशीन स्थापित की गयी हैं, जो उच्च गुणवत्तायुक्त डायमण्ड की तरह क्रिस्टल क्लीयर बैब्लड ग्लास, पॉलिस्ट ग्लास एवं उत्तम ग्रेड के फ्रोस्टेड ग्लास की प्रोसेसिंग में संलग्न है।

विदित हो, वर्तमान में उक्त फर्म अपने-अपने कारोबार के क्षेत्र में कानपुर सहित आस-पास के शहरों की बढ़ती हुई डिजिटल प्रिंटिंग, पॉलिस्ट, बैब्लड ग्लास एवं फ्रोस्टेड ग्लास की मांग को पूरा करने में अपना-अपना महत्वपूर्ण योगदान दे रही हैं।

फर्म का संक्षिप्त परिचय

मैसर्स आनन्देश्वर ग्लास हाउस का तो कांच कारोबार मात्र 15 वर्षीय है लेकिन उक्त फर्म की जनक मैसर्स बाबूलाल भार्गव एण्ड सन्स की स्थापना

आज से लगभग 101 वर्ष पूर्व 1924 में इनके परदादा श्री बाबूलाल भार्गव एवं दादा श्री मुन्नालाल भार्गव (अब स्वर्गीय) के द्वारा बहुत ही छोटे स्तर से 2 एम.

एम. शीट ग्लास एवं फोटो फ्रेमिंग के रूप में की गयी थी। कालान्तर में उक्त फर्म द्वारा समस्त प्रकार के समतल कांच- शीट / फ्लोट ग्लास में भी डीलिंग की

जाने लगी। तत्पश्चात् 1985 से श्री आशीष भार्गव के पिता श्री शिव नारायण भार्गव (जिनका 2019 में स्वर्गवास हो चुका है) ने अपने पिताश्री के साथ व्यापार में सहयोग करना प्रारम्भ कर दिया था और इन्होंने अपने पिता श्री बाबूलाल भार्गव से वे सभी व्यापारिक गुण विरासत में प्राप्त कर लिये, जो उनमें विद्यमान थे और उनके स्वर्ग सिंधारने के पश्चात् काफी लम्बे समय तक उन्होंने स्वतन्त्र रूप से कांच-कारोबार का संचालन भी किया।

विदित हो, इस पत्रिका के मुख्य सम्पादक श्री उमेश दत्त शर्मा उन पुरानी बातों को आज भी नहीं भूल पाते हैं कि एक वर्ष में चार बार श्री शिव नारायण भार्गव से चौक, कानपुर स्थित इनके पुराने प्रतिष्ठान मैसर्स बाबूलाल भार्गव एण्ड सन्स में मुलाकात होती थी और कानपुर पहुंचकर पहले दिन

ही मिलना होता था और ये सिलसिला लम्बे समय तक चलता रहा और हमारी पत्रिका में भी लगातार विज्ञापन देते रहे और इस पत्रिका के मुख्य सम्पादक बतलाते हैं कि पहले दिन ही मैसर्स बाबूलाल भार्गव एण्ड सन्स से ही मिलता था। कुछ समय के लिये हमारा और इस फर्म का मिलने का क्रम टूट गया, क्योंकि फर्म का स्थानान्तरण हो गया था और काफी लम्बे समय के पश्चात् अब फिर से हमारी मुलाकात हो पाई है। श्री शिव नारायण भार्गव के दोनों पुत्र अपने पिता से भी एक कदम आगे बढ़कर गुणवान एवं अत्यन्त व्यवहार कुशल हैं और ये कहावत भी इन्होंने सिद्ध कर दी है कि “आम के वृक्ष पर आम ही लगते हैं, बबूल नहीं”। मैसर्स बाबूलाल भार्गव एण्ड सन्स का चार पीढ़ियों वाला जीता-जागता

कारोबार खूब फल-फूल रहा है। चौथी पीढ़ी के रूप में अपने पूर्वजों की तरह श्री आशीष भार्गव एवं रक्षित भार्गव अपने कांच-कारोबार को शिखर की तरफ ले जाने में पूरी तरह प्रयासरत हैं। ऐसे नवयुवकों से देशीय समतल कांच उद्योग व्यापार को काफी आशाएं एवं अपेक्षाएं हैं।

मैसर्स आनन्देश्वर ग्लास हाउस देश में समतल कांच के निर्माण में संलग्न कम्पनियां मैसर्स सेन्ट-गोबेन इण्डिया प्रा0 लि0, असाही इण्डिया ग्लास लि0, गोल्ड प्लस ग्लास इण्डस्ट्री लि0, गुजरात गार्जियन लि0, गोपाल ग्लास वर्क्स लि0, सुमंगल ग्लास इण्डस्ट्री प्रा0 लि0 के मैटिरियल में बतौर थोक विक्रेता एवं स्टॉकिस्ट्स के रूप में कार्यरत हैं।

॥ जय श्री कृष्ण ॥

॥ ओम शांति ॥

शिकायत छोड़िए, भगवान का शुक्रिया अदा कीजिए
आपके पास जितना है, न जाने कितनों के पास उतना भी नहीं है।

महाबली ग्लासेज प्रा0 लि0 द्वारा ग्रीनप्लाइ एम डी एफ के कारोबार का भी शुभारम्भ

युगदृष्टा, युग पुरुष एवं महान सन्त बाबा गुरु गोरखनाथ के नाम से विख्यात गोरखपुर, उत्तर प्रदेश की उन कतिपय चुनिन्दा, सर्वाधिक सुस्थापित एवं अग्रणी समतल थोक कांच कारोबारी फर्मों में गणना की जाने वाली फर्म- मैसर्स महाबली ग्लासेज एवं प्रगति इन्टीरियर, जो लगभग साढ़े पांच वर्ष से आयातित एवं देश में निर्मित समस्त प्रकार के समतल कांच - क्लीयर एवं टिन्टेड फ्लोट ग्लास, विभिन्न रंगीन शेड्स के रिफ्लेक्टिव ग्लास, आर्किटेक्चुरल हार्डवेयर एवं सेफ्टी ग्लास (टफन्ड, इन्सुलेटिड, लेमिनेटिड ग्लास) आदि-आदि के थोक एवं रिटेल कारोबार में संलग्न है, ने अपने इस अत्यल्प कारोबारी कार्यकाल के दौरान अभूतपूर्व व्यावसायिक प्रगति की है और उक्त फर्म निरन्तर प्रगति के पथ पर अग्रसर हैं। जनवरी, 2020 में स्थापित मैसर्स प्रगति इन्टीरियर एवं महाबली ग्लासेज प्रा0 लि0 के क्रमशः प्रोपराइटर श्री अजीत यादव एवं इनके पिता श्री रामाशंकर यादव हैं। श्री अजीत यादव को कांच कारोबार का दीर्घ एवं सघन अनुभव प्राप्त है, ने अभी हाल ही में अपने कारोबार का और अधिक विस्तार करते हुए ग्रीनप्लाइ एम डी एफ बोर्ड के कारोबार का भी शुभारम्भ किया है।

यूनाइटेड वर्ल्ड स्कूल ऑफ बिजनेस, गुरुग्राम (हरियाणा) से 2012 में एम.बी.ए. की डिग्री प्राप्त करने के पश्चात् श्री यादव ने अपने कैरियर की शुरुआत देश की दूसरी सबसे बड़ी फ्लोट ग्लास निर्माता कम्पनी - गोल्ड प्लस ग्लास इण्डस्ट्री लि0, दिल्ली में बतौर मार्केटिंग एक्जक्यूटिव के रूप में की और उक्त कम्पनी में आठ वर्षों तक कार्य करते हुए 'ए आर एम' के पद तक पहुँचे। इन्होंने कार्य करते हुये कांच-कारोबार का अनुभव प्राप्त किया। श्री अजीत यादव उक्त कम्पनी को ही अपना व्यावसायिक गुरु मानते हैं और कम्पनी के डायरेक्टर्स से आशीर्वाद प्राप्त करके 2020 में अपने गृह नगर गोरखपुर, उत्तर प्रदेश में थोक कांच

कारोबार का शुभारम्भ किया। 2020 में जब अपनी ट्रेडिंग फर्म मैसर्स महाबली ग्लासेज प्रा0 लि0 की स्थापना की, उस समय इस नवयुवक के पास अत्यल्प पूंजी थी, लेकिन दीर्घ एवं सघन अनुभव के बल पर इन्होंने अल्प काल में ही अपनी फर्म के कारोबार को अच्छे ढंग से स्थापित कर लिया और वर्तमान में मैसर्स महाबली ग्लासेज प्रा0 लि0 की गणना न केवल गोरखपुर बल्कि पूर्वी उत्तर प्रदेश की सर्वाधिक प्रगतिशील थोक ट्रेडिंग फर्मों में की जाने लगी है। उक्त फर्म देश में समतल कांच के निर्माण में संलग्न कम्पनियों - गोल्ड प्लस ग्लास इण्डस्ट्री लि0, असाही इण्डिया ग्लास लि0, सेन्ट-गोबेन इण्डिया प्रा0 लि0, गुजरात गार्जियन लि0 एवं सुमंगल ग्लास प्रा0 लि0 में बतौर अधिकृत थोक विक्रेता एवं स्टॉकिस्ट्स के रूप में कारोबार करती है।

मैसर्स महाबली ग्लासेज प्रा0 लि0 के संस्थापक श्री अजीत यादव ने उक्त फर्म का नामकरण 'महाबली' अर्थात् भगवान के नाम पर किया है क्योंकि इस संसार में भगवान को छोड़ कर न तो कोई महाबली है और न ही हो सकता है, साथ ही दूसरी फर्म मैसर्स 'प्रगति इन्टीरियर' का नामकरण अपनी 'लक्ष्मी स्वरूपा' कन्या 'प्रगति' के नाम पर किया, जिसमें समतल कांच की रिटेलिंग एवं आर्किटेक्चुरल हार्डवेयर की डीलिंग की जाती है।

अस्तु, श्री अजीत यादव ने 'फर्श' से 'अर्श' तक अपनी उक्त वर्णित प्रगतिशील कारोबारी यात्रा में न केवल 'कारोबारी प्रतिष्ठा' हासिल कर रहे हैं, बल्कि साथ ही 'सामाजिक-प्रतिष्ठा' प्राप्त करके एक ऐसा अनुकरणीय उदाहरण पेश कर रहे हैं, जिससे अन्य साहसी युवक भी प्रेरणा प्राप्त करके अपने जीवन में खुशहाली के वैसे ही रंग भर सकते हैं, जैसे श्री अजीत यादव साकार करके दिखा रहे हैं। श्री अजीत यादव की कारोबारी प्रगति के बारे में इस रिपोर्ट के प्रारम्भिक पैराग्राफ में वर्णन किया जा चुका

सुयोग्य एवं सघन अनुभवी फर्म के प्रोपराइटर
श्री अजीत यादव

है, लेकिन अब इन्होंने अपने मिलनसार एवं विनम्र व्यवहार के बल पर जो अनेकों सामाजिक सरोकार के कार्य कर रहे हैं उनका अधिक ब्यौरा ना लिखकर सिर्फ एक उदाहरण के माध्यम से इनकी 'सामाजिक-प्रतिष्ठा' के बारे में जाना जा सकता है। इस पत्रिका के मुख्य सम्पादक श्री उमेश दत्त शर्मा एवं कार्यकारी सम्पादक अभिषेक शर्मा ने दो वर्ष पूर्व श्री अजीत यादव से मुलाकात करने के ध्येय से उनके गोरखपुर स्थित प्रतिष्ठान का दौरा किया। उनके ऑफिस का पता जानने के लिए एक आम दुकानदार से जब हमने पूछा तो उसने कहा जिस कार्यालय का आप पता पूछ रहे हैं, ये तो नहीं मालूम, लेकिन श्री अजीत यादव का ठिकाना अवश्य मालूम है, और उनका ऑफिस कहां है यहां के स्थानीय बच्चों को भी मालूम है, क्योंकि लम्बी-लम्बी एवं बड़ी-बड़ी गाड़ियों से अनेकों व्यक्ति श्री अजीत यादव से मिलने अक्सर आते रहते हैं। आप थोड़ा आगे जाकर किसी भी व्यक्ति / बच्चे से उनके ऑफिस का पता पूछ सकते हैं। अस्तु 'सामाजिक-प्रतिष्ठा' के धनी श्री अजीत यादव सामाजिक गतिविधियों में भी उतने ही सक्रिय रहते हैं जितने अपने व्यवसाय में।

मैटल स्ट्रक्चर सॉल्युशन्स द्वारा सौन्दर्यकरण से ओत-प्रोत भव्य एवं स्पेशियस यूपीवीसी, एल्युमिनियम सिस्टम स्लाइडिंग विन्डोज का शो-रूम स्थापित

फर्म के गतिशील एवं दूरदृष्टिपूर्ण प्रोपराइटर श्री अमित गुप्ता एवं उनकी धर्मपत्नी श्रीमति पूजा गुप्ता

संस्कारधानी एवं प्राकृतिक सौन्दर्य के लिये प्रसिद्ध जबलपुर (मध्य प्रदेश) की जानी-मानी लब्धप्रतिष्ठित यूपीवीसी डोर्स / विन्डोज निर्माता फर्म मैसर्स मैटल स्ट्रक्चर सॉल्युशन्स (MSS Openings), जो 2013 से उच्च गुणवत्तायुक्त यूपीवीसी डोर्स / विन्डोज के निर्माण एवं प्रोसेसिंग में संलग्न है, ने अपने कारोबार का और अधिक विस्तार करते हुये 2024 में एक सौन्दर्यकरण से ओत-प्रोत भव्य एवं स्पेशियस यूपीवीसी एवं एल्युमिनियम सिस्टम स्लाइडिंग विन्डोज का एक शो-रूम स्थापित किया है, जिसका उद्घाटन 17 सितम्बर, 2024 को विधिवत् पूजा-अर्चना के साथ किया गया। जबलपुर दौरे पर गये इस पत्रिका के मुख्य सम्पादक श्री उमेश दत्त शर्मा एवं कार्यकारी सम्पादक अभिषेक शर्मा से औपचारिक मुलाकात करते हुये फर्म के 48 वर्षीय गतिशील एवं दूरदृष्टिपूर्ण प्रोपराइटर श्री अमित गुप्ता एवं उनकी धर्मपत्नी श्रीमति पूजा गुप्ता ने बतलाया कि यह शो-रूम हमारे लिए अत्यन्त लाभकारी साबित हो

रहा है। हमारा लक्ष्य केवल एक डिस्प्ले सेंटर बनाना ही नहीं, बल्कि अपने मूल्यवान ग्राहकों की पूर्ण सन्तुष्टि प्रदान करना भी है। आगे अपनी बात जारी रखते हुये बतलाया के उक्त शो-रूम में जो यूपीवीसी डोर्स / विन्डोज, एल्युमिनियम सिस्टम, स्लाइडिंग विन्डोज, यूपीवीसी आर्क विन्डोज, प्रीमियम रेलिंग सिस्टम को विभिन्न कलर्स के साथ इस प्रकार डिस्प्ले किया गया है कि जो हमारे मूल्यवान ग्राहक, आर्किटेक्ट्स, इण्टीरियर्स एवं एक्सटीरियर्स डेकोरेटर्स आदि पहली नजर में ही हमारे द्वारा उत्पादित उत्पाद को पसन्द कर सकें। इस शो-रूम में डोर्स / विन्डोज का जो बेहद आकर्षित तरीके से डिस्प्ले किया गया है, उसकी एक खास बात यह भी है कि ऊर्जा की बचत के साथ-साथ ध्वनि प्रदूषण पर भी अंकुश लगता है। इस शो-रूम में प्रदर्शित किये गये डोर्स / विन्डोज उच्च तकनीकी

के दृष्टिकोण से भी अत्यन्त उत्तम श्रेणी के हैं, जिसे इनके मूल्यवान ग्राहक अपने आवासीय एवं कॉमर्शियल दोनों स्थानों की उभरती हुई मांग को पूरा करने वाले अभिनव और सुरुचिपूर्ण उपयोग कर सकते हैं।

‘MSS Openings’ उच्च तकनीकी का उपयोग करके अपने ऐसे अत्याधुनिक प्रीमियम उत्पाद पेश करता है और साथ ही साथ गुणवत्ता, स्थिरता और ग्राहक सन्तुष्टि पर भी अपना पूरा ध्यान केन्द्रित करता है।

विदित हो, श्री अमित गुप्ता एवं उनकी धर्मपत्नी श्रीमति पूजा गुप्ता ने अपनी बात जारी रखते हुए आगे बतलाया कि यूरोप के अधिकांश देशों के साथ-साथ विश्व के विकसित देशों अमेरिका एवं एशिया के अनेक देशों में यूपीवीसी डोर्स-विन्डोज का प्रचलन गत 30 वर्षों से बड़े पैमाने पर हो रहा है।

यूपीवीसी डोर्स-विन्डोज के उपयोग से पूर्व उक्त देशों में आधुनिक बिल्डिंग्स में आर्किटेक्चरल उद्देश्यों हेतु कांच एवं एल्युमिनियम का उपयोग एक काम्बीनेशन के रूप में बहुत बड़ी मात्रा में होता रहा है, लेकिन गत् 30 वर्षों से एल्युमिनियम के स्थान पर यूपीवीसी डोर्स-विन्डोज को सभी विकसित देशों में एल्युमिनियम का एक बेहतर विकल्प माना गया है। फर्म के प्रोपराइटर श्री अमित गुप्ता का मानना है कि देशीय बिल्डिंग कंस्ट्रक्शन उद्योग में यूपीवीसी डोर्स-विन्डोज के निर्माण के कारोबार की प्रबल सम्भावनायें व्याप्त हैं और इसका कारोबारी भविष्य अत्यन्त उज्ज्वल एवं प्रचुर सम्भावनाओं से परिपूर्ण है। श्री अमित गुप्ता एक परिपक्व व्यावसायी की तरह कारोबार करते हैं, साथ ही साथ साफ सुथरी डीलिंग, ईमानदारी, व्यवहार कुशलता के बल पर अपने व्यवसाय को शिखर की तरफ ले जा रहे हैं।

मानव सभ्यता के प्राचीन काल से लेकर आधुनिक कालीन बिल्डिंग्स में एक अपरिहार्य आवश्यकता के रूप में समय-समय पर विभिन्न प्रकार के बिल्डिंग मैटीरियल - लकड़ी, स्टील, एल्युमिनियम, फाईबर ग्लास विनायल / पीवीसी / यूपीवीसी आदि से निर्मित खिड़कियों एवं दरवाजों का प्रचलन दृष्टव्य है। प्राचीन काल में एक लम्बे समय तक लकड़ी की खिड़कियां एवं दरवाजे

बहुतायत से प्रचलन में रहे, लेकिन कालान्तर में जनसंख्या के बढ़ते भारी दबाव से इमारती लकड़ी की मांग में भारी वृद्धि के कारण वृक्षों की अधाधुन्ध कटाई से जंगलों का क्षेत्रफल घटने लगा और पर्यावरणीय कारणों से सरकारों द्वारा वृक्षों की कटाई प्रतिबन्धित होने लगी। अस्तु, लकड़ी की दुर्लभता के कारण लकड़ी के दरवाजे खिड़कियों, फर्नीचर आदि की कीमतों में तुलनात्मक रूप से भारी वृद्धि होने के परिणामस्वरूप लकड़ी के विकल्प के रूप में स्टील, एल्युमिनियम, फाईबर ग्लास, पीवीसी एवं यूपीवीसी से निर्मित खिड़कियों एवं दरवाजों का प्रचलन

क्रमशः बढ़ने लगा।

यूरोप, अमेरिका एवं विश्व के अनेक देशों में तो लकड़ी के विकल्प के रूप में एनोडाइज्ड एवं कोटिड एल्युमिनियम के दरवाजे एवं खिड़कियों का प्रचलन पर्याप्त समय से है, लेकिन गत कतिपय दशकों से जैसे वुड के स्थान पर एल्युमिनियम की खिड़कियों, पार्टीशन्स एवं दरवाजों का बहुतायत से प्रचलन बढ़ा, वैसे ही अब गत कुछ समय से यूपीवीसी (Unplasticised Poly Vinyl Chloride) की खिड़कियों, पार्टीशन्स एवं दरवाजों का प्रचलन एक बड़े स्तर पर होने लगा है। भारत में

भी इनके बढ़ते प्रचलन के मद्देनजर देश के अनेकों दूरदृष्टिपूर्ण उद्यमियों / कारोबारियों ने भी यूपीवीसी खिड़कियों, दरवाजों के निर्माण की तरफ कदम बढ़ाये हैं।

‘MSS Openings’ ब्राण्ड के यूपीवीसी डोर्स / विन्डोज की विशेषताएं :

- ❖ फर्श, दीवार, दरवाजे, खिड़कियां अथवा फर्नीचर में पानी लगने से भारी नुकसान हो सकता है, लेकिन ‘MSS Openings’ ब्राण्ड यूपीवीसी डोर्स-विन्डोज में किसी भी प्रकार से पानी नहीं जाता है ये पूर्णतयः वाटरप्रूफ होते हैं।
- ❖ घटिया मैटेरियल से बने दरवाजे, खिड़कियां तेज हवा के प्रभाव से टूट सकती है लेकिन ‘MSS Openings’ ब्राण्ड यूपीवीसी डोर्स-विन्डोज एयरप्रूफ होते हैं।
- ❖ यूपीवीसी मैटेरियल में विशेष गुण होता है कि वह सेल्फ लुब्रिकेन्ट भी होता है।
- ❖ ‘MSS Openings’ ब्राण्ड उत्पाद मल्टीचेम्बर्स के बने होते हैं इसीलिए ये साउण्ड प्रूफ होते हैं।
- ❖ ‘MSS Opening’ ब्राण्ड उत्पाद पूर्णतः एयर

टाइट होते हैं, इस उत्पाद में ऐसे पदार्थ मिलाये जाते हैं कि इन पर वायु, नमी, ओजोन, कोलर्गैस, अमल अथवा क्षारों का कोई प्रभाव नहीं होता और ये लम्बे समय तक चलते हैं।

- ❖ ‘MSS Opening’ ब्राण्ड उत्पाद पूर्णतः ऊष्मारोधी होते हैं तथा बाहर की गरम / ठंडी हवा को अंदर नहीं आने देते हैं।
- ❖ ‘MSS Openings’ ब्राण्ड उत्पाद फायरप्रूफ होते हैं। आग लगने पर वह स्वतः ही बुझ जाती है।
- ❖ वातानुकूलित भवनों में ‘MSS Opening’ ब्राण्ड उत्पाद वायु अथवा ऊष्मा को न तो अन्दर से बाहर जाने देते हैं और न ही बाहर से अन्दर आने देते हैं इस प्रकार ये ऊर्जा की 30-35% तक बचत करते हैं।
- ❖ ‘MSS Openings’ ब्राण्ड उत्पाद लकड़ी के स्थान पर प्रयुक्त होते हैं जिससे वनों की कटाई पर रोक लगती है अतः ये Eco-Friendly भी होते हैं।
- ❖ ‘MSS Openings’ ब्राण्ड उत्पाद न तो आसानी से टूटते हैं और न कटते हैं, चोरों और सैन्य मारो से पूर्णतः सुरक्षा प्रदान करते हैं।

हाई टेक डोर्स एण्ड विन्डोज सिस्टम्स द्वारा अत्याधुनिक उन्नत तकनीकीयुक्त प्लान्ट से यूपीवीसी डोर्स, विन्डोज का उत्पादन प्रारम्भ

फर्म के संस्थापक जनाब अब्दुल हुसैन कांचवाला एवं इनके सुपुत्र जनाब सिराज हुसैन कांचवाला

रतलाम, मध्य प्रदेश की जानी-मानी लब्ध प्रतिष्ठित, साखयुक्त एवं थोक / रिटेल कांच कारोबारी फर्मों में गणना की जाने वाली फर्म - मैसर्स भारत ग्लास हाउस, जो 1965 समस्त प्रकार के समतल कांच, मूल्यवर्धित ग्लास मिरर, डेकोरेटिव मिरर, एलईडी मिरर्स, आर्किटेक्चुरल टफन्ड ग्लास, इन्सुलेटिड ग्लास, लेमिनेटिड ग्लास, आर्किटेक्चुरल ग्लास हार्डवेयर की ट्रेडिंग एवं प्रोसेसिंग में संलग्न है, ने अपने कारोबार का विस्तार करते हुए अप्रैल, 2025 में एक नवोदित फर्म मैसर्स हाई टेक डोर्स एण्ड विन्डोज सिस्टम्स की स्थापना की है, जिसके अन्तर्गत अत्याधुनिक उन्नत तकनीकीयुक्त एक यूपीवीसी डोर्स / विन्डोज का प्लान्ट स्थापित किया है। जिससे 1 अप्रैल, 2025 से यूपीवीसी डोर्स / विन्डोज का उत्पादन किया जा रहा है और रतलाम सहित मध्य प्रदेश की बढ़ती हुई यूपीवीसी डोर्स / विन्डोज की मांग को पूरा करने में उक्त फर्म अपना महत्वपूर्ण योगदान दे रही है।

मानव सभ्यता के प्राचीन काल से लेकर आधुनिक कालीन बिल्डिंग्स में एक अपरिहार्य आवश्यकता के रूप में समय-समय पर विभिन्न प्रकार के बिल्डिंग मैटीरियल - लकड़ी, स्टील, एल्युमिनियम, फाईबर ग्लास विनायल / पीवीसी / यूपीवीसी आदि से निर्मित खिड़कियों एवं दरवाजों का प्रचलन दृष्टव्य है। प्राचीन काल में

एक लम्बे समय तक लकड़ी की खिड़कियां एवं दरवाजे बहुतायत से प्रचलन में रहे, लेकिन कालान्तर में जनसंख्या के बढ़ते भारी दबाव से इमारती लकड़ी की मांग में भारी वृद्धि के कारण वृक्षों की अधाधुन्ध कटाई से जंगलों का क्षेत्रफल घटने लगा और पर्यावरणीय कारणों से सरकारों द्वारा वृक्षों की कटाई प्रतिबन्धित होने लगी। अस्तु, लकड़ी की दुर्लभता के कारण लकड़ी के दरवाजे खिड़कियों, फर्नीचर आदि की कीमतों में पर्याप्त रूप से भारी वृद्धि होने के परिणामस्वरूप लकड़ी के विकल्प के रूप में स्टील, एल्युमिनियम, फाईबर ग्लास, पीवीसी एवं यूपीवीसी से निर्मित खिड़कियों एवं दरवाजों का प्रचलन क्रमशः बढ़ने लगा।

यूरोप, अमेरिका एवं विश्व के अनेक देशों में तो लकड़ी के विकल्प के रूप में एनोडाइज्ड एवं कोटिड एल्युमिनियम के दरवाजे एवं खिड़कियों का प्रचलन पर्याप्त समय से है, लेकिन गत कतिपय दशकों से जैसे वुड के स्थान पर एल्युमिनियम की खिड़कियों, पार्टीशन्स एवं दरवाजों का बहुतायत से प्रचलन बढ़ा, वैसे ही अब गत कुछ समय से यूपीवीसी (Unplasticised Poly Vinyl Chloride) की खिड़कियों, पार्टीशन्स एवं

दरवाजों का प्रचलन एक बड़े स्तर पर होने लगा है। भारत में भी इनके बढ़ते प्रचलन के मद्देनजर देश के अनेकों दूरदृष्टिपूर्ण उद्यमियों / कारोबारियों ने भी यूपीवीसी खिड़कियों, दरवाजों के निर्माण की तरफ कदम बढ़ाये हैं।

मैसर्स भारत ग्लास हाउस की स्थापना आज से 60 वर्ष पूर्व 1965 में बहुत ही छोटे स्तर से 2 एम.एम. शीट ग्लास एवं फोटो फ्रेमिंग के रूप में जनाब अब्दुल हुसैन कांचवाला के द्वारा की गयी थी और वर्ष-दर-वर्ष प्रगति करते हुए फर्म द्वारा 1987 में समस्त प्रकार के समतल कांच की भी डीलिंग की जाने लगी, तत्पश्चात् 1985 में इनके सुपुत्र

जनाब सिराज हुसैन कांचवाला ने अपने पिता द्वारा स्थापित कांच कारोबार में प्रवेश किया और अपने पिता के साथ मिलकर उन्हीं के आदर्शों का अनुसरण करते हुए कड़ी मेहनत एवं सच्ची लगन के बल पर अपने कारोबार को प्रगति के पथ पर ले जाने लगे। 2007 में समय की मांग के अनुरूप समस्त प्रकार के मूल्यवर्धित ग्लास की प्रोसेसिंग का भी शुभारम्भ किया। 63 वर्षीय श्री सिराज कांचवाला एक उच्च स्तरीय सूझ-बूझ वाले साखयुक्त व्यावसायी हैं, जो अपनी इसी साख के बल पर अपने समतल कांच कारोबार को शिखर की तरफ ले जाने में पूरी तरह प्रयासरत हैं। और 2013

से इनके साथ कांच व्यापार में इनके भान्जे जनाब ताहा मालवी ने भी प्रवेश किया और गत् 12 वर्षों से अपने मामा जनाब सिराज हुसैन कांचवाला का सहयोग ही नहीं बल्कि कांच कारोबार में नित नई दिशा प्रदान कर रहे हैं और अभी हाल ही में इन्होंने अपने कारोबार का विस्तार करते हुए एक नयी फर्म मैसर्स हाई टेक डोर्स एण्ड विन्डोज सिस्टम्स की स्थापना की है, जिससे एक अप्रैल, 2025 से यूपीवीसी डोर्स / विन्डोज का उत्पादन किया जा रहा है। उक्त प्लान्ट रतलाम सहित मध्य प्रदेश के मार्केट में बढ़ती हुई यूपीवीसी डोर्स / विन्डोज की मांग को पूरा करने में अपना महत्वपूर्ण योगदान दे रही है।

शिवा ग्लास हाउस द्वारा भव्य एवं स्पेशियस मूल्यवर्धित ग्लास शो-रूम स्थापित

फर्म के पार्टनर श्री मुनीष बहल एवं साथ में इस पत्रिका के उप सम्पादक श्री रमेश चन्द्र शर्मा

लुधियाना, पंजाब स्थित जानी-मानी एवं लब्ध प्रतिष्ठित फर्म मैसर्स शिवा ग्लास हाउस, जो 1958 से किसी न किसी रूप में कांच कारोबार में संलग्न रही है और गत 27 वर्षों से समस्त प्रकार के समतल कांच क्लीयर एवं टिण्टेड फ्लोट ग्लास, रिफ्लेक्टिव ग्लास, लैक्ड ग्लास, मिरर आदि के रिटेल एवं थोक कारोबार में संलग्न है। इस फर्म के संस्थापक एवं प्रोपराइटर श्री मोहन लाल बहल थे। जो बहुत ही कर्मठ, कठिन परिश्रमी एवं ईमानदार साखयुक्त व्यवसायी थे, उनके सानिध्य में ही उनके दोनों सुपुत्र श्री नरिन्दर बहल एवं श्री मुनीष बहल ने कांच कारोबार की सघन बारीकियों को समझा एवं सीखा है। इनके विषय में हम विस्तारपूर्वक अपनी पत्रिका 'ग्लास न्यूज' के पूर्व अंकों में बता चुके हैं। वर्तमान में इनकी शिवा ग्लास इण्डस्ट्रीज प्रा0 लि0 के नाम से एक प्रोसेसिंग टेम्परिंग यूनिट भी उत्पादन में है जिससे विभिन्न प्रकार के टेम्पर्ड / हीट स्ट्रेन्थंड ग्लास 'शिवा टफ' ब्राण्ड से मार्केट में उपलब्ध कराये जा रहे हैं। कारोबार विस्तार की इसी कड़ी में 16 जनवरी, 2022 को लुधियाना में फिरोजपुर रोड पर जैन स्वीट के पास 'स्टूडियो शिवा ग्लास' के नाम से एक विशाल एवं भव्य वातानुकूलित शो-रूम

का शुभारम्भ किया, ताकि अपने मूल्यवान ग्राहकों को उनके पुराने ऑफिस तक नहीं जाना पड़े और मूल्यवान ग्राहकों का समय बच सके।

श्री नरिन्दर बहल एवं श्री मुनीष बहल सुशिक्षित एवं दूरदृष्टिपूर्ण व्यावसायी हैं और समयानुसार अपने कारोबार में बदलाव करते रहे हैं, इसी को मद्दे नजर रखते हुए इन्होंने अपने ऑफिस का रिनोवेशन करते हुए यह प्रदर्शित किया है कि समय के साथ-साथ अपने कारोबार को सुरक्षित रखने के लिये बदलाव बहुत ही परमावश्यक है। विदित हो, फर्म के पार्टनर श्री नरिन्दर बहल एवं मुनीष बहल ने लुधियाना के दौरे पर गये इस पत्रिका के उप सम्पादक श्री रमेश चन्द्र शर्मा से बातचीत के दौरान बतलाया कि लगभग 32 वर्षों के दौरान देशीय समतल कांच उद्योग / व्यापार, सघन पूंजी विनियोग, तकनीकी उन्नयन, उत्पादन क्षमता एवं मांग में अभूतपूर्व विकास आदि के दृष्टिकोण से क्रान्तिकारी परिवर्तन हुये हैं और इसके परिणाम स्वरूप जो उद्यमी एवं कारोबारी उक्त उद्योग व्यापार के बदलते परिदृश्य में समय के साथ-साथ अपने कारोबार के तौर-तरीकों में सम्यक परिवर्तन ले आये हैं, वे निरन्तर प्रगति के पथ पर अग्रसर हैं। इस दिशा में

हमने भी अपने ऑफिस का रिनोवेशन समय की मांग के अनुसार ही किया है और देशीय मार्केट में यूपीवीसी, एल्युमिनियम एवं स्लिम प्रोफाइल, डोर्स, विन्डोज की बढ़ती हुई मांग के मद्देनजर हमने यह निर्णय लिया कि शो-रूम में मूल्यवान ग्राहकों को आसानी पूर्वक डिस्प्ले के माध्यम से कहां कौनसी वस्तु आएगी, ये समझाना आसान होगा, इसीलिए हमने इस शो-रूम को तैयार कराया और इसमें यूपीवीसी एवं एल्युमिनियम स्लिम प्रोफाइल के सभी प्रकार के सेम्पल तैयार कराके उनकी उपयोगिता को प्रदर्शित किया है, साथ ही इस कारोबार का भविष्य अत्यन्त उज्ज्वल एवं सम्भावनाओं से परिपूर्ण है।

प्राचीन काल से लेकर आज तक बिल्डिंग की आवश्यकता के रूप में समय के साथ-साथ विभिन्न प्रकार के बिल्डिंग मैटेरियल लकड़ी, एल्युमिनियम, फाइबर, ग्लास, यूपीवीसी आदि से निर्मित खिड़कियों एवं दरवाजों का प्रचलन देखने में आता रहा है। प्राचीन काल में काफी लम्बे समय तक बिल्डिंग में दरवाजों एवं खिड़कियों में लकड़ी का उपयोग प्रचुर मात्रा में होता रहा, लेकिन कालान्तर में जनसंख्या में वृद्धि के कारण लकड़ी की मांग में भारी वृद्धि होने लगी, जिसके कारण वृक्षों की अत्यधिक कटाई से जंगलों का क्षेत्रफल घटने लगा और पर्यावरण दूषित होने लगा, जिसके कारण माननीय सर्वोच्च न्यायालय ने पर्यावरण को सुरक्षित रखने के लिए वृक्षों की अधाधुन्य कटाई पर प्रतिबन्ध लगा दिया, अस्तु लकड़ी की दुर्लभता के कारण लकड़ी की खिड़कियों, दरवाजे और लकड़ी के फर्नीचर आदि की कीमतों में भारी वृद्धि के कारण लकड़ी के स्थान पर एल्युमिनियम स्लिम प्रोफाइल ग्लास, स्टील, पीवीसी एवं यूपीवीसी का बिल्डिंग के दरवाजों, खिड़कियों एवं फर्नीचर आदि में बहुत बड़ी मात्रा में उपयोग होने लगा।

विदित हो, विश्व के अनेक देशों में तो

लकड़ी के स्थान पर एल्युमिनियम / स्लिम प्रोफाइल डोर्स, विन्डोज एवं पार्टीशन्स का उपयोग काफी समय से प्रचलन में है, लेकिन अब भारत में गत् 10-12 वर्षों से एल्युमिनियम स्लिम प्रोफाइल एवं यूपीवीसी के दरवाजों एवं खिड़कियों का प्रचलन तेजी से बढ़ रहा है। इसी को मद्देनजर रखते हुए हमने अग्रणी एवं प्रगतिशील कारोबारी की तरह कदम उठाए हैं।

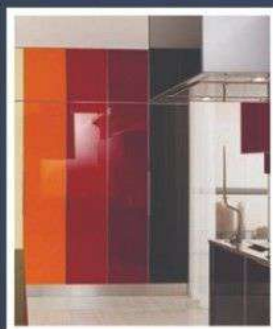

ज्ञातव्य हो कि, निकट भविष्य में हमारी एक कम्पनी एल्युमिनियम का उत्पादन करेगी, जिसका उत्पादन लगभग सितम्बर 2025 तक मार्केट में आने की पूर्ण संभावना है और हम गत् 27 वर्षों की तरह ही अपने सभी रिटेलर्स द्वारा दिये गये सहयोग के लिए सभी रिटेलर्स बंधुओं का धन्यवाद करते हैं और भविष्य में भी उनसे उसी तरह के सहयोग की अपेक्षा करते हैं।

JAINSANJEEV8054@GMAIL.COM

समस्त प्रकार के घरेलू एवं आयातित समतल कांच-कारोबार के क्षेत्र में एक प्रतिष्ठित एवं सुपरिचित नाम - सम्राट ग्लास हाउस

फर्म के सघन अनुभवी दूरदृष्टिपूर्ण प्रोपराइटर श्री संजीव जैन एवं उनके युवा सुपुत्र श्री संकेत जैन

लुधियाना, पंजाब की साखयुक्त, प्रतिष्ठित प्रगतिशील फर्मों में गणना की जाने वाली फर्म मैसर्स सम्राट ग्लास हाउस, जो गत् 34 वर्षों से समस्त प्रकार के समतल कांच - क्लीयर एवं टिन्टेड फ्लोट ग्लास, रिलेक्टिव ग्लास, डेकोरेटिव मिरर, एल.ई.डी. मिरर, डिजाइनर फिल्म, आर्किटेक्चुरल टफण्ड ग्लास, आर्किटेक्चुरल ग्लास हार्डवेयर, थिकर ग्लास, आयातित ग्लास, मिरर, ग्लास ब्लॉक्स एवं सिलीकॉन आदि के कारोबार के साथ-साथ कांच एवं कांच उत्पादों की विविध श्रृंखला में डायमण्ड की तरह क्रिस्टल क्लीयर, बेवलड ग्लास, ईचड ग्लास, ग्लास टू ग्लास आदि के कारोबार एवं प्रोसेसिंग में संलग्न है। विदित हो, 1992 में सम्राट ग्लास हाउस के 53 वर्षीय प्रोपराइटर श्री संजीव जैन ने अपने कारोबार की शुरुआत बहुत ही छोटे स्तर से की और उनके कठिन परिश्रम एवं ईमानदारी के बल पर फर्म का कारोबार दिनों-दिन एवं वर्ष-दर-वर्ष बढ़ता गया और अल्पकाल में ही फर्म का ग्राफ इतनी तेजी के साथ बढ़ा कि काफी लम्बे समय से अन्य कांच कारोबारी फर्म काफी पीछे छूट गई। यह

सब कुछ श्री संजीव जैन की ईमानदारी एवं मार्केट में उच्चस्तरीय साख अर्जित करने के कारण ही सम्भव हो पाया है।

मैसर्स सम्राट ग्लास हाउस के 53 वर्षीय प्रोपराइटर श्री संजीव जैन, जो शिक्षा में बी.कॉम स्नातक हैं, जिनको कांच कारोबार का लगभग 34 वर्षों का सघन अनुभव प्राप्त है और जो दूरदृष्टिपूर्ण व्यावसायी हैं, ने लुधियाना, पंजाब दौरे पर गये इस पत्रिका के उप सम्पादक रमेश चन्द्र शर्मा से एक अनौपचारिक मुलाकात के दौरान बातचीत करते हुये बतलाया कि गत् 32 वर्षों के दौरान देशीय समतल कांच उद्योग / व्यापार, सघन पूंजी विनियोग, तकनीकी उन्नयन, उत्पादन क्षमता एवं मांग में अभूतपूर्व विकास आदि के दृष्टिकोण से क्रान्तिकारी परिवर्तन हुये हैं और इसके परिणाम स्वरूप जो उद्यमी एवं कारोबारी उक्त उद्योग व्यापार के बदलते परिदृश्य में समय के साथ-साथ अपने कारोबार के तौर-तरीकों में सम्यक परिवर्तन ले आये हैं, वे निरंतर प्रगति के पथ पर अग्रसर हैं। इस दिशा में हमने भी समय की मांग के अनुसार एक नए गोडाउन की

स्थापना की है, जिसमें मैसर्स राज ग्लास मशीन्स, मुम्बई द्वारा चीन से आयातित बैवलिंग मशीन की स्थापना की है। जिससे हम अपने मूल्यवान ग्राहकों की और अच्छी सेवा करने में सक्षम हुए हैं।

विदित हो, वर्तमान में श्री जैन के 28 वर्षीय सुपुत्र श्री संकेत जैन जो शिक्षा में बी.टेक. हैं और जिन्होंने 3 वर्षों तक गुरुग्राम स्थित एक आई टी कम्पनी में कार्य किया है, गत 4 वर्षों से अपने पिताश्री के साथ कांच कारोबार में संलग्न हैं और अपने पिता द्वारा स्थापित एवं विकसित कांच कारोबार को अपने पिता श्री के मार्गदर्शन में नित नई दिशा प्रदान कर रहे हैं और अपने कारोबार को शिखर की तरफ ले जाने में पूरी तरह प्रयासरत हैं। श्री संकेत जैन अपने पिताश्री की तरह ही कठिन परिश्रमी, मृदुभाषी एवं व्यवहार कुशल व्यापारी हैं। वर्तमान में मैसर्स सम्राट ग्लास हाउस देश में फ्लोट ग्लास के निर्माण में संलग्न कम्पनी - गुजरात गार्जियन लि0, सिस्केम फ्लोट ग्लास इण्डिया प्रा0 लि0 के मैटेरियल की बतौर अधिकृत विक्रेता फर्म है।

Horizontal Forced Convection Glass Tempering Furnace

BolayMac is one of the professional and reputed companies of China, supplying glass machinery (Pre-processing machinery-CNC Cutting Line, Double Edger Line, Bevelling Machine, Straight-line Edger, Drilling Machine, Shape-edging Machine, Washing Machine, Sandblasting Machine, and processing machinery like Tempering Line, Lamination Line and Insulating Line) to many countries like Turkey, Singapore, UK, US, Saudi Arabia, Palestine, Azerbaijan, Georgia, Lebanon, Chile, Paraguay, and India.

BolayMac mainly provides standard and non-standard equipment for glass processing industries such as architectural glass, automotive glass and home appliance glass. In addition to equipment, BolayMac has rich experience of more than a decade in planning and delivering complete end-to-end solutions to glass processors and assisting in consulting of right machinery, providing prompt and economical after sales service such as installation, training, maintenance and on-going support to satisfy all glass processors' needs.

We believe that the nature of modern business, where BolayMac acts as an aggregator and becomes a professional platform (bridge) between Chinese local suppliers and oversea clients, brings modern technology in the glass Industry, sets new standards and assists customers reach new heights. As they thought were extremely stressful.

EXPERIENCE PRECISION AND
DURABILITY WITH **LCH**

HIGH SPEED DOUBLE EDGING MACHINE

Double Production, Half the Power

✓ Patented technology processes two glass sizes at once, saving time and electricity.

Heavy-Duty Steel Structure

✓ High-speed stability and durability ensured by extra-thick machine frames—used by only a few elite manufacturers.

Premium Components

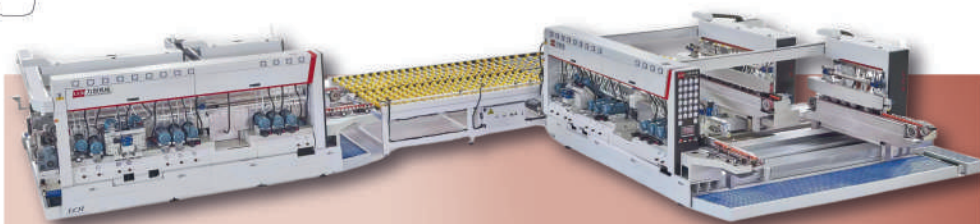

✓ Built with ABB motors, Bosch guide rails, Barberi belts—delivering unmatched performance and longevity.

Over 17 Years of Proven Excellence

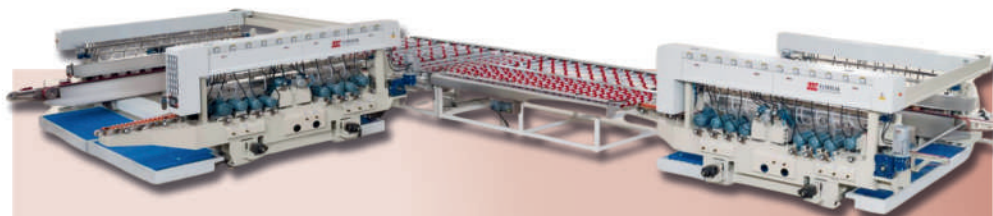

✓ Globally trusted with more than a decade of successful installations across India and worldwide.

Global Standards Indian Trust

✓ Delivers consistent day-one performance even after 10+ years, earning 100% repeat customers in India.
